## **GENERAL INFORMATION**

In this publication, any expression signifying one of the genders includes the other gender equally, unless inconsistent with the context.

The University reserves the right to amend the Calendar at any time. The Council and the Senate of the University accept no liability for any inaccuracies there may be in the Calendar. Every reasonable care has been taken, however, to ensure that the relevant information to hand as at the time of going to press, is given fully and accurately in the Calendar. Notifications regarding bursaries or the amendment of bursary conditions are announced through the official channels of the University and also sent to the deans of the faculties concerned.

In the event of uncertainty or a dispute regarding information in Part 2 of the Calendar, the final interpretation will be based on the Afrikaans version.

### **Language Policy and Plan**

The official Language Policy and Language Plan of Stellenbosch University were approved by the Council of the University. The full version is available at <http://www.sun.ac.za/language>.

### **Inclusivity**

Stellenbosch University admits students of any race to all rights, privileges, programmes and activities generally accorded or made available to students of the University. The University does not discriminate on the basis of race in the implementation of its educational policies, its scholarship and loan programmes, or its sport programmes.

### **Communication with the University**

In dealing with new formal applications for admission, the University assigns a student number to each applicant. This number serves as the unique identification of the person concerned. However, the mere assignment of a student number does not imply that the applicant has been accepted for the proposed programme of study. You will be advised whether or not you have been accepted in a separate letter.

Once you have been informed of your student number, you must please quote it in all future correspondence with the University.

The assigning of a student number only implies conditional admission to a programme.

## **Important concepts**

### **Number**

In this Part 2 of the University Calendar, any expression signifying the singular includes the plural, and vice versa, unless inconsistent with the context.

### **Programme**

In this Part 2 of the University Calendar, the terms “programme” and “programmes” are short for “instructional programme”/“programme of study” and “instructional programmes”/“programmes of study” respectively, unless inconsistent with the context.

### **Holder**

The term “holder” means “bursary holder, bursary loan holder and/or merit award holder”, unless inconsistent with the context.

### **Bursary**

An amount of money paid to a needy, deserving student which the student may use to pay for his studies fully or in part. There may be a service agreement attached to the bursary.

### **Loan**

An amount of money lent to a needy, deserving student with which he may pay his studies in full or in part. The money must be paid back by the student.

### **Bursary loan**

An amount of money lent to a needy, deserving student with which he may pay his studies in full or in part. Depending on certain criteria, part of this loan may be converted to a bursary.

## **FINANCIAL SUPPORT**

Stellenbosch University believes that people who have the potential to make a success of academic studies should as far as practicable be given the appropriate opportunities. This is why we strive to provide as much support as we possibly can to those who gain admission to the University as students but lack the financial means required.

The financial neediness of its students is thus a factor to which the University is very much alert. Unfortunately, though, we do not have unlimited funds at our disposal. This means that students cannot look for financial support to the University only. Nor is the fact that a student has applied for a bursary and/or a bursary loan a guarantee in any sense that he will be granted such bursary or bursary loan.

The University provides only two forms of financial support for its students that they can be “sure” of, namely merit awards and the “three children” rebates.

In the granting of these awards and rebates, financial neediness is not among the factors taken into consideration. In the first and last instance, therefore, each student of Stellenbosch University is personally responsible for making financial provision for the settlement of his student fees account.

### **1. Who qualifies for financial assistance?**

#### **1.1 The two sets of factors in the University’s allocation of bursaries**

Since the University’s financial resources are not unlimited, it bases the allocation of bursaries and/or loans on both academic and financial factors.

Central to the academic factors is the individual’s potential to make a success of university studies. Central to the financial factors is the individual’s financial neediness.

##### **a) Academic factors**

- Students of the University, whether registered or prospective, must meet the minimum academic requirements for admission.
- First-year students and students in one of the extended degree programmes who have been admitted to the University as students on the strength of their results in the final school examinations (or equivalent examinations) are eligible for financial support (the University takes such admission to be sufficient proof of their capacity to make a success of university studies).
- Undergraduate students of the University must be registered for full-time, complete programmes.
- Senior students – that is, students in a second or further year of study – are required to have passed not less than two-thirds of the credits of their previous year of study.

