

## Background

Stellenbosch University's vision is to integrate community interaction with teaching and learning as well as research. The diagram below

(<http://www.sun.ac.za/english/ci/about/types-of-community-interaction>; retrieved 24 June 2015) illustrates this integration. The integration of these three core functions of the University will lead to four types of community activities, as summarized below.

**Type 1:** All three core functions of SU are integrated in the CI activity

**Type 2:** CI Activity combined with teaching and learning – Examples (service learning modules)

**Type 3:** CI activity combined with research
