GENERAL INFORMATION

In this publication, any expression signifying one of the genders includes the other gender equally, unless inconsistent with the context.

The University reserves the right to amend the Calendar at any time. The Council and the Senate of the University accept no liability for any inaccuracies there may be in the Calendar. Every reasonable care has been taken, however, to ensure that the relevant information to hand as at the time of going to press, is given fully and accurately in the Calendar. Notifications regarding bursaries or the amendment of bursary conditions are announced through the official channels of the University and also sent to the deans of the faculties concerned.

In the event of uncertainty or a dispute regarding information in Part 2 of the Calendar, the final interpretation will be based on the Afrikaans version.

Language Policy and Plan

The official Language Policy and Language Plan of Stellenbosch University were approved by the Council of the University. The full version is available at <http://www.sun.ac.za/language>.

Inclusivity

Stellenbosch University admits students of any race to all rights, privileges, programmes and activities generally accorded or made available to students of the University. The University does not discriminate on the basis of race in the implementation of its educational policies, its scholarship and loan programmes, or its sport programmes.

Communication with the University

In dealing with new formal applications for admission, the University assigns a student number to each applicant. This student number serves as the unique identification of the person concerned. However, the mere assignment of a student number does not imply that the applicant will be accepted for the proposed programme of study. You will be advised whether or not you have been accepted in a separate letter.

Once you have been informed of your student number, you must please quote it in all future correspondence with the University.

Important concepts

Number

In this Part 2 of the University Calendar, any expression signifying the singular includes the plural, and vice versa, unless inconsistent with the context.

Programme

In this Part 2 of the University Calendar, the terms “programme” and “programmes” are short for “instructional programme”/“programme of study” and “instructional programmes”/“programmes of study” respectively, unless inconsistent with the context.

Holder

In this Part 2 of the University Calendar, the term “holder” means “bursary holder”, “bursary loan holder” and/or “merit bursary holder”, unless inconsistent with the context.

Bursary

An amount of money allocated to a needy, deserving student to pay for his studies fully or in part. There may be a service agreement attached to the bursary.

Loan

An amount of money lent to a needy, deserving student to pay for his studies in full or in part. The money must be paid back by the student.

Bursary loan

An amount of money lent to a needy, deserving student to pay for his studies in full or in part. Depending on certain criteria, part of this loan may be converted to a bursary.

FINANCIAL SUPPORT

Stellenbosch University believes that people who have the potential to make a success of academic studies should as far as practicable be given the appropriate opportunities. This is why we strive to provide as much support as we possibly can to those who gain admission to the University as students but lack the financial means required.

The financial neediness of its students is thus a factor to which the University is very much alert. Unfortunately, though, we do not have unlimited funds at our disposal. This means that students cannot look for financial support to the University only. Nor is the fact that a student has applied for a bursary and/or a bursary loan a guarantee in any sense that he will be granted such bursary or bursary loan.

The University provides only two forms of financial support for its students that they can be “sure” of, namely merit bursaries and the “three children” rebates. In the granting of these awards and rebates, financial neediness is not among the factors taken into consideration.

In the first and last instance, therefore, each student of Stellenbosch University is personally responsible for making financial provision for the settlement of his student fees account.

1. Who qualifies for financial support?

Students whose gross family income is less than R350 000 per year, are requested to apply directly for a full-cost NSFAS bursary at www.nsfas.org.co.za. These students do not normally qualify for financial support at the University.

1.1 The two sets of factors in the University’s allocation of financial support

Since the University’s financial resources are not unlimited, it bases the allocation of bursaries and/or loans – in other words, the allocation of financial support – on both academic and financial factors.

Central to the academic factors is the individual’s potential to make a success of university studies. Central to the financial factors is the individual’s financial neediness.

a) Academic factors

- Students of the University, whether registered or prospective, must meet the minimum academic requirements for admission.
- First-year students and students in one of the extended degree programmes who have been admitted to the University as students on the strength of their results in the final school examinations (or equivalent examinations) may be eligible for financial support (the University takes such admission to be sufficient proof of their capacity to make a success of university studies).

