

## **Tendai Marengereke**

Tendai Marengereke is a Lecturer for Information Security and Assurance at the Harare Institute of Technology in Zimbabwe. He holds a Master of Technology (M.Tech) in Information Security and Cyber Forensics from SRM University, India. He is also a part-time researcher for the popular data mining and link analysis software company Maltego Technologies, where he researches on Cybersecurity, Cyber-crime and Open Source Intelligence (OSINT) investigations. He has participated and contributed to numerous cyber policy and scholarly discourses on Cybersecurity, cyber forensics and OSINT in Africa.

He is currently a PhD student with Namibia University of Science & Technology, focusing on the identification of cyber threats on the internet using OSINT. His primary research areas are Cyber Forensics, OSINT and Defensive Cyber Security.
