

Jamavlo Consulting

FINANCE FOR NON-FINANCIAL MANAGERS

A Uniquely designed and CUSTOMISED INTERACTIVE FINANCIAL MANAGEMENT DEVELOPMENT PROGRAM offered by JAMAVLO Consulting.

WHAT IS THE CONTENT OF THE PROGRAM?

This UNIQUE 3-day program offers an entry level HANDS-ON PRACTICAL knowledge and understanding of the principles of FINANCIAL STATEMENTS, FINANCIAL RATIO ANALYSIS, WORKING CAPITAL MANAGEMENT, CASHFLOW MANAGEMENT, COSTING, BUDGETING, FINANCIAL FORECASTING and the TIME VALUE OF MONEY to a wide range of MANAGERIAL and OPERATIONAL staff who are not trained or skilled in FINANCIAL MANAGEMENT, but they are involved in the daily operational activities of the organisation by means of active decision making with financial implications.

WHY IS THIS PROGRAM UNIQUE?

-Skilled facilitators with a wide spectrum of practical experience will first consult with the management of the client to establish critical financial aspects to be focussed on, obtain a first-hand knowledge of the nature and operations of the company, and clarify any special requirements of the client.

-Practical CASE STUDIES and the own FINANCIAL STATEMENTS of the company will be used as part of the learning experience.

-A very competitive and interactive computerised simulated BUSINESS GAME designed by experienced Financial Management facilitators with practical financial background, will be played by four teams on the final day of the course, giving learners an opportunity to get the experience of managing a new business over four quarters, make critical financial decisions, whilst applying their newly obtained skills and knowledge in a very realistic and hands-on competitive practical situation.

IS THERE A RECORD OF ACCOMPLISHMENT OF SUCCESS WITH THE PROGRAM?

The program has been offered on-site with great success to major INDUSTRIAL, AGRICULTURAL, MOTOR DEALERS, FOOD, and SERVICE companies over the last 4 years, leading up to requests for follow-up presentations.