### **b) Financial neediness**

If an applicant has the academic potential to study successfully, the University will consider his financial neediness. To form an accurate picture of the applicant's financial position, the University requires the following document(s) concerning the finances of his parents/guardian/spouse:

- the parents'/guardian's/spouse's latest salary advice(s) or, where applicable, a letter from the employer declaring the parents'/guardian's/spouse's income; or
- if the parent/guardian/spouse is a pensioner, or has taken a severance/early retirement package, or is dependent on revenue from interest, documents in proof of this fact; or
- if the parent/guardian/spouse runs a business or farm of his own, the latest, properly audited statements of such business or farm.

With these financial particulars to hand, the Centre for Undergraduate Bursaries and Loans then assesses the application in terms of the University's means test. The means test measures the extent of the applicant's financial neediness.

This means test is administered, irrespective of persons, to applicants for any financial aid for which financial neediness is a precondition. Students are granted financial support, regardless of race and gender, in direct proportion to the extent of their neediness as measured by the means test.

The applicant is generally regarded as financially needy if the gross family income is less than R20 000 per month and the family, therefore, does not qualify for a loan at a bank.

### **1.2 How can I apply for financial assistance?**

Study this book carefully to determine which bursaries and/or bursary loans you qualify for. Make sure to read through the general bursaries, as well as the faculty-specific bursaries.

- You can apply for financial assistance at [www.maties.com](http://www.maties.com) or visit [www.mymaties.com](http://www.mymaties.com) from 1 April; hand in your application form with supporting documents at the Centre for Bursaries and Loans, Admin A, R 2063.
- You can use the same form to apply for more than one bursary, loan or bursary loan administered by Stellenbosch University.
- For bursaries administered by a private company or organisation, you can contact the company or organisation directly for application forms.
- Make sure that you complete all the necessary forms correctly and completely and that all required supporting documents are attached. Incomplete applications will not be considered.

Special students or students who are not registered for the minimum prescribed credits for their degree programmes in a relevant academic year will not be considered.

### **1.3 What is the closing date for applications?**

- The closing date for undergraduate bursaries administered by Stellenbosch University is 31 August. (These bursaries you will find at [www.mymaties.com](http://www.mymaties.com).)
- Applications received after the closing date will be considered during a second phase, at a later stage, depending on the availability of funds for these late applications.
- The closing dates for bursaries administered by private companies or organisations may differ from that of the University, but the closing date of each externally administered bursary is indicated in bursary section of this book.

### **1.4 How will I know if my application was successful?**

- All proposed awards of bursaries to prospective students are finalised during November. The Centre for Undergraduate Bursaries and Loans then informs each applicant in writing of the outcome of his application soon hereafter.
- If a senior student has not received a letter by end of December, he may contact the Centre for Undergraduate Bursaries and Loans at telephone number (021) 808 9111.

### **1.5 When is the money paid out?**

In the case of merit awards and of bursaries/bursary loans for local full-time studies which are received and administered by the University, the University transfers the monies concerned into the holders' student fees accounts.

If a merit award holder's student fees account shows a credit balance, the University is prepared to disburse -

- one-half of the credit balance to the holder at the end of the first semester; and
- the other half of the credit balance to the holder at the end of the second semester.

#### **Please note**

- If a student holds a merit award together with a bursary or bursary loan of the University, credit will not be disbursed to him.

#### **Instructions of companies**

- If a holder's student fees account shows a credit balance at the end of the year, the University will credit the amount in question against the holder's account for the next year, or disburse the amount in question to the holder, in strict accordance with the instructions of the companies of the merit award or bursary.

### **1.6 What may I spend the money on?**

- All bursaries and bursary loans that are awarded to students may only be used for class fees, accommodation, meals and books.
- No bursary or loan money may be used for travelling expenses, lodging with parents/guardian or equipment, e.g. computers, cameras, stationery or white laboratory coats.

### **1.7 Reduction or cancellation of bursary or bursary loan**

- A bursary or bursary loan may be cancelled or reduced at any time if the holder's conduct, diligence or progress is unsatisfactory or if he discontinues his studies, or if the standard of his class work or his examination results are, in the University's opinion, not adequate.
- The amount of the bursary or bursary loan is determined by a financial means test. If the student receives any other bursary or bursaries (e.g. a SU merit award), the amount of the bursary or bursary loan will be reduced accordingly or even cancelled. This reduction or cancellation of the bursary or bursary loan is done automatically and students and parents will not be notified about this beforehand.

### **1.8 Repayment of bursary and/or bursary loan on non-completion of program**

If the holder of a bursary or bursary loan fails to complete his programme, the University may demand repayment by him of the amount disbursed to him.

