## Be the example

We'll be one of the first campuses in the country to go smoke and tobacco free. Let's be change agents for a healthier South Africa.

## It can be done!

Since November 2017, more than 2 000 campuses in the USA have gone 100% smoke free.

## What smoke and tobacco free means:

- No cigarettes
- No electronic cigarettes
- No cigars
- No hubbly bubblys/hookahs

## Take note:

The regulations apply to anyone who enters the campus, for whatever reason!

## Is it legal?

Yes. In South Africa, any institution or workplace can legally prohibit smoking in public areas under the current Tobacco Products Control Act.

**NON-COMPLIANCE MAY LEAD TO DISCIPLINARY ACTION. VISITORS WILL BE ESCORTED OFF CAMPUS.**

# WE ARE SMOKE AND TOBACCO FREE

Smoking won't be allowed in:
