Programme structure

Firstly, you must attend lectures for the coursework component and the first part of the research assignment module. These lectures are presented from the Stellenbosch campus by means of blended learning. Blended learning is a hybrid learning model that relies on virtual as well as face-to-face lectures. There are several short sessions throughout the year, as well as block lectures. Class attendance and assignment submission are compulsory and start in the first year, with frequent

lectures during February to April and, thereafter, once a month until October. This compulsory class attendance ends with lectures during February to April in the year of the research assignment module.

Secondly, you must complete a research assignment and an article that is publishable in an accredited journal.

You must also attend a writing skills workshop about writing up research.

Programme content

Programme module

You must earn a total of at least 180 credits for this programme.

Code	Module	Credits	Module Name	Semester
56839	899	180	Computer Auditing	Both