- Undergraduate students of the University must be registered for full-time, complete programmes.
- Senior undergraduate students – that is, students in a second or further year of study – are required to have passed not less than 60% of the credits of their previous year of study.
- Senior undergraduate students who have passed less than 60% of their credits of the previous year of study have disqualified themselves on academic grounds to be considered for any financial support.

b) Financial neediness

If an applicant has the academic potential to study successfully, the University will consider his financial neediness. To form an accurate picture of the applicant's financial position, the University requires the following document(s) concerning the finances of his parents/guardian/spouse:

- the parents'/guardian's/spouse's latest salary advice(s) or, where applicable, a letter from the employer declaring the parents'/guardian's/spouse's income; or
- if the parent/guardian/spouse is a pensioner, or has taken a severance/early retirement package, or is dependent on revenue from interest, documents in proof of this fact; or
- if the parent/guardian/spouse runs a business or farm of his own, the latest, properly audited statements of such business or farm.

With these financial particulars to hand, the Centre for Undergraduate Bursaries and Loans then assesses the extent of the applicant's financial neediness.

Students are granted financial support, regardless of race and gender, in direct proportion to the extent of their neediness.

An applicant is normally considered for financial support if the gross family income is between R350 000 and R600 000 per annum.

Unless otherwise specified, applicants must be South African citizens and reside in South Africa.

Note: Students whose gross family income is less than R350 000 per year are requested to apply directly for a full-cost NSFAS bursary at www.nsfas.org.co.za. These students do not normally qualify for financial support at the University.

1.2 How can I apply for financial support?

Study this book carefully to determine which bursaries and/or bursary loans you qualify for. Make sure to read through the general bursaries, as well as the faculty-specific bursaries.

- You can apply online for financial assistance at my.sun.ac.za or visit my.sun.ac.za from 1 April for the following year; submission of applications forms together with supporting documents should be sent to blinfo@sun.ac.za once an online application has been completed.

- You can use the same form to apply for more than one bursary, loan or bursary loan administered by Stellenbosch University.
- For bursaries administered by a private company or organisation, you can contact the company or organisation directly for application forms.
- Make sure that you complete all the necessary forms correctly and completely and that all required supporting documents are attached. Incomplete applications will not be considered.

Special students or students who are not registered for the minimum prescribed credits for their degree programmes in a relevant academic year will not be considered.

1.3 What is the closing date for applications?

- The closing date for undergraduate bursaries administered by Stellenbosch University is 31 August. (These bursaries you will find at my.sun.ac.za.)
- Applications received after the closing date will be considered during a second phase, at a later stage, depending on the availability of funds for these late applications.
- The closing dates for bursaries administered by private companies or organisations may differ from that of the University, but the closing date of each externally administered bursary is indicated in the bursary section of this book.
- Postgraduate bursary applications have various closing dates. Contact postgradfunding@sun.ac.za as early as April of the preceding year to enquire about the different closing dates.

1.4 How will I know if my application was successful?

- All awards of bursaries to prospective students who have applied timeously are finalised during November. The Centre for Undergraduate Bursaries and Loans then informs each applicant in writing of the outcome of his application soon hereafter.
- If a senior student has not received a letter by end of December, he may contact the Centre for Undergraduate Bursaries and Loans at telephone number 021 808 9111.

1.5 When is the money paid out?

In the case of merit bursaries and of bursaries/bursary loans for local full-time studies which are received and administered by the University, the University transfers the monies concerned into the holders' student fees accounts.

1.6 What may I spend the money on?

All bursaries and bursary loans that are awarded to students may only be used for study fees, accommodation, meals, books and study material, and for travel allowance for students residing at home.

1.7 Reduction or cancellation of bursary or bursary loan

- A bursary or bursary loan may be cancelled or reduced at any time if the holder's conduct or progress is unsatisfactory, or if he discontinues his studies, or if the standard of his class work or his examination results are, in the University's opinion, not adequate.
- The amount of the bursary or bursary loan is determined by a financial means test. If the student receives any other bursary or bursaries (e.g. a SU merit bursary or a full bursary of an organization), the amount of the bursary or bursary loan will be reduced accordingly or even cancelled. This reduction or cancellation of the bursary or bursary loan is done automatically and students and parents will not be notified about this beforehand.

1.8 Repayment of bursary and/or bursary loan on non-completion of programme

If the holder of a bursary or bursary loan fails to complete his programme, the University may demand repayment by him of the amount disbursed to him.

2. What kind of financial support is available?

Students and prospective students of the University are eligible for a wide range of bursaries and/or bursary loans. Roughly speaking, these fall into four broad types:

- Merit bursaries for Stellenbosch University students, granted solely on the basis of scholastic or academic achievement.
- Rebates for certain Stellenbosch University students.
- Sport bursaries for Stellenbosch University students, awarded on the basis of achievements other than scholastic or academic.
- A large number of bursaries/bursary loans for financially needy undergraduate and postgraduate students of Stellenbosch University.

