Contact Details

When making an enquiry, please use “NRF Freestanding, Innovation and Scarce Skills Postdoctoral Fellowship Call” as the email subject line.

For NRF Online application and grants management related enquiries, please contact:

Mrs Melissa Govender

Professional Officer: Grants Management and Systems Administration (GMSA)

Telephone: 012 481 4311

E-mail: melissa.govender@nrf.ac.za

Ms Zodwa Mahlangu

Liaison Officer: Grants Management and Systems Administration (GMSA)

Telephone: 012 481 4114

E-mail: zodwa.mahlangu@nrf.ac.za

For funding instrument related enquiries, please contact:

Mr Malose Ledwaba

Professional Officer: Human and Infrastructure Capacity Development (HICD).

Telephone: 012 481 4236

E-mail: malose.ledwaba@nrf.ac.za

For technical online enquiries, please contact the NRF Support Desk during office hours from 08:00 to 16:30 Monday to Friday.

Telephone: 012-481 4034

E-mail: supportdesk@nrf.ac.za

Application and funding guidelines are explained in this document. Candidates must read this document together with the following document: **NRF Freestanding, Innovation and Scarce Skills Development Fund Fellowships Framework** which highlight the eligibility criteria and requirements of each funding instrument.

1. Introduction

This Guide provides an overview of the application process and funding guidelines for the NRF Freestanding, Innovation and Scarce Skills Postdoctoral Fellowships funding instruments. It should be read in conjunction with the abovementioned **Framework**, which may be accessed at <https://nrfs submission.nrf.ac.za>. The Framework provides detailed information with respect to objectives of the funding instruments, eligibility criteria and other relevant information for applicants. This document does not, however, constitute a complete set of the policies, procedures or systems used by the NRF.

2. Granting Rules

2.1. Conditions of the NRF Freestanding (Local), Innovation and Scarce Skills Postdoctoral Fellowships

- The fellowship shall be held as the primary funding for the Postdoctoral research training;
- Fellowships may not be held simultaneously with another fellowship from any other government or NRF source or NRF administered source;
- Postdoctoral Fellows are permitted to spend a maximum of 20% of their time undertaking lecturing and student supervision;
- Postdoctoral Fellows may not concurrently hold the fellowship with any full-time salaried employment; and
- Postdoctoral Fellows may hold non-binding supplementary grants or emoluments to the institutional capped value.

2.2. Values of Postdoctoral Fellowships

2.2.1. Local Awards

Successful applicants will receive funding for a maximum period of two (2) years based on the initial commencement date of the project. Female Postdoctoral Fellows that take maternity leave during the tenure of the fellowship, are eligible for an additional four (4) months of support beyond the two year period.

The local Postdoctoral Fellowship packages for 2019 are broken down as follows:

Value (per annum)	Item
NRF Freestanding (local)	
R155 000	non-taxable stipend
R45 000	contribution towards research costs
R15 000	compulsory institutional contribution
Innovation	
R255 000	non-taxable stipend
R50 000	contribution towards research costs
R15 000	compulsory institutional contribution
Scarce skills	
R255 000	non-taxable stipend
R50 000	contribution towards research costs
R15 000	compulsory institutional contribution

Host institutions will be expected to supplement the fellowship with a minimum of R15 000.00 per annum as part of the institutional commitment. In addition, the host institutions will ensure the provision of an enabling environment for Fellows' research training and skills development.

Successful candidates are also eligible for travel grants for local and international travel. The travel grants may be used to contribute towards the costs of attending local or international conferences; workshops; visiting a laboratory or; any other activity that supports the beneficiaries' research training. Please refer to the Frameworks for the maximum amount permitted over the tenure of the fellowship.

Postdoctoral Fellows who wish to access the travel grant must complete a travel grant application form for submission and approval by the institution and the NRF. The travel application form can be accessed on the NRF Online Submission System at (<https://nrfsubmission.nrf.ac.za>) and should be submitted 3 months prior to travelling.

