

3.3.3 PhD in Animal Production Systems or PhD (Agric)

Programme Code

5471001 or 274100

Programme Description

The programme focuses strongly on research and aims to discover new insights and knowledge in the field of Animal Production Systems. This knowledge increases your general intellectual and professional skills and promotes your adaptability to carry out advanced research in a specific field of study that links up with other fields of study. The programme will equip you at the highest academic level for entering the research industry or professional field. See section 2.4 in this chapter for general information on the PhD degree in the Faculty of AgriSciences.

Programme Content

Compulsory Module

20826: Animal Science	978(360): Doctoral dissertation
-----------------------	---------------------------------

Assessment and Examination

After completion of the research you must submit a dissertation to the satisfaction of the examiners and present a seminar. You will be expected to defend your dissertation during this seminar.