2.1 Merit bursaries and special bursaries for first-year students

a) Merit bursaries

Date for granting of merit bursaries

Merit bursaries are awarded by the end of April.

Calculation and granting of merit bursaries

- In respect of First-year Merit Bursaries, the criterion used is the actual average of a student's final Grade 12 exam results (calculated based on a combination of the six best subjects required to gain admission to Bachelor's studies at a university, excluding Life Orientation and Mathematics Paper 3), as indicated by the respective education departments. Merit Bursaries are calculated as a percentage of basic study fees (module and/or programme costs excluded).
- The calculated amounts are then automatically transferred to the beneficiaries' student accounts.

The following scale is applicable to first-year merit bursaries:

Matric aggregate	Percentage rebate on basic tuition fees (excluding module cost and/or programme cost*)
90% and higher	Up to 40%
The percentage rebate will depend on the number of qualifying candidates and the amount available for merit bursaries.	

*Module cost and/or programme cost may include the following: materials fees, laboratory fees, travelling expenses, running costs, programme levy and the membership dues for any faculty-bound academic societies, as applicable to the relevant programme or module.

Please note

- First-year students that completed their school end exams outside a provincial education department (excluding IEB examination), must submit a certified copy of their final Grade 12 exam results to the Centre for Undergraduate Bursaries and Loans.
- The onus rests on students to verify by June of the specific academic year in which they are entitled to a merit bursary, whether the bursary is indicated on their student fees account.
- If the latter are not reflected, they must notify the Centre for Undergraduate Bursaries and Loans before the end of August; otherwise they forfeit their claim to a merit bursary.
- SU merit bursaries may not be held together with other full-cost* bursaries and will be decreased or cancelled accordingly.

*The value of full-cost bursaries and allowances are aligned with the new DHET bursaries, as

annually prescribed by the National Student Financial Aid Scheme (NSFAS), and includes the study fees, accommodation fees, meals and book fees of a student. Students who reside with their parents do not qualify for accommodation and meal allowances but are, however, eligible for a travel allowance.

Cancellation of merit bursaries

- The merit bursaries of students who discontinue their studies during the academic year will be cancelled.

Merit bursaries to students that studied at other institutions

- Students who studied at other institutions, do not qualify for First-year Merit Bursaries, but can be considered for Senior Merit Bursaries on the basis of their academic performance.
- These students should submit their results to the Centre for Undergraduate Bursaries and Loans.

b) Sport bursaries

- First-year students who have superior sporting achievements to their credit may be eligible for a range of special bursaries that are not listed in this book. For more information, please contact Maties Sport, tel. 021 808 4642.

c) “Three Children” Rebate

- The University gives a 10% rebate on study fees where three or more children from the same family are studying at the University simultaneously.

2.2 Merit bursaries and special bursaries for senior undergraduate students

Definitions

Senior undergraduate students

For the purposes of this Part 2 of the University Calendar, the phrase “senior undergraduate students” means “senior students of the University who are taking undergraduate or postgraduate bachelor’s degrees - e.g. LLB as a second bachelor’s degree – but not honours degrees”.

Senior Merit Bursaries

For the purposes of this Part 2 of the University Calendar, “Senior Merit Bursaries” means the same as “merit bursaries for senior undergraduate students”.

Senior merit bursaries are awarded to the top 5% achievers per faculty, on the condition that candidates have obtained a weighted average of at least 75% in their previous academic year. Qualifying students receive a discount of up to 20% on their basic study fees (excluding module and/or programme costs). The percentage of top achievers per faculty may be adjusted subject to the available budget for SU bursaries. (Also see paragraph further on.)

a) Requirements for the Senior Merit Bursaries

Candidates for the Senior Merit Bursaries must –

- be senior undergraduate students of the University;
- be full-time students of the University;
- take an appropriate degree programme;
- take the full number of modules prescribed for the year of study concerned; and
- students who studied at other institutions should submit their results before 15 February of the current academic year, to the Centre for Undergraduate Bursaries and Loans.

Please note

- Only students who take the full number of prescribed credits for a particular year can qualify for Senior Merit Bursaries.
- SU Merit Bursaries may not be held together with other full-cost* bursaries and will be decreased or cancelled accordingly.