## **2. What kind of financial assistance is available?**

Students and prospective students of the University are eligible for a wide range of bursaries and/or bursary loans. Roughly speaking, these fall into four broad types:

- merit awards for Stellenbosch University students, granted solely on the basis of scholastic or academic achievement.
- rebates for certain Stellenbosch University students.
- sport bursaries for Stellenbosch University students, awarded on the basis of achievements other than scholastic or academic.
- a large number of bursaries/bursary loans for financially needy undergraduate and postgraduate students of Stellenbosch University.

## 2.1 Merit awards and special awards for first-year students

### a) Merit awards

#### Date for granting merit bursaries

Please note that merit bursaries are awarded in April.

#### Calculating and granting merit bursaries

- In respect of First-year Merit Bursaries, the criterion used is the actual average of a prospective student's final Grade 12 exam results (calculated based on a combination of the six best subjects required to gain admission to Baccalaureus studies at a university, excluding Life Orientation and Mathematics Paper 3), as indicated by the respective education departments. Merit Bursaries are calculated as a percentage of tuition fees.
- Following registration and once results have been announced, an algorithm with a given budget amount and fixed budget parameters is used to calculate the amounts to be allocated.
- The calculated amounts are then automatically transferred to the beneficiaries' student accounts.

The following scale is applicable to first-year merit bursaries:

Matric average	% rebate on basic tuition fees (excluding module costs)
85 - 89%	40% (guarantee)
90 – 95%	* > 40%
95% and higher	>40%
* The % rebate will depend on the number of qualifying candidates and the amount available for merit bursaries.	

#### Please note

- First-year students that completed their school end exams outside a provincial education-department (excluding IEB examination), must submit a certified copy of their final Grade 12-exam results to the Centre for Undergraduate Bursaries and Loans.
- The onus rests on the student to verify by June of the specific academic year in which they are entitled to a merit bursary whether the bursary is indicated on their student fees account.
- If the latter are not reflected, they must notify the Centre for Undergraduate Bursaries and Loans before the end of August; otherwise they forfeit their claim to a merit bursary.

### **Cancellation of merit bursaries**

- The merit bursaries of students who discontinues their studies in the first semester, will be cancelled.

### **Merit bursaries to students that studied at other institutions**

- Students who studied at other institutions, do not qualify for First-year Merit Bursaries, but can be considered for Senior Merit Bursaries if their weighted average was 75% or higher.
- These students should submit their results to the Centre for Undergraduate Bursaries and Loans.

### **b) Sport bursaries**

- First-year students who have superior sporting achievements to their credit are eligible for a range of special bursaries that are not listed in this book. For more information, please contact Maties Sport, tel. 021 808 4642.

### **c) “Three Children” Rebate**

- The University gives a 10% rebate on tuition fees where three or more children from the same family are studying at the University simultaneously.

## **2.2 Merit awards and special bursaries for senior students**

### **Definitions**

#### **Senior undergraduate students**

For the purposes of this Part 2 of the University Calendar, the phrase “senior undergraduate students” means “senior students of the University who are taking undergraduate or postgraduate bachelor’s degrees - e.g. LLB as a second bachelor’s degree – but not honours degrees”.

#### **Senior Merit Awards**

For the purposes of this Part 2 of the University Calendar, “Senior Merit Awards” means the same as “merit awards for senior undergraduate students”.

### **a) Requirements for the Senior Merit Award**

Candidates for the Senior Merit Awards shall –

- be senior undergraduate students of the University;
- be full-time students of the University;

- take an appropriate degree programme;
- take the full number of modules prescribed for the year of study concerned; and
- obtain a weighted average of not less than 75% over a full academic year.
- Students who studied at other institutions should submit their results to the Centre for Undergraduate Bursaries and Loans

### **b) Awarding of Senior Merit Bursaries**

- Merit Bursaries are awarded on the academic performance of the previous year and can only be utilised for study costs.
- Final-year students must familiarise themselves with the requirements and criteria for Postgraduate Merit Bursaries.
- Students who do not take the full number of prescribed modules of a specific year, because of acknowledgement of modules they have taken elsewhere, do not qualify for the merit bursaries.
- For the purposes of these Senior Merit Awards, students in the programmes for LLB as a second bachelor's degree shall be deemed to be undergraduate students (excluding final-year students who come into consideration for NRF and SU Postgraduate Merit Bursaries. Please note: Students have to apply formally for the latter bursaries at the Unit for Postgraduate Bursaries).
- Students of the University registered for honours degrees, master's degrees or doctorates shall not be eligible for these Senior Merit Awards.
- For the purposes of these Senior Merit Awards, each candidate's weighted average is calculated with reference to the preceding year of study. The weighted averages are explained later on in this section.
- The said senior students of this University are eligible for these Senior Merit Awards automatically and therefore need not apply for them in writing while attending their programmes of instruction, provided that such applications in writing shall be required, however, if such students have interrupted their studies and resume them in a subsequent calendar year.

