

CANSA Call for Applications: Cancer Research Grants for 2018

Researchers are hereby invited to apply for funding from CANSA (the Cancer Association of South Africa). Funding is made available for **cancer research** and will be awarded for 1-3 years.

The following topics are relevant for this round of applications:

- Epidemiology and determinants of the burden of cancer in South African populations
- Health seeking behaviours and early detection and diagnosis of cancer
- Health promotion and risk reduction of cancer, with a particular focus on behavioural risk reduction
- Optimal patient care including rehabilitation and palliative care services
- Other health services and health system research relating to the above categories
- Research relating to cancer biology/biochemistry/molecular biology as these relate to early detection, risk reduction and patient care

Kindly see **CANSA Regulations Governing the Award of CANSA Research Grants** for eligibility and funding criteria.

The **process** for submitting your application is outlined below:

1. Complete the research proposal template (attached)
2. Email the completed **research proposal + ethics approval and other relevant documentation (as required)** to Nugent Lewis before **17 May 2017**.
3. You may receive recommendations emanating from our **internal administrative review process**
4. Please ensure that **you and your witnesses** sign sections 26 and 27
5. **You must submit your final copy of the application to nugent@sun.ac.za before 31 May 2017. No late applications will be considered.**
6. The maximum amount to apply for funding is currently **R400 000 per applicant per annum, for up to 3 years**. (75% will be awarded by CANSA; Stellenbosch University will contribute the remaining 25%)