*The value of full-cost bursaries and allowances are aligned with the new DHET bursaries, as annually prescribed by the National Student Financial Aid Scheme (NSFAS), and includes the study fees, accommodation fees, meals and books of a student. Students who reside with their parents do not qualify for accommodation and meal allowances but are, however, eligible for a travel allowance.

b) Awarding of Senior Merit Bursaries

- Senior Merit Bursaries are awarded on the academic performance of the previous year and can only be utilised for study costs.
- Final-year students must familiarise themselves with the requirements and criteria for Postgraduate Funding.
- Students who do not take the full number of prescribed modules of a specific year, because of acknowledgement of modules they have taken elsewhere, do not qualify for the merit bursaries.

- Students of the University registered for any postgraduate diploma or degree programme, excluding PGCE and LLB (postgraduate), are not eligible for these Senior Merit Bursaries.
- For the purposes of these Senior Merit Bursaries, each candidate's weighted average is calculated on the results of the preceding year of study. The weighted averages are explained later on in this section.
- The said senior students of this University are eligible for these Senior Merit Bursaries automatically and therefore need not apply for them in writing while attending their programmes of instruction, provided that such applications in writing shall be required, however, if such students have interrupted their studies and resume them in a subsequent calendar year.

Please note

- The onus rests on students to verify by June of the specific academic year in which they are entitled to a merit bursary, whether the bursary is reflected on their student fees account.
- If the bursary is not reflected in the student account, the student must notify the Centre for Undergraduate Bursaries and Loans before the end of August; otherwise the claim to a merit bursary will be forfeited.

c) Scale for Senior Merit Bursaries

The following scale is applicable to Senior Merit Bursaries:

Weighted average	% rebate on basic study fees* (excluding module costs and/or programme costs)
Top 5% achievers per faculty on condition that candidates obtain a weighted average of at least 75% in their previous academic year.	Up to 20%*
* The real % rebate will depend on the number of qualifying candidates and the amount available for Senior Merit Bursaries.	

d) Cancellation of Senior Merit Bursaries

The merit bursaries of students who discontinue their studies during the academic year will be cancelled.

BURSARIES FOR UNDERGRADUATE STUDENTS

As a rule, applicants for the bursaries/scholarships described in this Section must be prospective or registered students of Stellenbosch University (SU). The exceptions to this rule will be clear from the descriptions given.

SU advises its students and prospective students to consult the relevant particulars in this Section before requesting copies of the prescribed forms for bursary applications.

All applications must be done online on my.sun.ac.za, or with the company or trust concerned.

All undergraduate applications administered by the University should reach the Centre for Undergraduate Bursaries and Loans before the relevant closing date of 31 August.

Closing dates for private organisations or companies may vary from that of the University.

In some instances, the value of a bursary may vary year on year. In such cases, the value has not been specified.

Please note:

Interested students and prospective students may also obtain information about other bursary options at <http://bursaries-southafrica.co.za/list-of-all-bursaries-in-south-africa/>.

1. BURSARIES FOR STUDY IN MOST FACULTIES

1.1 Bursaries not subject to significant restrictions

Bendiks (LMC Bendiks)

Who qualifies?

Needy and deserving students.

Applications: my.sun.ac.za.

Bloemhof Trust Bursary

Who qualifies?

Bursaries are awarded to Afrikaans-speaking students on the ground of neediness, academic merit, sport achievement, leadership and family bond with SU.

Applications:

This bursary has a unique application form that you can find at my.sun.ac.za.

Closing date: 31 August

Value: R5 000-R50 000.

Particulars:

The bursaries are allocated by the trustees of the Bloemhof Trust.

Broden (Eric Broden Trust)

Who qualifies?

Bursaries are awarded on the grounds of neediness and academics.

Applications: my.sun.ac.za

Campher (Leon Campher Bursary Fund)

Who qualifies?

Undergraduate students who are needy and/or from historically disadvantaged schooling circumstances.

Applications: my.sun.ac.za

Value:

Variable and subject to the availability of funds, and to the general terms and conditions laid down by SU.

Du Toit Huguenots

Who qualifies?

- Criteria of award include neediness, academic achievement and leadership potential.
- All candidates must include a motivational letter with their application.
- All else being equal, candidates of Huguenot descent will receive preference.

Applications:

This bursary has a unique application form that you can find at my.sun.ac.za.

Particulars:

- Students who already receive the bursary, will have to reapply each year.
- If a holder fails to show satisfactory progress, or is guilty of misconduct, the bursary may be cancelled and repayment demanded on such conditions as may be laid down by the trustees and the bursary committee concerned.

Greenberg (Isaac Greenberg)

Who qualifies?

