

# 63274-741 (32) Physics Project (6l, 6p)

2014

## Course summary:

Independent work on a topic that forms part of Physics, chosen in consultation with lecturers in the Department of Physics. The project should form part of the research activities of the Physics Department under supervision of a suitable supervisor. The project must be approved by the research committee of the Physics Department. A written report has to be submitted and an oral presentation must be given. Each student must also complete an oral examination.

## Outcomes of course:

This course exposes the student to independent project work. In particular the student is skilled in the use and reading of physics articles and the writing of scientific reports. A project supervisor will be allocated to the chosen project.

## Lecturer:

Prof E G Rohwer  
Telephone number: (021) 808-33372  
E-mail address: egr@sun.ac.za  
Office: Room 1009 in the Merensky Physics Building.

## Course content:

Independent project work in the field of the student's choice of honours course, that can be either of an experimental or theoretical nature.

## Study material:

Depends on the project chosen, but will involve the reading of articles in Physics Journals available in the Library.

## Assessment:

### **Methods of Assessments**

A final mark is awarded on the basis of the written report which will be assessed in four parts as agreed upon at the beginning of the project (20%+20%+20%+20%=80%) and an oral presentation of the project and an oral exam (20%)
