

MSc in Medical Microbiology

Specific admission requirements

- A BScHons degree in a relevant field of study.
- If you have a BTech qualification:
 - you will be considered for admission if you have passed the BTech degree with a minimum of 60%; and
 - then you will be admitted if you pass the BScHons examination in the relevant field of study as a preliminary examination with a minimum mark of 60%.

Application procedure and closing date

Apply online at www.maties.com by **30 September** of the previous year. Applications for prospective international students close on **31 August**.

Only a limited number of students can be accepted.

Duration of programme

The programme extends over a minimum of two years on a full-time basis.

Programme description

The programme consists of an extensive research project, leading to the submission of a thesis. The subject of the project is determined in close liaison with your supervisor, preferably within the area of expertise of the Division of Medical Microbiology, before you will be allowed to register for the programme. The initial research proposal is approved by a departmental research committee and the Health Research Ethics Committee of the Faculty of Medicine and Health Sciences. Progress with experimental work is monitored continuously by the supervisor. If you are unable to demonstrate satisfactory progress, the Programme Committee may recommend that you discontinue your studies.

Programme content

Thesis: Medical Microbiology	872(180)
------------------------------	----------

Assessment and examination

- You must complete a research project, which is assessed according to University guidelines through a process of internal and external examination.
