

How to download ATLAS.ti from the Stellenbosch University Software Hub

The institutional license for ATLAS.ti can be downloaded from the software hub at the following link (first click on student software and then the ATLAS.ti folder):

<https://www.sun.ac.za/softwarehub>.

Please also make sure to register using the link below by creating an account with your SU university email address: <https://my.atlasti.com/licenses>

Once the account is created insert the license key:
I-444-306-209-E73

Please note you will need access to your SU account to download the software. If you are unable to access your account:

-  Make sure first that your password is up to date at:
<https://maties2.sun.ac.za/rtad4/useradm/>
-  And that your SU email is registered with your department, you can contact IT to confirm. If you are a USB postgraduate student, you will need to use @sun.ac.za for your login details.
-  **For additional technical help in gaining access to SU's ATLAS.ti software (and other data analysis software), contact SU's General Research IT Support desk via:**
<https://servicedesk.sun.ac.za/jira/plugins/servlet/theme/portal/22>.
