

ACADEMIC CURRICULUM VITAE

Hané! Sadie-Van Gijzen

PERSONAL DETAILS

Name: Hané! Sadie-Van Gijzen

Nationality: South African

Qualifications: BSc (cum laude) - University of Stellenbosch (US) (December 1997)

BSc Hons (Biochemistry) (cum laude) - US (December 1998)

MSc (Biochemistry) (cum laude) – US (December 2001)

PhD (Biochemistry) – US (April 2006)

PhD thesis title: Transcriptional regulation of the mouse gonadotropin-releasing hormone receptor gene in pituitary gonadotrope cell lines

Laboratory skills: Animal studies, mammalian cell culture (including primary cultures from fat and bone), molecular biology (DNA, RNA, protein analyses), gene expression analyses, cell staining and image analysis.

Additional training: Training course in the handling of research animals (rats), to perform para-veterinary procedures including feeding, weighing, oral gavage, intraperitoneal injection and euthanasia (May 2018).

STUDENT AWARDS

Honours for Student Leadership, University of Stellenbosch, 2003

Academic Honours, University of Stellenbosch, 2004

EMPLOYMENT HISTORY

Current: Senior researcher (permanent FMHS appointment, full-time), Division of Medical Physiology, Dept of Biomedical Sciences, Faculty of Medicine and Health Sciences (FMHS), Stellenbosch University

April 2018 – March 2021: Senior researcher (4/8, contract-based), Division of Medical Physiology, Dept of Biomedical Sciences, FMHS, Stellenbosch University

January 2015 – December 2017: Senior lecturer/senior researcher (4/8), Dept of Medicine, FMHS, Stellenbosch University

February 2011 – December 2014: South African Medical Research Council (SAMRC)-supported researcher (MRC Career Development Award), Dept of Medicine, Faculty of Health Sciences, Stellenbosch University

January 2006 – September 2010: Post-doctoral research fellow, Dept of Medicine, Faculty of Health Sciences, Stellenbosch University

FELLOWSHIPS

MRC 4-year Career Fellowship (2011 – 2014)

NRF Innovation Fund Post-doctoral fellowship (2008 – 2010)

Claude Leon Foundation Post-doctoral fellowship (2006 – 2007)

UNDERGRADUATE TEACHING

Replacement lecturer for 3rd year Physiology module (bone biology) - 2010

POST-GRADUATE STUDENT SUPERVISION RECORD (2015-2022)

6 Honours students, 2 MSc students (co-supervisor), 2 PhD students (co-supervisor), 1 post-doctoral researcher (2018-2020)

SELECTED PRESENTATIONS AT LOCAL CONFERENCES (SINCE 2016)

- **Oral presentation** at the Physiology Society of Southern Africa (PSSA) congress, 4-7 Sept 2022: Characterising divergent serum total phospholipid fatty acid profiles resulting from different obesogenic diets in rats. LM Kotze-Hörstmann, P van Jaarsveld, **H Sadie-Van Gijsen (presenting author)**

- **Oral presentation** at the African Association of Physiological Sciences/Physiology Society of Southern Africa (AAPS/PSSA) Virtual Congress, 15 September 2021: Characterising divergent metabolic consequences of different obesogenic diets in rats using statistical modelling approaches. **H Sadie-Van Gijsen (presenting author)**, LM Kotze-Hörstmann

- **Oral presentation** at the National Osteoporosis Foundation (NOFSA) virtual congress, 5-7 August 2021: Review: The regulation of marrow fat by vitamin D: molecular mechanisms and clinical implications. H Sadie-Van Gijsen (presenting author)

- **Poster presentation** at the Non-Communicable Diseases (NCD) Research Symposium, 4 March 2020, Somerset-West, South Africa: The modulation of glucose metabolism by leaf tea constituents – a systematic review of recent clinical and pre-clinical findings. LM Kotze-Hörstmann (presenting author), **H Sadie-Van Gijsen**

- **Oral presentation** at the 1st Conference of Biomedical and Natural Sciences and Therapeutics (CoBNeST), October 2018, Stellenbosch, South Africa: Treatment of periprosthetic joint infection: what we can learn from work in bone-derived stem cells. Elzaan Booyesen, **Hanéel Sadie-Van Gijsen (presenting author)**, Jonike Dreyer, William Ferris, Marina Rautenbach, Leon MT Dicks

- **Oral presentation** at the 17th NOFSA (National Osteoporosis Foundation of South Africa) congress, March 2018, Cape Town, South Africa: Adipocytic differentiation of proximal femur-derived mesenchymal stem cells is characterized by the expression of brown fat genes and is modulated by glucocorticoids *in vitro*. FA Jacobs, **H Sadie-Van Gijsen**, WF Ferris