Successful candidates with disabilities may apply for additional funding for an assistive technology device. Candidates must refer to the Framework document for the maximum amount allowed during the tenure of the fellowship. The assistive device application form may be accessed on the NRF Online Submission System at <https://nrfsubmission.nrf.ac.za>.

3. Application Process

The NRF is issuing this pooled call for NRF Freestanding, Innovation and Scarce Skills Postdoctoral Fellowship applications that is published on the NRF website and is accessible online at <https://nrfsubmission.nrf.ac.za>. Each applicant is limited to only one (1) application per year for this pooled Postdoctoral Fellowship. Once an applicant submits an application, the application will be automatically routed to the institutional Designated Authority (DA) of the submitting institution for validation at the deadline date determined by individual institutions. The applications will then be authorised and approved by the institutional DA through a screening process using the call requirements.

The DA will submit a maximum of twenty (20) applications from all the Postdoctoral applications received at the university or research institution. Applications submitted by the institutions to the NRF must be aligned with the following equity targets:

- **80 % South African citizens and permanent residents**
- **80 % Black (African, Indian and Coloured)**
- **55% Female**

The processing of a successful grant application takes approximately five (5) months from the closing date for applications until the commencement of funding.

4. How to Submit Applications

Applications must be completed on the NRF Online Submission System at <https://nrfsubmission.nrf.ac.za>. Applicants are advised to complete their applications soon after the call opened to prevent IT system overload nearer the **closing date of 11 May 2018**.

Applicants must ensure that they adhere to their institution's internal closing date for submission of their applications to allow for internal institutional screening and review. The internal closing date will be determined by the respective research offices or Postgraduate Office and is usually at least two weeks prior to the NRF's closing date.

Step 1: This is an electronic submission system and applicants must be registered on the system in order to create and complete an application. If you had previously registered and submitted an application on the NRF Online System (<http://nrfonline.nrf.ac.za>) before February 2012 and your application was not successful, your details would have been migrated to the new NRF Online Submission System (<https://nrfs submission.nrf.ac.za>). If you experience problems accessing the system with your NRF Online password, use the Reset Password button. If your e-mail address is outdated, please contact the NRF Support Desk at (012) 481-4202 for assistance.

If you are not yet registered on the NRF Online Submission System, you must register to access the application form.

Most application screens have application-specific instructions to help you work through the section. Please read the instructions carefully before completing the section.

The screenshot displays the NRF Online Submission System interface. At the top, the NRF logo and 'NRF Online Submission System' are visible. A left-hand menu contains 'Home', 'New Registration', and 'Reset Password', with a blue arrow pointing to 'Reset Password'. The main content area features an 'Instructions' box with the following text:

- If you have already registered on the previous systems (NRF Online and Interim), please use your existing login details to access this system. If you have forgotten your password, please click on the Reset Password link on the left-hand menu.
- For technical online enquiries, please contact the Support Desk (Mondays to Fridays from 08h00 to 16h30) on:
Tel: +27 12 481 4202
E-mail: supportdesk@nrf.ac.za
- To access call related documents, please refer to the Open Calls block below. Click on the icon next to the relevant call to show a list of document(s). To open the document, click on the relevant link.

Below the instructions are two main sections: 'Log In' and 'Open Calls'. The 'Log In' section includes fields for 'ID/Passport/Unique Number' and 'Password', a 'Show Password' checkbox, and a 'login' button. A blue arrow points to the 'Reset password' link below the password field. The 'Open Calls' section lists various grant programs, including 'Community Engagement 2017', 'Competitive Programme for Rated Researchers 2017', 'Competitive Support for Unrated Researchers 2017', 'DST-NRF Professional Development Programme (PDP) Call for 2016', 'Equipment-related Travel and Training Grants 2016', 'Infrastructure Funding Instruments in support of the: National Equipment Programme (NEP) and National Nanotechnology Equipment Programme (NNEP) 2016', 'Knowledge, Interchange and Collaboration (KIC) 2016 – Round 1', and 'Research Development Grants for Y-Rated Researchers 2017'.

