

Motivation: Either no clinical training in the years of study, or unable to access the clinical platform for these years of study - senior years have been prioritised, because more junior years have time to catch up clinical training opportunities

Contact: Programme coordinator

Phased return of undergraduates for clinical training arrangements

As per previous submission

6th year MBChB - May

4th year - staggered over June and July - Physio, OT, Dietetics, Speech, Language and Hearing Therapy
