

MPhil in Adult Critical Care

Please note: This programme will be offered in 2022 pending approval by the South African Qualifications Authority (SAQA).

Specific admission requirements

At least one of the following qualifications:

- FCA (SA)/FCEM (SA)/FCP (SA)/FCOG (SA)/FCS (SA);
- MMed (Anaesthesiology/Emergency Medicine/Internal Medicine/Obstetrics and Gynaecology/Surgery); or
- An equivalent specialist qualification.

Application procedure and closing date

You must apply for a subspecialty registrar post in service of the Western Cape Department of Health if you want to register for the programme. If you are successful, you will be admitted to the MPhil in Adult Critical Care.

Duration of the programme

The programme extends over two years.

Programme content

Both modules are compulsory and run concurrently instead of consecutively.

Clinical Critical Care	XXX(135)
Critical Care Research Project	XXX(45)

Assessment and examination

- To successfully complete the Clinical Critical Care module, your participation must be satisfactory while working as a subspecialty registrar in the Department of Anaesthesiology and Critical Care. Furthermore, you must achieve a pass mark of at least 50% in the Cert Critical Care(SA) Anaes examination of the CMSA.
- You will be assessed regularly as part of the flexible assessment strategy and you must keep a portfolio/logbook of your clinical exposure and experience with procedures.
- You must register a research protocol for the Critical Care Research Project module within six months of registration and complete the research assignment within two years of registration.
- The assignment should be submitted in the form of an article ready for publication.
- The modules contribute to the final mark as follows:
 - Critical Care Research Project – 25%, and
 - Clinical Critical Care – 75%
