

Advertisement: Postdoctoral research opportunity

Department: Global Health

Division: Health Systems and Public Health

Host: Professor Renè English

Summary:

A post-doctoral fellowship research opportunity, supported by the Division of Health Systems and Public Health (HSPH) has arisen for a period of one year, renewable subject to performance. Hosted by Prof English, the successful candidate will be expected to conduct HSPH research in alignment with the Division's research objectives. In addition to advancing their own research agenda, the successful candidate will be involved in developing relevant modules and short courses.

Applicants for this position must hold (or have been approved for) a suitable doctoral degree, and must have proof thereof at the time of application. The post-doctoral fellowship will also provide mentoring and support to researchers and post-graduate students in the Division. Preference will be given to candidates who are within five years of having completing their doctoral studies at a higher education institution in South Africa or abroad.

Key activities:

- Conduct research on relevant Health Systems and Public Health topics.
- Lead and contribute to the production of peer-reviewed publications and conference presentations.
- Carry out duties consistent with a postdoctoral/research fellowship of this nature.
- Assist with writing research proposals.
- Abide by Stellenbosch University's policies, rules and procedures for postdoctoral research fellows and codes of conduct and rules governing research results, research materials, and intellectual property.

Applications:

- Applications (CV, academic transcripts, and contact details of two referees) should be submitted to Ms Tracey Pietersen (traceyp@sun.ac.za).
- The closing date for the receipt of applications is 5 December 2020.

Any queries should be made by email to Prof Renè English (renglish@sun.ac.za)
