1 CPD
point in
Level 1

Design and Analysis of Pilot and Feasibility Trials

Facilitated by Prof Tonya Esterhuizen, Division of Epidemiology & Biostatistics

Friday, 1 September 2023, 13:00 – 14:00pm

Join via MS Teams ([Click here to join the meeting](#))

Dr. Sameer Parpia,
Associate Professor and
Senior Biostatistician
Departments of Oncology and Health
Research Methods, Evidence, & Impact
at McMaster University

Dr Sameer Parpia is an Associate Professor and Senior Biostatistician in the Departments of Oncology and Health Research Methods, Evidence, & Impact at McMaster University. He is a faculty biostatistician with the Ontario Clinical Oncology Group, an academic clinical trial coordinating and methods unit and Scientist at the Escarpment Cancer Research Institute. He is the Director of the CIHR-funded Canadian Network for Statistical Training in Trials (CANSTAT), a pan-Canadian platform to train and mentor biostatisticians in clinical trials. Dr Parpia's research interests are in the design, conduct and analysis randomized clinical trials, and has served as the lead biostatistician for large multi-centre trials in the areas of venous thromboembolism, cancer, surgery, critical care and emergency medicine. He was previously an Associate Editor for Pilot & Feasibility Studies and is currently an Associate Editor for Clinical Trials. He teaches and mentors students in clinical trial methodology and applied biostatistics in the Health Research Methodology Program at McMaster University.