Step 2: Once you have logged onto the NRF Online Submission System, you will get to the 'landing page' where you will find a menu at the top left side of your screen (tab indicated with blue arrow). To create a new application, click on My Applications-Creat Application.

Landing Page

Information

- PLEASE NOTE: The summary below only lists output records that were migrated from the previous NRF Online system. New records that are added on this system will not form part of this summary.
- Applicants must ensure that their CV is updated/completed before creating an application.
- In order for your migrated research outputs to show on the CV or be accessible for selection on applications that require your publication record, you **must** verify (review) the outputs listed in the **Research Outputs Summary** table below. In order to do this, click on the output type that still has outputs to be verified (see the To be Reviewed column). Scroll to the bottom of the screen and a heading saying cleaned-up research output records from NRF Online will be displayed. Click on the little black arrow. This will display the output(s) that needs to be verified. Then click on the View icon, it will open a screen with the data for the output. Please fill in the missing information and save the page. If you have more than one output per output type, click on View for the next output. Do this for all the outputs, the output type on the landing page should now say 0. Move on to the next output type and repeat the process. Should you wish to delete an output, then click on the Feedback box, fill in the **Feedback to the NRF box** (e.g. output duplicated, please delete) and in the **Status** field, please select Delete.
- In some cases, researchers' outputs don't show at all. The reason for this is
 - The ID/passport number which the cleaned data was linked to when the clean-up exercise was undertaken differs from the ID/passport number you have just used to login to the NRF Online Submission System.
 - No outputs were added on the old NRF Online system so there was nothing to migrate. If there were outputs on the old NRF Online system but they do not show in the summary below, you need to ensure that the ID/passport numbers used on both the old NRF Online and this system (NRF Online Submission System) are the same. Please contact the NRF should your outputs not show so that this can be rectified.

Step 3: Select the funding call for which you are applying on the create application screen and a new application will open to complete. Please note that this must be selected only once. To continue working on an application, go to My Applications- List of Applications

Create Application

Instructions

- Check your intended institution's internal closing date as it will be prior to the closing date listed for applications.
- A timeout will appear when there is no activity on the system for 25 minutes. Click on the refresh button (in the popup box) as this will enable the continuation/completion of the application. When clicking on the close button the system will close.
- Due to potential international review of applications and progress reports, the NRF requires that all applications and progress reports be completed in English.

Call	Open Date	Closing Date	Apply
DST-NRF Fellowships for Early Career Researchers from the UK 03 04 2018	03 April 2018	06 April 2018

NRF/FRF Sabbatical Grant 29 03 2018	29 March 2018	06 April 2018	
South Africa – Joint Institute for Nuclear Research (JINR) – Grants for Student Practice 2016	03 May 2016	15 June 2018	
Thuthuka 29 03 2018	29 March 2018	06 April 2018	

*Applicants are urged to complete or update ALL sections of the CV, including the Research Profile and Research Outputs as this information is evaluated in the review process and will impact on the overall assessment of your application.

Step 4: All sections marked with a red asterisk are compulsory sections in the application. These sections must be completed in order for the final submit button to appear. The sections without asterisks are non-compulsory sections. You may enter information in these sections, if you have information to enter, such as research outputs. Completed sections will be indicated by a green tick on the main menu, while incomplete sections will have a yellow cross. Please ensure that once you complete information in a section, you press the “save” button before returning to the main menu.

All compulsory sections will guide you with error messages at the top of the screen if not completed properly. Please follow these messages to help you complete the section correctly.

