

Master of Human Rehabilitation Studies (structured option)

Duration of programme

The programme extends over two years.

Programme content

First year

Applied Research Methodology	842(40)
Rehabilitation I	871(40)

Second year

Rehabilitation II	872(40)
Research Assignment	814(60)

Assessment and examination

- Modules are assessed by means of online discussions and open-book assignments. You must pass all four modules with a mark of at least 50%.
- If you fail a module with a final mark of between 45% and 49%, you will be granted an opportunity to repeat the assignment(s) which has contributed to the final mark for the module.
- If you do not qualify to repeat the assignment(s) or fail the assignment(s) for the second time, you will be given one opportunity to repeat the module in the following year. If you fail the module for the second time, you may be denied the right to register for the module again and to qualify for the master's qualification on recommendation of the Faculty Board.
- You must submit a satisfactory research assignment which clearly demonstrates your ability to conduct an independent scientific study and interpret the results. If you require more time to complete the research assignment, you may register for a third year of study.
