Other

Contribution to academic textbooks:

Development of online learning material for McGraw-Hill Education and the authoring of problems and cases for six of the chapters in "Management Accounting 6th edition: South African content" by W. Seal, C Rhode, RH Garrison and EW Noreen. The sixth edition of Management Accounting offers a comprehensive and balanced introduction to management accounting theory and practice. The South African version has been written specifically for courses in South Africa and promotes practice as a method of learning through real-world and numerical examples, vignettes, and graded end of chapter exercises, problems and cases. Chapters of which WA Bishop authored online material, cases and problems includes:

- Chapter 1: Management accounting and the business environment
- Chapter 2: An introduction to cost terms, concepts and classifications
- Chapter 3: Cost behaviour: analysis and use
- Chapter 4: Job-order and service department costing
- Chapter 5: Process costing
- Chapter 12: Standard costs and variance analysis