Step 5: The *Type of Fellowship* section is a compulsory section. Please read the below:

- This call is **ONLY** for candidates who will be conducting research at a South African institution, therefore all applicants must select “Postdoctoral Fellowship – South Africa”.
- Please **do not** select “Postdoctoral Fellowship – Other countries”. Or “DST-NRF Fellowships for Early Career Researchers from the UK”

Type of Fellowship

Instructions

- If you will be conducting research at a South African institution, please select "Postdoctoral Fellowship – local". This applies to the Freestanding, Innovation and Scarce Skills Fellowship applicants as well as the NRF-TWAS Postdoctoral Fellowship applicants.
- If you are a South African citizen/permanent resident and would like to conduct research at an institution outside South Africa, please select "Postdoctoral Fellowship – abroad".
- Only select the "DST-NRF Fellowships for Early Career Researchers from the UK" if you are applying specifically for this call.

Fellowship for which you are applying

Postdoctoral Fellowship – South Africa *
Postdoctoral Fellowship – Other countries
Postdoctoral Fellowship – South Africa
DST – NRF Fellowships for Early Career Researchers from the UK

Step 6: The *Fellowship to be Funded* section is a compulsory section. The dropdown list for *Fellowship for which you are applying*, will have three options: (1) Postdoctoral research –South Africa; (2) Postdoctoral research –Other countries; (3) DST-NRF Fellowships for Early Career Researchers from the UK. Please select the relevant option (*see Step 5).

Please complete the section accurately and keep the following in mind: (1) Applicants must undertake full-time Postdoctoral research. The Fellowship cannot be held concurrently with any salaried employment (2) Applicants must note that the starting date of the research must be before the deadline of 30 June 2019. Any awards not taken up by this date will be automatically cancelled.

Fellowship to be Funded

Instructions

◦ Fields marked with a * are compulsory

Fellowship for which you are applying **

Provide a short description of current and previous research study

Date of commencement of postdoctoral research **

Full-time Yes No **

Was your Masters degree upgraded to Doctoral? Yes No **

Does any financial support received for previous studies bind you to a service contract? Yes No **

Student Number (if applicable)

Discipline of postdoctoral research **

Department/School for postdoctoral research

Faculty for postdoctoral research

Indicate what you are doing presently

Step 7: The *Research Project Information* section requires you to select the proposed institution. Please select the proposed institution for Postdoctoral research in South Africa from the dropdown list. Please **do not** select international institutions since this call does not include “Postdoctoral research – abroad”. Should your institution not be on the list, please request it by selecting the support tab on the far right at the top of the screen. Please note that it is the applicant’s responsibility to find an institution and supervisor/mentor in South Africa that is willing to host them for the duration of the fellowship.

Research Project Information

Instructions

- All fields are compulsory in this section.
- The Short Title of Research Project field is restricted to 100 characters (including spaces).
- The Descriptive Title of Research Project field is restricted to 2 000 characters (including spaces) and should be a clearer description of what the research is about, therefore expanding on the Short Title.
- You **MUST** consult the attached information manual before completing your application form online.

Applicant's Proposed Institution ⓘ **

Short Title of Research Project **

Research Project Start Year **

Research Project End Year **

Budget Start Year **

Required Funding Period **

Budget End Year

Descriptive Title of Research Project

2000 characters left.

Has this research project previously been funded by the NRF? Yes No **

A blue arrow points to the dropdown menu for "Applicant's Proposed Institution".

Step 8: The *Details of Research* section is one of the most important sections in the application. The section has specific instructions related to each screen. Follow the instructions to complete the section. You are required to give a concise overview about your proposed research in this section as the input is taken into consideration during the assessment of your application. Appropriate literature references must also be included. The Scorecard that will be used to assess your application can be viewed in Section 6 of this document.

