

About the Publication

The *Postgraduate Office at Stellenbosch University (SU)* produces the *Guide to Postgraduate Student Funding*. The booklet contains information of sources of internal (managed by SU) and external (managed by independent organisations) funding opportunities in order to assist postgraduate students financially (at Honours, Master's and Doctorate level). The publication and its information are relevant and applicable to the years in which the bursary or scholarship information is tenable, or as indicated. While extreme care has been taken to ensure accuracy and detailed information about bursaries, the publishers take no responsibility for any personal losses or inconveniences experienced due to usage of this guide. All information contained is accurate at the time of print. It remains the responsibility of the reader to act according to the info provided in the guide. Unless otherwise stated, the Postgraduate Office does not act as liaison between a student and an external funding organisation.

About the Publishers

The Postgraduate Office (PGO) is a central support and liaison office for postgraduate students. The PGO seeks to create enabling postgraduate environments in the faculties and support service divisions, thereby improving the overall quality of the research experience for postgraduate students. It approaches its task as an institutional role-player, making input on appropriate forums in the interest of improving the processes that govern the postgraduate lifecycle. The PGO focusses on PG Enrolment Support, PG Funding and Support and PG Skills Development and Support. The PGO works with academic, support service environments, and develops the necessary mechanisms via the relevant decision-making bodies so that the comprehensive academic and support services provision remains optimal and continues to comply with international standards.

About the University

Stellenbosch University, as one of Africa's foremost research institutions, is one of 26 Higher Education Institution (HEI) in South Africa and is located in the heart of the Cape Winelands region. The University has 10 (ten) faculties across 5 (five) campuses and present programmes from undergraduate level through to PhD in all these faculties. With the exception of Military Sciences (one of the ten faculties), international students can study in all faculties from undergraduate to PhD level.

Stellenbosch University has 30283 students (in June 2017) of which postgraduate students comprise 34%.

INTRODUCTION

This booklet contains information on postgraduate student funding at Stellenbosch University. It distinguishes between funding administered internally (that is, by structures within Stellenbosch University: the Postgraduate Student Funding Office) and independently administered or external funding (i.e. bursaries from external companies or organisations). Although this booklet contains information on all University-administered bursaries for postgraduate students to undertake studies at Stellenbosch University (prospective and currently enrolled students), this booklet is not an exhaustive list of all funding opportunities available. For bursaries managed outside the university, students should engage in their own research and make contact with funding organisations independently. More information on other sources of funding as well as external resources can be found at the end of the booklet.

It is important for students to note that although scholarships are received, there are certain responsibilities that remain theirs:

1. Payment of Academic Fees: Payment of registration and tuition fees remains the responsibility of the student.
2. Application for bursaries: Bursaries are not automatically awarded, but are allocated according to set criteria. Applications should be submitted by stipulated closing dates.
3. Contracts: When a student accepts a bursary, the bursary institution will require him / her to enter into a contract. Please ensure you understand the terms and conditions.
4. Follow up after application: Within 10 working days after bursary closing date, if you have not received acknowledgement receipt of application, please enquire.
5. Renewal: Where a particular bursary allows for a renewal, an application should be made by the announced closing date.
6. Updating details: Please ensure that any change of address or email address or any contact numbers is recorded at Student Records.

While the university aims to assist postgraduate students by providing financial support based on academic merit and financial need to deserving students, it should be noted that funding from the University at postgraduate level cannot be guaranteed. Students are advised to plan their finances carefully and to check whether or not they meet the basic requirements before applying for a bursary. They should also ensure that there are additional backup plans in terms of funding.

International students should not rely on obtaining funds in the R.S.A. but should seek funding in their country of origin before coming to Stellenbosch University.

Students can subscribe to the Take Note newsletter that contains information on university and independently administered scholarships and opportunities for undergraduate and postgraduate students. Subscribe by sending an email to interweb@sun.ac.za.

FUNDING MANAGED BY STELLENBOSCH UNIVERSITY

Important Funding Conditions

The number of bursaries available is limited.

- Bursaries based on academic merit are awarded in competition,
- In the case of bursaries based on financial need, such need is ascertained by the means test, and awards considered accordingly, along with academic achievement.

