BDE 324 Angiosperm diversity and evolution

Short description of the module

The aims of this module are firstly to introduce students to the origin, diversity and phylogenetic relationships among the angiosperms. As sub-theme those disciplines and their specific traits that are of phylogenetic importance in the reconstruction of angiosperm evolution will be considered in more detail. These include molecular traits, palynology, morphology, anatomy, embryology and karyology. Finally, chemical diversity among angiosperms will be explored.

BDE 324 Angiospermdiversiteit en -evolusie

Kort beskrywing van die module

Die doelwitte van hierdie kursus is eerstens om studente bekend te stel aan die oorsprong, diversiteit en filogenetiese verwantskappe tussen die angiosperme. As subtema sal die dissiplines wat filogeneties belangrik is in die rekonstruksie angiosperm evolusie, en hulle spesifieke in meer detail bespreek word. Hierdie kenmerke sluit molekulêre kenmerke, palinologie, morfologie, anatomie, embriologie en kariologie in. Laastens sal die chemiese diversiteit binne die angiosperme bespreek word.

Module summary

Name	BDE324
Duration	1st semester
Academic commitment*	16 credits = 160 notional hours 6 contact hours per week
Scheduled learning opportunities	3 lectures per week 1 practical per week
Assessment option	Option 4
Language option	Option 3
Mode of offering	Face-2-Face
Corequisites / Prerequisites / Pass prerequisites**	Pass modules - any three of the following six modules: • Biodiversity and Ecology 212, 214, 224, 244, 254, 264 Prerequisite module: • Biodiversity and Ecology 264 (should have tried it, even if you did not pass it)

***Notional hours are the learning time that it would take an average learner to meet the outcomes of the module.**

****The onus is on the students to ensure that they meet the prerequisites of the module.**

Module-oorsig

Naam	BDE 324
Duur	1 ^{ste} semester
Akademiese verbintenis*	16 krediete = 120 veronderstelde ure 6 kontakure per week
Geskeduleerde leergeleenthede	3 lesings per week 1 prakties per week
Assesseringsopsie	Opsie 4
Taalopsie	Opsie 3
Modus van aanbieding	In persoon
Newevereistes / Voorvereistes / Slaagvoorvereistes**	Prerequisite pass modules - any three of the following six modules: • Biodiversity and Ecology 212, 214, 224, 244, 254, 264 Prerequisite module: • Biodiversity and Ecology 264 (Moes dit ten minste probeer het, selfs al het jy dit nie geslaag nie)

***Veronderstelde leerure is die tyd wat die gemiddelde leerder aan die module sal moet spandeer om aan die uitkomst van die module te voldoen.**

****Die onus rus op die studente om te verseker dat hulle aan die voorvereistes van die module voldoen.**

Outcomes

After completion of this course you should:

- have a good overview of the main evolutionary developments in the angiosperms
- have a sound knowledge of the traits from diverse disciplines that are significant in reconstructing relationships among angiosperms
- be able to interpret and describe the morphological diversity within the angiosperms, at least at the family level
- be able to think and communicate laterally and critically about the angiosperms

Uitkomst

Na voltooiing van hierdie kursus behoort jy:

- 'n goeie oorsig oor die hoof evolusionêre ontwikkelings binne die angiosperme te hê
- 'n sterk basiese kennis te hê van die kenmerke van diverse disciplines wat belangrik is in die rekonstruksie van verwantskappe binne die angiosperme of
- In staat te wees om morfologiese diversiteit binne die angiosperme te interpreter en beskryf, ten minste op die familie-vlak
- In staat wees om lateral en krities te kan dink en kommunikeer oor die angiosperme

Scheduled learning opportunities

The official timetable indicating all scheduled learning opportunities and their allocated venues can be accessed via [My.SUN](#).

Lectures

All lectures will be presented as live Powerpoint presentations, and these slides (non-narrated) will be made available on SunLearn for study purposes.

Practicals

All practicals are compulsory, and there will be a practical examination based on the Angiosperm diversity practical series. Please bring a dissecting kit to these practicals (available at Neelsie Stelkor Pharmacy), as we will be dissecting flowers.

Geskeduleerde leergeleenthede

Die amptelike rooster wat al die geskeduleerde leergeleenthede en die toegewysde venues aandui, is beskikbaar by [My.SUN](#).

Lesings

Alle lesings sal as in persoon Powerpoint voordragte aangebied word, en hierdie notas (sonder stemopnames) sal op SunLearn beskikbaar gestel word vir studie doeleindes.

