

Master of Therapeutic Nutrition

Specific admission requirements

- One of the following:
 - A relevant bachelor's degree at NQF level 8 (or international equivalent) and proof that you completed at least Therapeutic Nutrition (at an advanced level), as well as Physiology, Biochemistry and Research Methodology;
 - A standard of competence you have otherwise attained and which is deemed adequate for such purpose by Senate.
- For the research stream, you must have experience in planning and implementing a research project at undergraduate and professional level.

Programme description

You can follow one of two streams for the Master of Therapeutic Nutrition programme, namely:

- Master of Therapeutic Nutrition (structured option); and
- Master of Therapeutic Nutrition (thesis option).

The structured stream is presented by means of technology-mediated teaching and learning. You must attend one contact session of one week per year for both the structured and research streams.

The two streams are discussed separately in more detail below.
