DATES AND DEADLINES FOR THE EXAMINATION OF DOCTORAL DISSERTATIONS (2020)

The Postgraduate Examination Office (PEO) manages the examination process for all doctoral candidates within the Faculty of Arts and Social Sciences.

In order to be eligible to graduate in December 2020 or April 2021, doctoral candidates need to submit their dissertation for examination on or before a specific deadline date. These fixed dates coincide with the closing dates for the agendas of the Faculty’s committee system and with the deadlines of University Administration.

**IMPORTANT:** All deadlines below should be regarded as absolute. Any dissertation received after the closing date will be held over for the next submission and graduation cycle, which may require the registration of an additional year of study.

[UPDATED AND APPROVED: MAY 2020]
PROCEDURE FOR THE SUBMISSION AND EXAMINATION OF DOCTORAL DISSERTATIONS (2020)

Appointment and availability of examiners

When appointing examiners, supervisors should inform examiners that they will only receive an electronic copy of the dissertation, which they are welcome to print. Supervisors should also advise examiners when they can expect to receive the dissertation for examination. Examiners should also be made aware of the possible dates for the oral examinations.

Supervisors should please confirm the availability of examiners in cases where examiners were appointed well in advance (not in the same year as submission) or where students have delayed the submission of their work (not in the same year as they submitted their intention to submit form).

Procedure for submitting a doctoral dissertation for examination

1. The supervisor must approach the proposed examiner informally to ascertain whether or not they are available for examining the work. The required nomination form must be sent to the Faculty Administrator by the closing date (7 April 2020 for December graduation or 23 June for March/April 2021 graduation) for the agenda of the Higher Degrees and Research Committee meeting. After the nomination has been approved by the Higher Degrees and Research Committee, Faculty Board and Senate, the Postgraduate Examination Office (PEO) arranges the process of official nomination and appointment.

2. The student must inform the PEO (and their supervisor) of their intention to graduate by completing the prescribed Intention to Submit form. This form is available on the HDRC webpage and is accessible by students.

3. When the dissertation is ready for examination, an electronic copy in Word and PDF must be emailed in a zip folder (student’s initials, surname and student number should be the folder name) together with the supporting documents to the PEO.

4. The prescribed declaration by the supervisor stating whether or not they support the submission of the work must be emailed with the dissertation. No dissertation will be sent out for examination without the supervisor’s consent. The declaration is available on the HDRC webpage.

5. An electronic copy of the ethical clearance approval document OR the ethical clearance exemption document must be emailed with the thesis/dissertation. Both documents are issued by the Research Ethics Committee (REC) after a student has successfully submitted an ethical clearance application via the online system.

6. An electronic copy summary page of the Turnitin report, which shows the similarity percentage. This will be sent to examiners.

7. The Postgraduate Examination Office is responsible for:
   - sending the letter of appointment to the external examiners;
   - sending the thesis/dissertation to the internal and external examiners;
• managing the examination process;
• receiving the reports of all the examiners;
• dealing, in accordance with the prescribed procedures, with cases where serious differences have arisen between examiners of doctoral candidates which the examination committee has been unable to resolve;
• arranging the oral examinations of doctoral candidates; and
• payment of external examiners.

8. The Faculty Administrator is responsible for recording the results of doctoral examinations.