Details of Research

Instructions

- Please note that all fields in this section are compulsory and unless fully completed your application cannot be submitted.
- **Please refer to the Framework document of the call that you are applying for.**

Section	Complete	Date Updated	Edit
Problem Statement *	✓	28 Mar 2018	
Rationale and Literature Review *	✓	28 Mar 2018	
Aims and Objectives *	✓	28 Mar 2018	
Methodology and Proposed Research Plan *	✓	28 Mar 2018	
Anticipated Outputs *	✓	28 Mar 2018	
Potential Impact *	✓	28 Mar 2018	
Alignment to National Imperatives *	✗	28 Mar 2018	
Infrastructure Required	✗	28 Mar 2018	

***Please note that the Details of Research section will only mark as complete when all the sub-sections are completed.**

Step 9: The Science Engagement section is a compulsory section for reporting purposes. If you will not be running any science engagement activities, you still have to select “add” but you can indicate “N/A” under “activity” and category”.

Science Engagement

Instructions

- For the purposes of this application/report, the use of the overarching term science engagement is inclusive of all aspects of public engagement with science, science communication, science literacy as well as science outreach and awareness. It includes all participation by targeted groups of society in a programme aimed at generating mutual understanding and responses to science, including but not limited to awareness, accumulation of knowledge, enjoyment, opinion formulation and scientific literacy.
- It also embraces a broad understanding of "science" and "the sciences", encompassing systematic knowledge spanning natural and physical sciences, engineering sciences, medical sciences, agricultural sciences, mathematics, social sciences and humanities, technology, all aspects of the innovation chain and indigenous knowledge.
- Broader impact considers the impact of the activities/project on the public and/or targeted participants in terms of knowledge and/or awareness, behavioural and/or attitudinal change, skills acquisition etc.
- For more information, [click here](#).

Activity	Category	Objectives	Intended Audience	Edit	Delete
n/a	N/A				

Step 10: The *Reference* section allows applicants to include academic referees who can comment on the applicants' academic abilities. On final submission of the application the emails containing a reference form are sent automatically to the nominated referees to provide a report on the academic and research capabilities of the applicant. A minimum of three referees should be added. ***The applicant will have to select one Doctoral Supervisor, one Reference, one Proposed Supervisor/Host and one Previous Supervisor/Host (if applicable).**

It is the applicant's responsibility to ensure that the referee email is correct and that the referees have responded by the closing date of 11 May 2018 as this category is assessed in the application. The applicant must view the application PDF to check if a referee has responded to the request for reference. A "yes" indicates a response and a "no" indicates no response from the referee.

References	
Title	Prof
Initials	Z
Surname	Mahlangu
Name	Zodwa
Department	dfjkjdjfkds
Institution	CAPE ANIMAL MEDICAL CENTRE
Email Address	melissa.govender@nrf.ac.za
Role	Supervisor/Host of research
Responded	No

Step 11: Attachments section - please print, certify and then scan all of the required documentation and submit as a single PDF file; then upload to the section as one document. The following documents are compulsory:

- Copy of ID or passport
- Proof of Masters and Doctoral qualifications (if Masters was upgraded to Doctoral this needs to be stated clearly in your application)
- If your Doctoral degree is still “in progress”, a formal letter of confirmation from your institution, stating that your Doctoral qualification will be completed by December 2018, must be attached
- If the institution, department and/or supervisor remain the same as your Doctoral or first postdoctoral placement, a motivation letter must be attached
- Official acceptance letter from the host institution (signed, stamped and on an official letterhead). The letter should include details of the availability of specialised equipment, infrastructure and resources to enable the fellow to conduct their research.
- If you are a fellow with a disability, you must also upload a medical certificate in support of your disability
- Proof of South African National Student Financial Aid Scheme (NSFAS) or University financial aid scheme funding (if applicable)

***Please note that should any of the required documents not be uploaded to the application, the application will be rejected without review.**

Attachments

Instructions

- ° Please consult with the Call documents to determine what attachments are compulsory. Please note that if they are not attached, the application will not be processed for reviewing.
- ° Capture an appropriate Description for the document to be uploaded.
- ° Select the Document Type to be uploaded.
- ° Click the Browse button below to select the file on your local machine.
- ° Click on the Upload button to save.
- ° Upload pages individually if document is larger than 4MB.
- ° Please do not upload zip files. Acrobat reader has built-in security to prevent the opening of zip files by default (please read the article at <http://forums.adobe.com/thread/520515> for more information).