SU reserves the right to cancel an award, to make no awards at all and to effect changes to the conditions of the award. Applicants are given every assurance that changes will only be made in compelling circumstances.

Please note that as of January 2018, the Postgraduate Merit bursaries (where bursaries are awarded when students obtained 75% and more in previous degrees) are no longer available and no new applications will be considered.

In awarding bursaries, the University uses a range of criteria specific to each bursary being applied for. It is therefore necessary to consult each specific bursary to view all available funding and their criteria. There are however some general guidelines as to eligibility for bursaries administered by Stellenbosch University:

- The University places a limitation on the bursary amounts that students can hold. This limitation is reviewed annually. The current limitation is as follows: Honours (R130 000), Master's (R210 000), PhD (R275 000). The limitation does not mean students should expect to receive bursaries to that amount.
- Candidates already in possession of a qualification on the same level or higher than the one support is being sought for, are not eligible to apply for bursaries.
- **Should a student receive a provisional award for an intended degree but fails to register for that degree but instead registers for a degree at the same level they currently hold, the award will subsequently be cancelled.**
- Incomplete applications submitted without supporting documents will be disqualified and not considered.
- Late applications will be processed according to the policy approved by the University.

Bursary Application Process

STEP 1: Preparation: Do research on available bursaries: those administered by SU and those independently awarded. Consult the Grants register. Be aware of the stipulated closing dates.

STEP 2: Application: Understand the bursary criteria and conditions. Always submit applications timeously.

STEP 3: Notification of outcome: Applications for funding do not guarantee receipt. Bursary applications are reviewed by panels. After review, the student will be notified of outcome.

STEP 4: Follow-up and renewal: Within 10 working days after bursary closing date, if you have not received acknowledgement receipt of application, please enquire. Where renewal of a bursary is possible, please ensure you apply timeously.

Postgraduate Support Bursary

General information

Allocation of funds is subject to availability. The Postgraduate Support Bursary amount is not sufficient to cover all study costs and students should also apply for other bursaries and loans, and/or have supplementary funds available. Bursaries are paid, after receipt of the signed Declaration and completed financial planning, in March. Please note that students with financial need are classified as those with a total gross annual family income of no more than R250 000.00. Students who experience financial problems because of lifestyle choices (housing, transport, education of offspring) do not qualify as such.

Eligibility

The Postgraduate Support Bursary is a resource for extremely financially needy students registered with the University for postgraduate programmes a postgraduate diploma, an honours, Master's or doctoral degree. This scheme is available to full-time and part-time postgraduate students. Part-time students qualify for a smaller amount. It is awarded on extreme financial need.

Financial need is determined by a means test that takes the following into consideration:

- Family income
- Other bursaries received
- Family size
- Home Consumers' Index

There is no predetermined cut-off point for family income, but it can generally be accepted that a student will not be assisted from the fund if family income is such that a commercial bank will accept the breadwinner(s) as surety for a study loan.

How to apply

Application should be done electronically via the student portal <http://my.sun.ac.za> from **1 July**. Closing date is **28 September**.

SCHOLARSHIP AND OPPORTUNITIES RESOURCES

Bursaries and Loans booklet (Part 2 of Stellenbosch University's Calendar)

The Bursaries and Loans booklet is a booklet summarizing all bursaries and loans managed by Stellenbosch University for undergraduate and postgraduate students and is updated and re-printed annually. The booklet is available at the Postgraduate Office, and in the Administration A Building of the University.

Postgraduate Student Funding booklet (print and electronic versions)

The PGSF booklet is compiled and printed on an annual basis, subject to review and renewal of content. The printed booklet can be accessed at the Postgraduate Student Funding Office, on the third floor of the R.W. Wilcocks Building. The booklet can also be accessed on the website of the Postgraduate Student Funding and Support webpage: www.sun.ac.za/pgo/funding.

Take Note newsletter

From time to time the SU International Office collates and publishes information on scholarships and opportunities administered by Stellenbosch as well as independently, in a bi-monthly Scholarships and Opportunities newsletter. To receive updates on such opportunities, you can subscribe to the mailing list sending an email to: interweb@sun.ac.za

Grants Register

The Grants Register contains an array of international scholarships and funding opportunities for postgraduate students. The register is available online.
