VACATION TRAINING 341
VACATION TRAINING 441

Liora Ginsberg: ginsberg@sun.ac.za
Johan van der Merwe: jovdmerwe@sun.ac.za
What is vacation training?

- Work done at a company primarily to expose the student to the engineering industry.
- Any mechanical/mechatronic engineering work done under the guidance of an engineer with a university engineering degree is acceptable for vacation training. Working under the guidance of a professional engineer is preferable.
- The onus is on the student to find vacation training.
How long?

- Two modules – 341 and 441
- EACH MODULE IS 4 WEEKS (20 CONSECUTIVE WORKING DAYS)
- May be split into two periods of 2 weeks
- Work done less than 2 weeks (10 consecutive working days) will not be accepted for vacation training
What must be submitted to the M&M department?

- Vacation training certificate signed by the supervisor.
- Proof of registration of the module.
- 1 page technical summary
- 1 page non-technical summary

- Two submission dates ONLY:
  - first Monday of March
  - first Monday in August
- Submit in person to M517
What documentation is available and where?

- Module framework
- Vacation work certificate
- Letter to employer from M&M head of department
- SunLearn (if registered)

AND

- M&M website → current students → undergraduate