Praktika

Alle praktika is verpligtend, en daar sal 'n praktiese eksamen wees gebaseer op die Angiosperm diversiteit praktiese reeks. Bring asseblief 'n dissekteerstel na hierdie praktika (verkrygbaar by Neelsie Stelkor Apteek), aangesien ons blomme gaan dissekteer.

Study material

Plant Systematics: a phylogenetic approach. Judd, WS, Cambell, CS, Kellogg, EA, Stevens, PF. and Donoghue, MJ. 2002. Plant Systematics. Additional research papers will be provided on SunLearn

SUNLearn is the official learning management platform of Stellenbosch University. Each module has a dedicated page on this platform which can be accessed via this link: <https://learn.sun.ac.za/>

Studiemateriaal

Plant Systematics: a phylogenetic approach. Judd, WS, Cambell, CS, Kellogg, EA, Stevens, PF. en Donoghue, MJ. 2002. Plant Systematics. Addisionele navorsingsartikels sal op SunLearn beskikbaar gestel word.

SUNLearn is die amptelike leerbestuursplatform van die Universiteit Stellenbosch. Elke module het 'n toegewysde blad op hierdie platform met toegang via hierdie skakel: <https://learn.sun.ac.za/>

Lecturers

Prof. L.L. Dreyer (LLD) - course coordinator; ld@sun.ac.za
 Prof. A.G. Ellis (AGE) - agellis@sun.ac.za
 Ms Zaynab Shaik (ZS) - zshaik@sun.ac.za
 Prof. N. Makunga (NPM) - makunga@sun.ac.za

Course assistant

Mrs. Janette Hutton (JH) - janette@sun.ac.za

Dosente

Prof. L.L. Dreyer (LLD) - kursuskoördineerder; ld@sun.ac.za
 Prof. A.G. Ellis (AGE) - agellis@sun.ac.za
 Me. Zaynab Shaik (ZS) - zshaik@sun.ac.za
 Prof. N. Makunga (NPM) - makunga@sun.ac.za

Kursus assistent

Mev. Janette Hutton (JH) - janette@sun.ac.za

Assessment

The dates for all centrally scheduled assessments are published on [My.SUN](#).

This module follows assessment option 4. Please see the [Faculty of Science's assessment guidelines](#) for more details.

Method of assessment	Description	#	Allocated marks	Dates	Criteria
Assignment	Species assignment	1	25%	1 April 2023	All tests and assignments must be written and handed in to pass the module, AND an average mark of 50% must be obtained.
A1 assessment	Semester test on work covered in lectures by ZS and AGE	2	25%	18 April 2023	
Practical test	Practical test based on work covered in the Angiosperm diversity practical series	3	25%	2 May 2023	
A2 assessment	Test based on work covered in lectures by LLD and NPM	4	25%	23 May 2023 09h00	

Please see the assessments and promotion chapter in the [SU Calendar Part 1 \(General\)](#) for institutional rules regarding assessments.

Calculation of final marks

Assignment	25%
A1 Class test:	25%
Practical Test	25%
A2 exam test	25%

Final mark	100%

Assesserings

Die datums van alle sentraal geskeduleerde assesserings word op [My.SUN](#) gepubliseer.

Hierdie module volg assesseringsopsie 4. Raadpleeg die [Fakulteit Natuurwetenskappe se assesseringsriglyne](#) vir meer besonderhede.

Metode van assessering	Beskrywing	#	Punte toegeken	Datums	Kriteria
Werkopdrag	Spesie werkopdrag	1	25%	1 April 2023	Alle toetse en werksopdragte moet geskryf en ingehandig word om hierdie module te slaag. EN 'n gemiddelde punt van 50% moet behaal word
A1 assessering	Semestertoets oor werk behandel in lesings deur ZS en AGE		25%	18 April 2023	
Praktiese toets	Praktiese toets gebaseer op werk wat tydens die Angiosperm diversiteit praktiese reeks bespreek sal word.	3	25%	2 Mei 2023	
A2 assessering	Toets gebaseer op werk wat deur LLD en NPM behandel	4	25%	23 Mei 2023 09h00	

Raadpleeg die hoofstuk oor assessering en promovering in [Deel 1 \(Algemeen\) van die US Jaarboek](#) vir institusionele reëls oor assesserings.

