TERMS OF CONDITIONS

Ownership of data of the Kirsten Skeletal Collection

- 1. No person may carry out any work on any specimen in the Kirsten Skeletal Collection unless authorised to do so by the Collection Manager or his/her duly appointed nominee.
- 2. No information, photographs or images (referred to as data) of specimens in the Kirsten Skeletal Collection may be taken without the formal consent of the Collection Manager and the relevant Collection Committee.
- 3. The data attained from resources in the Kirsten Skeletal Collection is owned by Stellenbosch University and these resources may therefore only be utilised in compliance with the rules, regulations and agreements as set out by the University's policies.
- 4. The ownership of these data is retained in South Africa with Stellenbosch University where the original specimens are housed and its designated proxy for intellectual property ownership.

Use and distribution of data

- 1. Each researcher needs to apply for ethical clearance from Stellenbosch University's Human Ethics Committee to use the data for any publications/submissions pertaining that particular project.
- 2. Data obtained from original specimens may not be used for any purpose other than the approved research project without the express written permission of the Collection Committee.
- 3. The distribution of data to a third party is not permitted.
- 4. The distribution of data for commercial purposes is not permitted without permission from the Collection Committee.

KC

- 5. On completion of the work, copies of all data must be given to the Collection Manager.
- 6. No data originated from the Kirsten Skeletal Collection may be made available on any Internet website, or any other similar public access point without the Collection Committee's prior permission.
- 7. If the Kirsten Skeletal Collection is the primary source of data used in the publication, local or international, co-authorship of one of the researchers in the Kirsten Anthropology Research Unit is non-negotiable for said publication.

Credit

Comments

- 1. A copy of any publication, book, thesis or film arising from the use of data from the Kirsten Skeletal Collection must be sent to the Collection Manager for storage.
- 2. A credit line to acknowledge the Division of Clinical Anatomy, Stellenbosch University and any individuals who assisted in facilitating the work must be included in any work resulting from the project.
- 3. The individuals that donated their bodies for use in teaching and research must be acknowledged in all publications, books, theses or films.

APPROVAL

Has the individual met all the expectations of the committee?

Signed by Chairperson: Collection Committee
