

Stakeholder Workshop: National Diploma

Friday, 6 February 2015

City Lodge Hotel, OR Tambo Airport, Gauteng

Activity:

Designing, developing and implementing a national Diploma level training for existing primary care doctors. During 2014 we have designed a new national diploma programme for primary care doctors with all 8 universities. The design phase is now complete and before we enter into the development and implementation phase, we want to give feedback on the design to key stakeholders. This will be the final opportunity for stakeholders to give input before we go ahead with the process of development and implementation
