Department of Afrikaans and Dutch, Stellenbosch University

278 Afrikaans for foreign-language speakers

Only students who have passed Afrikaans Language Acquisition 178 are admitted to this module. No mother-language speakers or second-language speakers of Afrikaans may take this module.

An integrated approach is followed in the module to study the four communication skills – reading, listening, talking and writing.

Students encounter various methods of language study:

- Advanced interaction around thematically related texts (general and literary)
- Strategic reading and listening skills in academic lecture situations
- Relevant language study
- Oral communication

Method of assessment

A system of flexible assessment is used in Afrikaans Language Acquisition 278. Students are informed at the beginning of the module about the way in which the final mark is calculated and receive regular feedback on their progress in the course of the module. An oral examination takes place at the end of each semester.

See the departmental information document for further details.