Description	Type	File Name	Edit	View	Delete
-------------	------	-----------	------	------	--------

Step 12: The *Possible Reviewers* section is compulsory in this Call. The section requires that you add the names of possible reviewers in your field of research that will be able to provide a neutral review of your proposed research project. These may be reviewers that you have interacted with through conferences or other academic fora. A minimum of six (6) and a maximum of ten (10) possible reviewers are required.

Possible Reviewers

Instructions

- Please suggest suitable reviewers for this proposal.
- Please be frank as to your relationship with the reviewer: acquaintance, collaborator, ex-colleague, etc.
- A minimum of 6 and a maximum of 10 reviewers have to be added for this section to mark as complete.
- Reviewers from the same institution as the applicant should not be selected.

Surname	Initials	Email Address	Priority	Priority Up	Priority Down	Edit	Delete
No records to display.							

Step 13: *Person History* section is a section required for statistical purposes by the NRF. It allows the NRF to ascertain who previously received NSFAS funding. Please also indicate if you were funded by an international donor.

Person History

Instructions

° Proof of NSFAS or University financial aid scheme must be attached.

Previous studies funded by

- NSFAS bursary
- NSFAS loan
- University Financial Aid
- Family funded
- Self funded
- Other Government departments
- International donor funds
- Not funded from any other source *

Current degree funding

- NSFAS bursary
- NSFAS loan
- University Financial Aid
- Family funded
- Self funded
- Other Government departments
- International donor funds
- Not funded from any other source *

Are you currently a DST-NRF intern

Yes No *

Step 14: Applicants must ensure that they adhere to their institution's internal closing date for submission of their application to allow for internal institutional screening and review. The internal closing date will be determined by the respective research offices or Post Graduate Office and is usually at least two weeks prior to the NRF's closing date

DAs at institutions must ensure that all proposals are screened and approved through internal institutional processes **before** submitting applications to the NRF. The respective DAs will submit a **maximum of twenty (20) applications** from their university or research institution. The NRF assumes that the DAs are satisfied with the standard of all proposals validated and submitted, and that the institution approves and supports the proposed research.

Step 15: The final submit button will appear only if all compulsory sections are complete. Press OK to submit your application. If all the compulsory sections are complete and the final submit button does not appear, select any section and resave to refresh the application; you will then see the final submit button. A submitted application is automatically routed to the DA in the Research Office of the institution that you selected, for internal review and validation. Late applications, additional supporting documentation or information received after the closing date will not be accepted or considered.

The NRF will not process applications that are incomplete, contain insufficient or incorrect detail, or fail to comply with instruction. Such applications will be rejected. The application must be completed in sufficient detail to allow for a comprehensive review and evaluation by external reviewers. In addition to the electronic application and required attachments, the NRF may request additional information or documentation to support an application if required. Failure to supply such information or documentation upon request may result in the rejection of the application.

5. Screening and Review Processes

5.1. Overview of the Screening Process

All applications validated by institutions and submitted to the NRF are screened by the NRF for compliance with the eligibility criteria of the Call for applications, as well as the requirements for completing the NRF Online Submission application. Applications that fail to meet the stipulated requirements will be rejected.

5.2. Overview of the Review Process

The NRF's peer review policy requires that all applications be subjected to a review process. Applications submitted to this funding instrument will go through a panel review process.

Panel members are selected from the NRF database and other sources, which is updated on a continuous basis. When selecting the review panel, the expertise and experience of individuals in application adjudication are taken into account. In assessing the application, agreed assessment criteria are applied in the form of a scorecard (please refer to Section 6).