- **Oral presentation** at the 17th NOFSA congress, March 2018, Cape Town, South Africa: The effect of vancomycin and a novel antibiotic on the osteoblastic differentiation of rat femur-derived mesenchymal stem cells. E Booyesen (presenting author), **H Sadie-Van Gijsen**, J Dreyer, M Rautenbach, LMT Dicks

- Oral presentation at the 17th NOFSA congress, March 2018, Cape Town, South Africa: Bone stem cell biology and bone marrow fat: an update. **H Sadie-Van Gijsen**

- **Oral presentation** at the 45th PSSA (Physiology Society of Southern Africa) congress, August 2017, Pretoria, South Africa: The effects of two high-fat diet formulations and a Green Rooibos

tea extract on *in vivo* adiposity and *ex vivo* function of cultured adipose-derived stromal cells. **H Sadie-Van Gijzen H**, SE Smit, MA Van Vuuren, B Huisamen

- **Oral presentation** at the 52nd SEMDSA (Society of Endocrinology, Metabolism and Diabetes of South Africa) congress, May 2017, Johannesburg, South Africa: The effects of two high-fat diet formulations and a Green Rooibos tea extract on *in vivo* adiposity and *ex vivo* function of cultured adipose-derived stromal cells. **H Sadie-Van Gijzen H**, SE Smit, MA Van Vuuren, B Huisamen, W Ferris (abstract published in Journal of Endocrinology, Metabolism and Diabetes of South Africa (JEMDSA) 2017 22(1):22-23)

- **Oral presentation** at the 51st SEMDSA congress, April 2016, Cape Town, South Africa: Coffee or tea: Could your daily "cuppa" be beneficial for weight-loss? **H Sadie-Van Gijzen**, CJF Muller, J Louw, WF Ferris (abstract published in JEMDSA 2016 21(1):11)

- **Oral presentation** at the 51st SEMDSA congress, April 2016, Cape Town, South Africa: Glucocorticoids reduce the cell viability of MSCs derived from the proximal femur but not from bone marrow of rats. FA Jacobs (presenting author), **H Sadie-Van Gijzen**, M van de Vyver, WF Ferris (abstract published in JEMDSA 2016 21(1):11-12)

SELECTED INTERNATIONAL CONFERENCE PRESENTATIONS (SINCE 2016)

- **Oral presentation** at the 39th Congress of the International Union of Physiological Sciences (IUPS2022), 7-11 May 2022: Characterisation of the divergent metabolic consequences of isocaloric high-sugar and high-fat diets in male Wistar rats using unsupervised PCA and supervised OPLS-DA. **H Sadie-Van Gijzen (presenting author)**, L Kotze-Hörstmann

- **Oral presentation** at the Natural Products for Healthy Aging Symposium, 8 – 10 November 2021: The effects of an aspalathin-rich Rooibos (*Aspalathus linearis*) extract on metabolic parameters and adipose tissue biology in rats fed different obesogenic diets. **H Sadie-Van Gijzen (presenting author)**, LM Kotze-Hörstmann

- **Poster presentation** at the 28th European Congress on Obesity (ECO Online 2021), 10 – 13 May 2021: The effects of an aspalathin-rich Rooibos (*Aspalathus linearis*) extract on metabolic parameters and adipose tissue biology in rats fed different obesogenic diets. Kotzé-Hörstmann LM, Ayele B, Bedada DT, Johnson R, Mabasa L, Shabalala S, **Sadie-Van Gijzen H**.

- **Poster presentation** at Keystone eSymposium, Obesity: From Cell to Patient, 1-3 February 2021: Peripheral effect of adipogenesis on ATM expression and miRNA-181b levels in cardiomyoblasts. D Botha (presenting author), M Blignaut, **H Sadie-van Gijzen**, P van Jaarsveld, B Huisamen.

- **Poster presentation** at the 3rd Bone Marrow Adiposity (BMA2017) meeting, August 2017, Lausanne, Switzerland: Adipocytic differentiation of proximal femur-derived mesenchymal stem cells is characterised by the expression of brown fat genes and is modulated by glucocorticoids *in vitro*. FA Jacobs, **H Sadie-Van Gijzen**, WF Ferris (presenting author)

- **Poster presentation** at the 2nd Bone Marrow Adiposity (BMA) meeting, 25-26 August 2016, Rotterdam, The Netherlands: Vanadate reduces adipocytic differentiation of mesenchymal stem cells derived from different regions within the rat femur. FA Jacobs (presenting author), **H Sadie-Van Gijsen**, M van de Vyver, Ferris WF
