

**NIH funding opportunities** 

Faculty of Medicine and Health Sciences: Research Development and Support 18 July 2023 (#26)

Confirm your intent to apply ASAP, but not later than **60 days** before the submission date. Tygerberg Campus: <u>cdevries@sun.ac.za</u> • Stellenbosch Campus <u>lizelk@sun.ac.za</u>

To prepare an application can take 4-18 months, depending on many factors:

- 1. Mechanism for which you will apply e.g. U54, R01, D43, K43
- 2. Requirement of preliminary data
- 3. Time to assemble the research team
- 4. Time available to work on the grant, taking into consideration other responsibilities
- 5. Time for internal review

Before starting your application, attend the 1) Generic Grant Writing Workshop and then the 2) NIH Grant Writing Workshop.

## **Important Notices**

<u>Fogarty-leDEA Mentorship Program (FIMP)</u>: Current and former Fogarty D43 trainees and IeDEA-affiliated regional investigators develop skills in study design, data management, analysis, interpretation, and dissemination of research involving large HIV clinical databases generated within IeDEA. Application deadline: October 23, 2023. Informational webinars:

- Tuesday, August 1 at 9 pm ET/USA
- Thursday, August 3 at 9 am ET/USA
- Friday, August 4 at 9 am ET/USA

Application portal: Apply online, get webinar information and answers to frequently asked questions

<u>NOT-MH-23-335</u> Notice of Intent to Publish a Funding Opportunity Announcement for Approaches to Identifying Preteen Suicide Risk and Protective Factors (R01 Clinical Trial Not Allowed). The National Institute of Mental Health (NIMH) intends to promote a new initiative by publishing a Notice of Funding Opportunity (NOFO) to solicit applications encouraging foundational research projects that seek to refine and test valid methods for characterizing preteen suicide risk and protective factors across multiple domains, and for operationalizing suicide thoughts and behavior (STBs) and non-suicidal self-injury (NSSI) among preteen youth (ages 8-12). An emphasis is placed on the inclusion of sub-populations of youth that experience health disparities and may have been underrepresented in prior youth suicide research. This Notice of Intent to Publish (NOITP) is being provided to allow potential applicants sufficient time to develop meaningful collaborations and responsive projects, and to consult with NIH in order to submit responsive applications.

<u>NOT-MH-23-336</u> Notice of Intent to Publish a Funding Opportunity Announcement for Coordinating Center for Approaches to Identifying Preteen Suicide Risk and Protective Factors (U24 Clinical Trial Not Allowed). The National Institute of Mental Health (NIMH) intends to promote a new initiative by publishing a Notice of Funding Opportunity (NOFO) to solicit applications for a data coordinating center (DCC) in support of a research consortium of R01 foundational research projects (that will aim to refine and test valid methods for characterizing preteen suicide risk and protective factors across multiple domains, and for operationalizing suicidal thoughts and behavior (STBs) and non-suicidal self-injury (NSSI) among preteen youth (ages 8-12). Key DCC activities will include the coordination of data formatting and harmonization efforts across R01 Consortium sites to optimize sharing with the NIMH Data Archive (NDA), as well as coordinating data sharing timelines across R01 sites. Data combined by the DCC, and held within the

NDA, will facilitate the harmonization of data related to risk and protective factors, NSSI, and STBs in preteen youth and promote analyses that leverage the power of combined cohorts.

<u>NOT-NS-23-091</u> Notice of Intent to Publish a Notice of Funding Opportunity Announcement for Blueprint Neurotherapeutics Network (BPN): Small Molecule Drug Discovery and Development of Disorders of the Nervous System (UG3/UH3 Clinical Trial Optional). The NIH announces its intention to reissue Notice of Funding Opportunity (NOFO) PAR-20-122 for investigators seeking support from the Blueprint Neurotherapeutics (BPN) Network. Applicants will be encouraged to utilize a customized set of contract resources, and consultants from the BPN Network to help advance their neuroscience-focused drug discovery and development projects into the clinic. This Notice is being provided to allow potential applicants sufficient time to develop meaningful collaborations and responsive projects.

## **Parent Announcements**

## **NOT-OD-23-105** Notice to Extend Parent R01/R03/R21 Parent Notices of Funding Opportunities. Current Key Dates *Expiration Date: May 8, 2023* Modified Key Dates *Expiration Date: May 8, 2024*

Parent Announcements (PA) for unsolicited are broad funding opportunity announcements allowing applicants to submit investigator-initiated applications. They are open for up to 3 years and use standard due dates.

- PA-20-185 NIH Research Project Grant (Parent R01 Clinical Trial Not Allowed)
- PA-20-184 Research Project Grant (Parent R01 Basic Experimental Studies with Humans Required)
- PA-20-183 Research Project Grant (Parent R01 Clinical Trial Required)
- PA-20-200 NIH Small Research Grant Program (Parent R03 Clinical Trial Not Allowed)
- PA-20-195 NIH Exploratory/Developmental Research Grant Program (Parent R21 Clinical Trial Not Allowed)
- PA-20-194 NIH Exploratory/Developmental Research Grant Program (Parent R21 Clinical Trial Required)
- <u>PA-20-196</u> NIH Exploratory/Developmental Research Grant Program (Parent R21 Basic Experimental Studies with Humans Required)