- Prospective first-year students with an exceptionally high level of scholastic achievement qualify.
- Allocations are divided equally among candidates of Afrikaans, English and Jewish descent.

Applications: my.sun.ac.za

Particulars:

- Each bursary is granted for three years in succession, subject to satisfactory progress.
- Applicants must produce proof of the language group to which they belong by way of the signature of a clergyman or school principal on the reverse side of the application form.
- The late Mr Isaac Greenberg endowed similar bursaries for the University of Cape Town and it is a stipulation in his will (and therefore a condition of the bursary concerned) that all bursary holders of both universities must attend a joint meal once a year.
- The two universities' respective undergraduate bursaries and loans environments take it in turns to organise this event annually, usually at a date in September.

Hocken (Marjorie Hocken)

Who qualifies?

Full-time needy and deserving undergraduate students.

Applications: my.sun.ac.za

Particulars:

- No bursaries are to be awarded to candidates studying in any field in which animals are experimented with.
- Bursary holders must apply annually for a continuation.

Jansen (Dr PG Jansen)

Who qualifies?

Needy, deserving students.

Applications: my.sun.ac.za

Leadership (Student Leaders)

Who qualifies?

Student leaders, e.g. head students of University residences.

Applications: No applications.

Value: R3600

Meaker (Cato Meaker)

Who qualifies?

- Deserving and/or needy students (undergraduate and postgraduate) in any field of study, with preference to students in Social Work.

Applications:

my.sun.ac.za [Head: Centre for Undergraduate Bursaries and Loans or Head: Postgraduate Student Funding, SU]

Value: Study fees

Particulars:

- The Cato Meaker Study Fund aims at supporting the University's striving towards greater academic excellence by offering financial support, in the form of bursaries, to deserving undergraduate and/or postgraduate students.
- Each year in December, the Centre for Undergraduate Bursaries and Loans and the Unit for Postgraduate Student Funding, in collaboration with the Centre for Prospective Students, will nominate deserving and/or needy students to the Management Committee of the Cato Meaker Study Fund for approval.
- The candidates must carry a full academic load and meet the minimum academic admission requirements of the programme concerned.
- The bursary may be awarded to the same bursary holder in consecutive academic years, provided that the holder meets the minimum requirements for readmission as a student each year.
- The bursaries may form part of the packages offered to recruitment students in order to attract academically top students to the University.

National student financial aid scheme (NSFAS)

Who qualifies?

A person who has never been registered at any university in the system before, and is entering the university at undergraduate level for the first time and for their first undergraduate qualification. Student should come from a family with a household income of up to R350 000 per annum.

Existing students will be considered, provided you meet the NSFAS's academic and financial eligibility requirements. However, as a continuing student your combined household income threshold will be assessed in terms of the DHET's NSFAS general fund criteria (i.e. up to R122 000 per annum).

Bursaries to undergraduate students with South African citizenship in any field of study.

Applications: www.nsfas.org.za

LOANS

The loans listed in this section are mostly for undergraduate students. Postgraduate students are advised to contact the Postgraduate Student Funding Unit at 021 808 4208.

Stellenbosch University Undergraduate Bursary Loan Scheme (only continuations)

Value

Variable between R5 000 and R83 600, depending on the applicant's financial neediness.

Applications: my.sun.ac.za

Basic conditions and procedure

- Any field of study.
- Bursary loans for undergraduate students who are South African citizens. The term “bursary loan” is used, as a loan can be partially converted into a bursary in terms of conditions explained further on in this section.
- Allocations are done on grounds of neediness and merit, on condition that students take a **full** academic load for a given year and must pass two-thirds of their credits every year. The applicant is needy when the family do not qualify for a bank loan, and/or cannot contribute a payment towards the student's studies.
- The amount of the bursary loan is determined by a financial means test and students receive financial assistance irrespective of race or gender on the level of neediness as determined by the means test.
- If the student receives any other bursary or bursaries (e.g. a SU merit bursary), the amount of the bursary loan will accordingly be reduced or even cancelled. This reduction or cancellation of the bursary loan is done automatically and students and parents will not be notified about this beforehand.
- A bursary loan will not be allocated if a student already receives a full-cost bursary.

The application of funds

Bursaries and/or bursary loans can only be used for study fees, accommodation (on campus or private), meals and books.

Interest rate

The interest on the bursary loan amount shall be fixed from year to year at prime minus 4%.

