

SUNHEART
ADVANCED CARDIAC CARE FOR ALL

25 November 2019

SUNHEART Advanced imaging and interventional fellowship

SUNHEART will offer a two (2) year bursary for qualified Cardiologists to complete an advanced imaging and interventional fellowship at the Division of Cardiology, Department of Medicine, Stellenbosch University and Tygerberg Hospital. The bursary will be available from 1 February 2020.

Requirements

1. Qualification as a Specialist Cardiologist obtained in a recognised training institution – Cert Cardio (Phys) or equivalent;
2. Registration with the HPCSA as a Specialist Cardiologist (candidates in the process of registration will also be considered)

Candidates who are currently sitting for their examinations are encouraged to apply as they may be awarded this bursary on condition that they obtain the relevant qualifications.

Recommendations

1. Previous research experience
2. Previous experience in structural heart disease intervention
3. Previous experience in 3D echocardiography and guidance of structural heart intervention via echocardiography

Duties

1. Participating fully in all activities of the division
2. Logbook of all cases to be kept
3. Database management of SUNHEART Cardiology outreach program including acute coronary syndrome network
4. Publication of a minimum of two (2) research papers per year
5. Candidates will be afforded the opportunity to enrol for doctoral studies

Please send your CV with a motivation letter to:

Prof Anton Doubell

Head: Division of Cardiology/Director: SUNHEART
