

SUBCOMMITTEE C OF THE RESEARCH COMMITTEE RESEARCH ASSISTANCE

Purpose

Subcommittee C provides partial salary support towards a full time research contract position for a research assistant to enable a senior FMHS staff member (e.g. a principal investigator, departmental head, senior academic or senior clinician) to ensure accelerated production of high quality research outputs.

Eligibility

All **full time staff** in the Faculty of Medicine and Health Sciences are eligible to apply for a Research Assistance (RA) post. Applicants are not allowed to hold a Subcommittee C Postdoctoral Fellowship and Research Assistance post at the same time. Previous awardees of a RA post are not eligible to apply again.

Award

Research Assistance posts are **full time** positions, and the full award from Subcommittee C is set at a maximum of **R100 000** per annum towards the cost of employment of the appointed research assistant. If successful, applicants are expected to make the appropriate arrangements with Human Resources (HR) in terms of the appointment, including the level and title of the position. To ensure a focussed approach, this post must be linked to a **specific research project**. Awards are made on a **competitive** basis.
