

MPhil (Environmental Management)

Admission requirements

- A Postgraduate Diploma in Environmental Management from Stellenbosch University;
or
- Senate may also consider any other equivalent qualification if you do not have a Postgraduate Diploma in Environmental Management. Such a qualification must be approved by Senate before you will be admitted.

Selection

The number of students selected can be influenced by, for example, staff capacity, availability of resources within the School as well as academic merit and University transformation objectives. As staff capacity and resources can fluctuate from year to year, the number of students selected can also differ from year to year.

Should the number of applicants that meet the admission requirements exceed the available capacity of the School, the criteria in the admission requirements will be used to rank the applicants in order of suitability, and to finalise the list of selected applicants. Students who obtained an average of 65% or more for the Postgraduate Diploma in Environmental Management will get preference.

Application procedure and closing date

Contact the School of Public Leadership directly at the contact details under “Enquiries” below to find out about the application process and closing date.

Duration, offering type and starting date

Programme structure

You can choose between two possible options:

- *A Coursework and Thesis option* (Environmental Management 899):

For the Coursework and Thesis option you must complete:

- one compulsory coursework module (30 credits),
- three elective modules (at least 60 credits), and
- a thesis that focuses on environmental management (90 credits).

- *A Full Thesis option* (Environmental Management 879):

For the Full Thesis option, you must attend a compulsory research workshop and colloquium and complete a research thesis that focuses on environmental management to earn the full credit load.
