M PHIL IN FAMILY MEDICINE

- The M Phil Degree programme serves as a non-clinical Masters qualification. It is aimed at doctors who have an interest in the development of the discipline of Family Medicine and in particular its research base in Sub-Saharan Africa. It is NOT intended for those wanting to train clinically as a family physician.
- Applicants must be currently registered as an independent medical practitioner in the country where they are practicing. The application process includes submission of a brief description of a proposed research topic.
- In order to fulfill the requirements of the programme, the candidate must be working in a context suitable for the practice of Family Medicine or Primary Care.
- The M Phil in Family Medicine is a 2-year programme. The academic modules are distance learning apart from an obligatory contact session in January, 1st year of studies, that will be held at the University (Tygerberg Campus).
