

# MSc in Morphological Sciences

## *General admission and selection requirements for MSc programmes*

- For admission to the MSc degree programmes, you must have an honours degree in Science of this University, or another honours degree approved for such purposes by Senate, or you must otherwise have attained a standard of competence deemed adequate for such purpose by Senate.
- The initial research proposal is approved by a departmental research committee, as well as by the Health Research Ethics Committee of the Faculty of Medicine and Health Sciences. In instances where research is conducted on animals, the proposal is approved by the Committee for Experimental Animal Research of the Faculty.

## *Specific admission requirements*

The following specific admission requirements apply in addition to the general admission requirements for MSc programmes as mentioned above:

- If you have a BTech qualification:
  - you will be considered for admission if you have passed the BTech degree with a minimum final mark of 60%; and
  - then you will be admitted if you pass the BScHons examination in the relevant field of study as a preliminary examination with a minimum examination mark of 60%.

## *Application procedure and closing date*

Apply online at [www.maties.com](http://www.maties.com) by **30 September** of the previous year. Applications for prospective international students close on **31 August**.

## *Duration of programme*

The programme extends over one year.

## *Programme description*

This is a completely thesis-based master's programme. The initial research proposal is approved by a departmental research committee and the Health Research Ethics Committee of the Faculty of Medicine and Health Sciences.

## *Programme content*

Thesis (Morphological Sciences)	895(180)
---------------------------------	----------

## *Assessment and examination*

- You must complete a research project, leading to the submission of a thesis that is assessed according to University guidelines through a process of internal and external examination.
- The final mark is calculated from the marks obtained for the research project and thesis, as well as for a presentation and an oral examination.