### **Please note**

- In June of the specific academic year during which senior students are entitled to a merit bursary, the onus rests on them to verify whether their accounts reflect their bursaries.
- If the bursaries are not reflected in their student accounts, students must notify the Centre for Undergraduate Bursaries and Loans before the end of August; otherwise they forfeit their claim to a merit bursary.

**c) Scale for Senior Merit Awards**

Senior Merit Awards shall be granted to second-year, third-year, fourth-year, fifth-year and sixth-year students in terms of the following scale:

- *Fourth-year students*

The fourth-year students who are eligible shall include students in inter alia the following programmes: BA in Visual Arts, BTh, BDram, BEng (F), BMus, BEd (GenEd), BOccTher, BScAgric, BSc Food Sc, BScFor, BScPhysio, LLB as a first bachelor's degree, LLB as a second bachelor's degree, and MB,ChB.

**Please note:** PGCE students are eligible in the same way as fourth-year undergraduate students.

- *Fifth-year students*

The fifth-year students who are eligible shall include students in the following programmes: MB,ChB and LLB.

The following scale is applicable to senior merit bursaries:

Weighted average	% rebate on basic tuition fees (excluding module costs)
75 - 79,9%	20% (guaranteed)
80 – 84,9%	* > 20%
85 – 89,9%	* > 20%
90 – 94,9%	* >20%
95% and higher	* >20%
* The % rebate will depend on the number of qualifying candidates and the amount available for senior merit bursaries.	

**d) Cancellation of Senior Merit Bursaries**

The merit bursaries of students who discontinue their studies in the first semester will be cancelled.

# **BURSARIES FOR UNDERGRADUATE STUDENTS**

As a rule, applicants for the bursaries/scholarships described in this Section must be prospective or registered students of Stellenbosch University (SU). The exceptions to this rule will be clear from the descriptions given.

SU advises its students and prospective students to consult the relevant particulars in this Section before requesting copies of the prescribed forms for bursary applications.

All applications must be done online on [www.mymaties.com](http://www.mymaties.com), or with the company or trust concerned. All undergraduate applications administered by the University should reach the Centre for Undergraduate Bursaries and Loans before the relevant closing date of 31 August.

Closing dates for private organisations or companies may vary from that of the University.

In some instances the value of a bursary may vary year on year. In such cases, the value has not been specified.

## **Please note:**

Interested students and prospective students may also obtain information about other bursary options at <http://bursaries-southafrica.co.za/list-of-all-bursaries-in-south-africa/>.

## LOANS

The loans listed in the section are mostly for undergraduate students.

Postgraduate students are advised to contact the Postgraduate Student Funding Unit at 021 808 4208.

### Stellenbosch University Bursary Loan Scheme

#### Value

Variable, between R5 000 and R76 000, depending on the applicant's financial neediness

**Applications:** [www.mymaties.com](http://www.mymaties.com)

#### Basic conditions and procedure

- Any field of study.
- Bursary loans for undergraduate students who are South African citizens.
- Loans are allocated on grounds of neediness and merit and students take a **full** academic load for a given year and must pass two-thirds of their credits taken every year. The applicant is needy when the family do not qualify for a bank loan and/or cannot contribute a payment towards the student's studies.
- Students receive financial assistance in spite of race or gender on level of neediness as laid down by the means test.
- The amount of the bursary loan is determined by a financial means test.
- If the student receives any other bursary or bursaries (e.g. a SU merit bursary), the amount of the bursary loan will accordingly be reduced or even cancelled. This reduction or cancellation of the bursary loan is done automatically and students and parents will not be notified about this beforehand.
- A loan will not be allocated if a student already receives a full-cost bursary.

#### The application of funds

Bursaries and/or bursary loans can only be used for tuition fees, accommodation (on campus or private), meals and books.

