Definitions:

Fully Online: There are no scheduled f2f interactions with students. The interactions are facilitated via digital technology by utilising either synchronous (real-time) or asynchronous modalities, e.g. upload of podcasts / lectures. The asynchronous (non-real-time) modality allows for students to engage with learning material at different times and locations.

Face to Face (f2f): The module is offered in a physical classroom or facility with lectures/ facilitators and students present in person. F2F learning allows for different teaching and learning methodologies to be used and can contain a blend of traditional classroom methods and online interaction. However, most of the teaching, learning and assessment is still facilitated on campus or in the classroom.

Augmented Type 1: Synchronous (real-time) streaming and recording of f2f learning opportunities with limited number of students in venue.

Augmented Type 2: Asynchronous provision of material, and f2f learning opportunities (with limited number of students in venue) are used to explain pre-recorded material.

Augmented Type 3: Asynchronous provision of material, and f2f learning opportunities (with limited number of students in venue) are used for question and answer sessions.

Queries can be directed to the respective department's chair or administrative officer. Their contact details can be found on the department's website.
