

IOFlux - <http://ioflux.co.za> - is looking for a graduate software engineer to join our growing team of highly experienced software engineers.

What you will do:

- Execute development tasks in a team-based environment working under a team lead and software engineers.
- Develop and maintain cloud, mobile, desktop and web services/applications.
- Partake in scoping sessions with the Software Engineers and Architects.

What you will need:

- BEng/BSc degree.
- A work permit for South Africa if you are not a South African citizen.
- A valid drivers license and own transport.
- Eagerness and flexibility to learn new platforms and frameworks as the technology evolves.

Perks

- Flexi hours.
- Possibility of remote work as you gain experience.
- Company laptop and internet.
- Herman Miller Aeron chair.
- Medical insurance.
- No dress code.