#### Interest rate

The interest on bursary loan amounts shall be fixed from year to year at prime minus 4%.

#### Incentives

Students must take a full academic load for a given year to qualify for partial conversion of their loan into a bursary. For a given year, in terms of the incentives, the scheme shall convert into a bursary.

- **30%** of the loan amount if the holder studies 100% successfully (in other words, if he obtains 100% of the prescribed credits for the subjects that he has registered for in the academic year concerned);
- **20%** of the loan amount if the holder studies 80-99% successfully (in other words, if he obtains 80% to 99% of the prescribed credits for the subjects that he has registered for in the academic year concerned); and
- **10%** of the loan amount if the holder studies 65-79% successfully (in other words, if he obtains 65% to 79% of the prescribed credits for the subjects that he has registered for in the academic year concerned).
- A bursary loan holder who studies less than 65% successfully does not, however, qualify for any discount, nor for the continuation of the bursary loan.

### **Students in Extended Degree Programmes**

- Holders who take an approved extended degree programme shall be charged interest at prime minus 4% per annum from the date of allocation up to the end of the repayment period, except if they study successfully as set out immediately below
- If such holders pass the first three years of study, they shall qualify for discount as described above.
- If such holders study successfully and complete their programme within four years, the scheme rewards them for their academic success in the following ways:
  - One-half of the bursary loan amount of their fourth year plus one-half of the interest payable for their fourth year shall be converted into a bursary; and
  - from the end of their fourth year, up to the end of their repayment period, they shall be charged interest at the reduced rate of prime minus 6% (six per cent).

### **Adjustment of rates and percentages**

- The rate of the interest payable on the loan amount (e.g. prime minus 4%), and the percentage for the conversion of the capital amount plus interest (e.g. 30%, 20% or 10%) into a bursary, are both constant in respect of a given year. Both of these figures may be adjusted in subsequent years, however, depending on various factors – for instance (i) increases or decreases in the prime lending rate, (ii) the availability of funds, (iii) estimates of neediness in general and (iv) views about students' success rate in general.
- Exemption from interest for postgraduate study.
- Holders of an undergraduate bursary loan shall pay no interest if they proceed to postgraduate study, except if the postgraduate study is of such duration as to render an extra levy applicable to them – namely, interest at prime minus 4%.

### Repayment

Holders shall repay their bursary loan debt over a period of years equal to that for which they have received the bursary loan.

If a holder falls in arrears with the repayment of his bursary loan, interest for the remainder of the repayment period shall be charged at the full prime rate.

### National student financial aid scheme (NSFAS)

#### Value

Variable between R2 000 and R76 000 per year according to financial need, rounded off to the nearest R500

**Applications:** [www.mymatrics.com](http://www.mymatrics.com)

#### Guidelines and procedure

- Bursary loans to undergraduate students with South African citizenship in any field of study.
- Allocation on the basis of financial neediness and merit, on the condition that students take a full academic load for each year and pass at least 50% of their registered modules.
- The applicant is financially needy if the family does not qualify for a loan at a bank and/or cannot contribute sufficiently to the student's study costs.
- Students receive financial support irrespective of race or gender, in direct relation to their level of financial neediness as determined by the means test.

#### The application of funds

- Bursaries and/or bursary loans may only be used for tuition fees, accommodation (on campus or private), meals and textbooks.
- Any credit in the student's account will be paid back to NSFAS at the end of the financial year.
- If a student also receives another bursary, it is their responsibility to inform the Centre for Bursaries and Loans, in order to decrease the allocation amount.

#### Interest rate

No interest will be charged while the student is still studying.

#### Reward mechanism

- If a student passes 100% of the subjects registered for in a specific year, he qualifies for a bursary of 40% of the allocated amount at the end of the academic year as a non-repayable bursary.
- If the student passes 75% of the registered subjects, the bursary component is 30%.

- If the student passes 50% of the registered subjects, the bursary component is 20%.
- If the student passes 25% of the registered subjects, the bursary component is 10%.

### **Repayment**

- The loan part is repayable from the year following a student's completion of his studies or discontinuation thereof.
- Repayment starts only when the annual salary of the person who has completed his studies is R30 000 or more.
- The repayment rate starts at 3% of an annual salary of R30 000 and rises in a linear way to 8% of R63 000 per year.
- Special legislation makes provision that employers can recover the amount due directly from the salary of the person who has completed his studies and pay it over to NSFAS.
