

**Postdoctoral fellowship**  
**Division of Clinical Pharmacology, Department of Medicine**  
**Faculty of Medicine & Health Sciences**

Commencement date: 1 February 2022  
FOCUS AREA: Regenerative Medicine

We have a postdoc position available for a suitable candidate with a PhD degree in Physiology, Pharmacology or related field. Details of the research project will be discussed with the shortlisted candidates but involves testing the efficacy of novel therapeutic interventions for the treatment of chronic diabetic wounds.

**Host /supervisor:**

Dr Mari van de Vyver  
(Department of Medicine, FMHS, SU)

**Eligibility:**

PhD degree in one of the following and/or related fields: Physiology, Molecular biology, biochemistry or pharmacology.  
Experience in wide-field fluorescent or confocal microscopy, histology, cell culture, and animal (mice) models will be advantageous.

**How to apply:**

Send a cover letter, short CV and copy of your academic records to Dr van de Vyver.  
E-mail: [vandevyverm@sun.ac.za](mailto:vandevyverm@sun.ac.za)