The Review Panel provides funding recommendations to the NRF and the final funding decision is made by the NRF taking into consideration the strategic and policy objectives of the organisations and the funding instrument. In awarding grants, the NRF takes into account the recommendations of the peer review panel, the objectives and equity targets of the funding instrument, and the available funds.

6. Ranking of Applications

The purpose of the scoring system is to evaluate applications based on the funding instrument criteria, in order to determine applications that are most deserving of the limited available funds. All research proposals submitted to the NRF for funding are evaluated according to a number of predetermined criteria. Applications are assessed and ranked on the basis of criteria as listed in the table below. Each area may be given a weight to indicate its relative importance. Kindly consult the table below for details on the criteria used:

Scorecard for the Assessment of Proposals for Postdoctoral fellowships

Criteria	Sub-Criteria	Weight (Total = 100%)
Track Record of Applicant	Applicant expertise/training that will enable the applicant to successfully undertake the proposed research.	10%
	The applicant's research track record which could include peer reviewed publications, conference proceedings, research prizes and awards.	10%
Scientific and Technical quality of proposed research	Literature review with citations, significance of the research in terms of the problem statement, aims and objectives. Scientific contribution; originality and new knowledge to be generated.	20%
	Research design, methodology developed to address aims of the research. Provision of a work plan and feasible timelines and milestones for the research.	20%
	Alignment with national and institutional research priorities.	5%
Institutional Support	Institutional support for the Postdoctoral fellowship through infrastructure and facilities for an enabling environment.	10%
Potential Research Outputs and Impact of the research	Details of envisaged realistic outputs of the research such as publications, conference proceedings, toolkits, policy documents.	5%
	Contribution to Postdoctoral research skills development in a priority research area (human capacity development of the applicant)	10%
	Potential for socio-economic impact of the research in South Africa	10%
		100%

7. Application Feedback and Disputes

Once the review and assessment processes have been completed and the recommended funding decision has been approved by the NRF, the NRF will publish a list of successful applications on the NRF website, www.nrf.ac.za/bursaries/calls. Thereafter, successful applicants will receive a letter of award. The application status online will not indicate whether or not the application has been approved for funding. If your name does not appear on the published list of successful applications it means that your application was unsuccessful.

8. Change Requests

8.1. Prior Approval Requests

Applicants must submit all change requests in writing to the NRF for approval before effecting any changes. The request must have institutional DA endorsement and be submitted to the NRF *via* the Research Office for approval prior to the change.

8.2. Changes in Project Scope, Supervisor or Institution

Changes may occur where a project scope, host or institution needs to be changed from the original research proposal, host or institution respectively. The request must have institutional DA endorsement and be submitted to the NRF *via* the Research Office. Such requests must be forwarded to the NRF for consideration 30 days before the change is intended to take place.

*This does not apply when the fellow has completed their research at the institution and wishes to change the project/supervisor/institutions. In this case, the fellow has to complete an exit report and any remaining funds will have to be returned to the NRF.

9. Scientific Compliance

9.1. Methodology

The fellow takes scientific responsibility for the research to be undertaken, including its objectives and the methodology outlined in the project proposal. The fellow is required to devote the necessary time to the research project in compliance with the work-plan for the research proposal approved by the NRF so as to achieve the project's stated aims and objectives.

9.2. Intellectual Property Rights

The intellectual capital generated by NRF funded research must be appropriately protected and exploited for the benefit of South Africa. This condition should not interfere with the Intellectual Property Rights arrangements already made, on condition that the majority of the benefits arising from the intellectual capital accrue to South Africa and its citizens. This condition is aligned with the *Intellectual Property Rights Act, 1* which will override this condition of grant.

9.3. Ethics

The fellow is required to maintain the highest ethical and safety standards in conducting the research, particularly when human and animal subjects are involved. It remains the responsibility of the project leader to comply with all relevant regulations in this regard, including those of the institution at which the research is carried out. An ethical clearance certificate (where applicable) must be submitted to the NRF in respect of successful applications before funding can be released.
