

MSc in Baromedical Sciences

Programme description

This research-based programme comprises an approved research project, a thesis and an oral presentation. The initial research protocol shall be approved by the departmental research committee and the Health Research Ethics Committee of the Faculty of Medicine and Health Sciences.

Specific admission requirements

- For admission to the MSc (Baromedical Sciences) programme, a student shall hold the BScHons (Underwater Medicine) degree or the BScHons (Hyperbaric Medicine) degree of this University or another acknowledged institution for tertiary education; or another qualification approved for such purposes by Senate; or shall otherwise have attained a standard of competence deemed adequate for such purposes by Senate.
- Applicants with other major subjects at honours level may be admitted based on a motivation and/or the successful completion of an admission examination. Depending on the field of study, additional work and/or proof of competency may be required.

Duration

The programme extends over at least one year of full-time (or at least two years of part-time) studies.

Presentation

English

Module outline and credit values

Thesis: Baromedical Sciences	895(180)
------------------------------	----------

Assessment and examination

The candidate shall complete a research project, leading to the submission of a thesis which is assessed according to University guidelines through a process of internal and external assessment. A minimum pass mark of 50% is required.
