A time for action*

About the Speakers:

Professor Anthony Costello is co-chair of the international Lancet Countdown for Climate Action and Health, and senior advisor to a new WHO UNICEF Lancet Commission Countdown to 2030 (CAP-2020, Children in All Policies).

Dr Marina Romanello is Data Scientist and Research Fellow for The Lancet Countdown: tracking progress on health and climate change, where she leads the research of the collaboration, and is in charge of the scientific development and refining of the Lancet Countdown's indicators.

Ms Almaaz Mudaly is in Grade 9 at Roedean School and a Multi-award winning debater. She has used the Climate Change agenda to influence policies and leaders at the provincial, national and global level.

Mr Saliem Fakir has served as Director of the World Conservation Union, South Africa (IUCN-SA) for eight years and has served on a number of Boards and is a prolific writer who contributes regularly to leading South African publications like Engineering News, Business Day and the Daily Maverick.