Incentives

For a given year, in terms of the incentives, a loan can partially convert into a bursary. Students must take a full academic load for a given year to qualify for a partial conversion of their loan into a bursary. The yearly discount on the capital borrowed plus interest payable is determined as follows:

- **30%** of the loan amount converts into a bursary if the holder studies 100% successfully (in other words, if he obtains 100% of the credits of the prescribed modules that he has registered for in the academic year concerned);
- **20%** of the loan amount converts into a bursary if the holder studies 80-99% successfully (in other words, if he obtains 80% to 99% of the credits of the prescribed modules that he has registered for in the academic year concerned); and
- **10%** of the loan amount converts into a bursary if the holder studies 65-79% successfully (in other words, if he obtains 65% to 79% of the credits of the prescribed modules that he has registered for in the academic year concerned).
- A bursary loan holder who studies less than 65% successfully does not, however, qualify for any discount, nor for the continuation of the bursary loan in the following year.

Students in Extended Degree Programmes

Holders who take approved extended degree programmes shall be charged interest at prime minus 4% per annum from the date of allocation up to the end of the repayment period, except if they study successfully as set out immediately below:

- If such holders pass the first three years of study, they shall qualify for discount as described above.
- If such holders study successfully and complete their programme within four years, the scheme rewards them for their academic success in the following ways:
 - One-half of the bursary loan amount of their fourth year plus one-half of the interest payable for their fourth year shall be converted into a bursary; and
 - from the end of their fourth year, up to the end of their repayment period, they shall be charged interest at the reduced rate of prime minus 6% (six per cent).

Possible adjustment of rates and percentages

The rate of the interest payable on the loan amount (e.g. prime minus 4%), and the percentage for the conversion of the capital amount plus interest (e.g. 30%, 20% or 10%) into a bursary, are both constant in respect of a given year. Both of these figures may be adjusted in subsequent years, however, depending on various factors, for instance (i) increases or decreases in the prime lending rate, (ii) the availability of funds, (iii) estimates of neediness in general and (iv) views about students' success rate in general.

Exemption from interest during postgraduate study

Holders of an undergraduate bursary loan shall pay no interest if they proceed to postgraduate study, except if the postgraduate study is of such duration as to render an extra levy applicable to them – namely, interest at prime minus 4%.

Repayment

- Holders shall repay their bursary loan debt over a period of years equal to that for which they have received the bursary loan.
- If a holder falls in arrears with the repayment of his bursary loan, interest for the remainder of the repayment period shall be charged at the full prime rate.

- A family member or sponsor can apply for a loan on your behalf and different credit criteria can apply when you nominate salary deduction as a method to pay back your instalments.

Faculty of Engineering Loan Fund

Who qualifies?

Third- and fourth-year students in all BEng programmes, and postgraduate students (in exceptional cases).

Applications:

Faculty of Engineering: Faculty Manager.

Value:

Variable depending on the student's financial need.

Details:

- The Faculty of Engineering Loan Fund aims to provide needy students with financial support in the form of loans.
- A deserving and/or needy student may submit a request for consideration to obtain a loan to continue or complete his/her studies in the Faculty of Engineering at Stellenbosch University before 31 March of the year concerned.
- The Student Fees Section and Centre for Undergraduate Bursaries and Loans may also identify needy students and submit their names to the Faculty.
- Applications must be submitted to the Faculty Manager, along with the necessary motivation, a detailed breakdown of the year's expected expenditure and income, as well as the student's academic record.
- Additional information to prove financial neediness must also be submitted or may be requested.
- The Faculty Manager will consider all applications and will make a recommendation to the Dean: Faculty of Engineering for final approval.
- The number of loans that will be granted, will be determined annually on the basis of the amount that the Faculty makes available for this purpose.
- The candidate must pursue an academic load of at least 120 credits, or all the remaining credits for the programme concerned, in the year and meet the minimum readmission requirements for the programme concerned.
- Loans may be awarded to the same candidate in successive academic years, provided that the candidate meets the minimum readmission requirements as a student every year.
- Once the list of students who qualify for a loan has been signed off by the Faculty Management, the Centre for Undergraduate Bursaries and Loans will deal with the further administration.

Interest rate:

Interest on the bursary loan amount will be determined from year to year at the prime rate.

Repayment term:

- The loan amount, plus interest, is payable over an agreed number of months (typically between 12 and 30 months maximum), with the first instalment due in the month that follows on when the student completes his/her studies.
- In the case of a BEng student who has been receiving a loan since his/her 3rd year, and where the loan was awarded for two years, the loan is repayable over a maximum of 30 months, with the first payment due in the month after the student has completed his/her studies.
