

# TSRC Candidate 2024/2025

## Sharon Adejimi

## CANDIDATE MANIFESTO

The TSRC can be a better student representative body by firstly hearing out what students want. There is no point in providing a service in something that the students never asked for in the first place. The second thing would be to become **VISIBLE**. The TSRC has many great initiatives they carry out, but it can get lost on campus as students do not see or hear about it, thus they are not aware of services offered to them. That leads me to my third point of bettering **COMMUNICATION** and constantly advertising and liaising with student leaders to spread the word of events and services so that it reaches as many ears on campus as possible. The skills I can provide to the TSRC would be new and fresh initiatives. I am a believer of finding out what the need in the community is and implementing it well! I love coming up with creative initiatives so that it draws attention from the crowd. I get my experience from being a HK and then eventually Vice Primaria of Enkanyini residence. My other skill is communication and getting the word out there. I really value communication as I exercise this being class rep for the new MBChB curriculum as well as my HK duties. One will hear of my events on social media and see them stuck everywhere on campus. Practical plans I have in mind would be hosting a "It would be great if..." session where the TSRC members go to the resident spaces (not just sit at the TSS) and engage in what services they want (KP awarded). Another practical plan would be to ask the class reps to display and advertise any of the big events during a quick class break in the lecture hall as communication is key.
