DIVISION OF CLINICAL ANATOMY

High quality micrographs, ready for publication can be taken with the modern photo imaging and analysing compound (Zeis Axioscope 2 with Axiocam 105 colour camera) and stereo microscopy system (Leica MZ6). Different services are available and training on use of the systems are on offer.

Find below the procedure for utilizing these services:

Initial contact

- Please contact Jeffrey Pieterse at jjp1@sun.ac.za call 021 9389425 to arrange a meeting. Please refrain from ad-hoc walk-in consultations. Ad-hoc walk-in "consultations" are to be discouraged. A meeting is to be scheduled at a time convenient to both parties via email. Initial consultation fee is R100.

After meeting

- Once initial meeting occurred all intended sessions must be book via the link below: [Http://www.brownbears.w.com/cal/tb_mscopes](http://www.brownbears.w.com/cal/tb_mscopes)
- Thereafter an email with regards to the times and dates should be emailed to Jeffrey Pieterse (jjp1@sun.ac.za) to serve as confirmation of each session.
- Please be advised that first microscopy session must be supervised, thereafter supervision is at the discretion of the technician.
- The monetary cost for per session:
 - a. R100 per hour with assistance from the Technician.
 - b. R55 per hour unassisted; as previously stated, the degree of assistance is determined by the Technician after initial consultation.
- Be sure to book all session well in advance as to avoid disappointment. The lab adheres to a first come first served policy.
- Once bookings are made the client is liable for the cost of a full session unless a cancellation 24 hour prior to the agreed date and time slot.
- Maximum number of sessions per day is limited to two (i.e. 2 hours) per client, however if more time is required this can be arrange with Jeffrey Pieterse.

For any inquiries please do not hesitate to contact Jeffrey Pieterse at jjp1@sun.ac.za call 021 938 9425, he will gladly assist you.
