

MPhil in Child and Adolescent Psychiatry

Specific admission requirements

- One of the following qualifications:
 - a Master of Medicine in Psychiatry;
 - a Master of Clinical Psychology;
 - a fellowship of the College of Psychiatrists of South Africa; or
 - an equivalent qualification approved by Senate for this purpose.
- Registration as specialist psychiatrist/clinical psychologist with the Health Professions Council of South Africa.

Application procedure and closing date

Apply online at www.maties.com by **30 September** of the previous year. Applications for prospective international students close on **31 August**.

Duration of programme

The programme extends over two years. You must work in clinical practice with predominantly child and adolescent clientele.

Programme description

The teaching and learning strategy in each module is determined by the nature of the subject. Modules are presented within the framework of a student-centred approach with the purpose of stimulating critical thinking. The programme uses didactic methods, interactive learning, group sessions and supervised clinical work. Independent learning is encouraged. The research assignment is completed under the guidance of a supervisor.

Programme content

First year
