

Flying SU's Flag High at the 2021 YEBO! Conference

The Postgraduate Office would like to congratulate the doctoral candidates who took part in the Scientific Poster and the Three Minute Thesis (3MT) YEBO! conference competitions, 12-14 April 2021. **Dr Duane Booysen**, who obtained his PhD in Psychology at SU recently, took **first place** in the Scientific Poster competition, for his super poster presentation entitled, "The feasibility of disseminating and implementing prolonged exposure therapy for survivors of trauma in South Africa: a mixed-methods study". **Mr Charles Manyelo**, a PhD candidate at SU's Medicine and Health Sciences faculty, took **third place** in the 3MT competition, for his fascinating 3-minute talk on, "Host biomarkers as tools for early diagnosis of tuberculous meningitis". Congratulations to you both!

The YEBO! project aimed to foster the internationalisation of doctoral studies in South Africa. After three and a half years, the closing YEBO! conference opened the discussion of what the YEBO! project had achieved and provided an opportunity for South African doctoral candidates to showcase their research. Read more about the YEBO! project [here](#).

Dr Duane Booysen

Mr Charles Manyelo