Berekening van finale punte

Werkopdrag	25%
A1 Klastoets:	25%
Praktiese toets	25%
A2 eksamentoets	25%

Finale punt	100%

Absenteeism (Missed opportunities)

Please see the section 11 of the [SU Calendar Part 1 \(General\)](#) for the institutional rules regarding absence from classes and or tests.

Take note that for any absence from the university *for more than one* teaching, learning or assessment opportunity, for whatever reason, students need to apply for leave of absence from the Registrar's office.

In the event of missing a test or important deadline, a valid, original medical certificate must be handed to Mrs. Janette Hutton within 5 days after the test of the assignment hand-in date. A replacement oral test will be scheduled within one week (7 days) after the original test date. It is the responsibility of the student to establish the time and place of this oral. No postponement will be granted for the hand in of assignments or practical reports, and a penalty of 5% per day will be subtracted from all such assignments.

Afwesigheid (die misloop van 'n leergeleentheid)

Raadpleeg asseblief afdeling 11 in [Deel 1 \(Algemeen\) van die US Jaarboek](#) vir die institusionele reëls met betrekking tot afwesigheid van klasse en of toetse.

Neem kennis dat studente by die Registrateur moet aansoek doen vir verlof tot afwesigheid, vir watter rede ook al, van *meer as een* onderrig-, leer-, of assesseringsgeleentheid,

Indien jy 'n toets of belangrike sperdatum mis, moet 'n geldige, oorspronklike mediese sertifikaat aan Mev. Janette Hutton gegee word binne 5 dae na die toets of die werksopdrag inhandigingsdatum. 'n Vervangings mondelinge toets sal geskeduleer word binne een week (7dae) na die oorspronklike toetsdatum. Dit is die verantwoordelikheid van die student om vas te stel waar en wanneer die mondeling sal plaasvind. Geen uitstel sal verleen word vir die inhandiging van werksopdragte of praktiese verslae nie, en 'n straf van 5% per dag sal afgetrek word van al sulke werksopdragte.

Communication

The **announcement forum on the SUNLearn module page** is the only official platform that will be used to make announcements relevant to this module. Please check this regularly.

For communication with individual students, lecturers, support staff and peer-to-peer facilitators will only use students' official SUN email addresses.

Students are also requested to use their official **SUN email addresses** for all academic related communication to: ld@sun.ac.za

Kommunikasie

Die **aankondigingsforum op die SUNLearn moduleblad** is die enigste amptelike platform wat gebruik sal word om aankondigings, wat relevant is vir hierdie module, te maak. Kontroleer dit asseblief gereeld.

Vir kommunikasie met individuele studente, sal dosente, steunpersoneel en eweknie-fasiliteerders slegs studente se amptelike SUN-e-posadresse gebruik.

Studente word ook versoek om hul amptelike **SUN-e-posadresse** vir alle akademiese verwante kommunikasie te gebruik: ld@sun.ac.za

Addressing challenges

For any complaints, the first port of call is the class representative or the lecturer. If not satisfactorily resolved, it can be escalated to the Head of Department or [Coordinator: Academic and Student Affairs](#).

Hantering van uitdagings

Vir enige klagtes, is die klasvertegenwoordiger of dosent die eerste plek om hulp te soek. Indien die probleem nie bevredigend opgelos word nie, kan dit na die Departementshoof of [Koördineerder: Akademiese- en Studentesake](#) verwys word.

Academic Misconduct

Academic misconduct includes plagiarism, collusion, cheating and fabrication as stipulated in the [Disciplinary code for students of Stellenbosch University](#).

Plagiarism is regarded as a serious offence. More serious cases are handled as set out in the [Stellenbosch University procedure for the investigation and management of allegations of plagiarism document](#).

Less serious cases are dealt with by the module coordinator and respective department as set out by the procedures of the faculty.

Akademiese Wangedrag

Akademiese wangedrag sluit plagiaat samespanning, bedrog en versinsel in, soos bepaal in die [Dissiplinêre kode vir studente van die Universiteit Stellenbosch](#).

Plagiat word as 'n ernstige oortreding beskou. Ernstiger gevalle word hanteer soos uiteengesit in die [Universiteit Stellenbosch se dokument oor die prosedure vir die ondersoek en bestuur van bewerings van plagiaat](#).

Minder ernstige gevalle word deur die modulekoördineerder en betrokke departement hanteer soos uiteengesit in die fakulteitsprosedures.

Lecture programme:

Lecture times:

- Monday (8h00 – 8h50)
- Wednesdays (09h00 – 09h50)
- Thursdays (12h00 – 12h50)

Venue: Natural Science Building, Room 3004.
