

# **BComHons (Logistics Management)**

## ***Admission requirements***

- One of the following:
  - A BCom degree or
  - A bachelor's degree other than a BCom degree.
- An average of at least 60% for Logistics Management at third-year level.

## ***Selection***

The number of students selected will be influenced by, among other things, staff capacity, availability of the Department's resources as well as academic merit and University transformation objectives. As staff capacity and resources may fluctuate from year to year, the number of students selected can also differ from year to year.

Selection decisions are made by a selection committee that considers the following:

- Their average final mark achieved for their Logistics and/or Supply Chain Management major at third year level;
- Overall academic performance;
- Their research potential as displayed in an undergraduate research module;
- Their level of numeracy (satisfactory numeracy is deemed to be a first year (one semester) university course in Mathematics (pure or applied) or Statistics or Mathematics at National Senior Certificate level with a mark of 50% or higher); and
- Their motivation for wanting to pursue postgraduate studies in Logistics and Supply Chain Management.

If there are a large number of applicants, the Department may request applicants to submit a short curriculum vitae, letter of motivation, and research idea. These will then be used to compose a shortlist for selection interviews. The interviews will be used to rank the applicants in order of suitability, and to finalise the list of selected applicants.
