## **UKWANDA STRATEGIC RESEARCH FUND**

APPLY NOW!!

### **The Purpose**

The purpose of the Ukwanda Strategic Research Fund (SRF) is to stimulate, support and fund research within the Ukwanda Centre for Rural Health (CRH) as well as innovative and scholarly projects in rural health care, including sustainable rural development, clinical practice, health sciences education, community partnerships and health systems research, more broadly in Stellenbosch University.

A further aim of the Fund is to stimulate research collaboration between Ukwanda CRH and other Stellenbosch University entities

**The Ukwanda SRF aims to support undergraduate, postgraduate and staff projects and research that will further the development of a strong scientific body of evidence in the field of rural health, with a particular focus on the following areas:**

1. Rural Health Professions Education
2. Collaborative care
3. Rural child and family health
4. Clinical research in regional and district settings

Research projects may be for degree or non-degree purposes

### **Who should apply?**

- Stellenbosch University Undergraduate Students
- Stellenbosch University Master's degree full time and part-time Students
- Stellenbosch University Doctoral degree full time and part-time Students
- Stellenbosch University Postdoctoral projects
- Stellenbosch University Non-degree research projects
- Stellenbosch University Pilot study projects

**Value:** maximum of R30 000 per project

**Closing date: 11 August 2020**
