

YOUR HEALTH COMPASS

Discovery Health's COVID-19 Vaccination Portal

Discovery Health has created a COVID-19 vaccination portal. This portal aims to guide and support all Discovery clients on their COVID-19 vaccination journey.

All Discovery clients will receive a personal invitation to register on the Discovery Vaccination Portal. The purpose of the portal is to assist you to:

- Understand where you fit in the national prioritisation framework
- Receive appointment reminders and notifications when to go for your second dose (if you received a two-dose vaccine)
- Know what to expect and how to prepare for your COVID-19 vaccination
- Receive your internationally accredited COVID-19 vaccination certificate.

Once you register on the Discovery portal, their vaccination navigator will remind you when you become eligible for the vaccine. **You still need to register on the national Electronic Vaccination Data System (EVDS) so you can get your vaccination code to use on your vaccination day.**

Their COVID-19 vaccination navigator will guide you on a step by step basis through your vaccination journey:

Register for your
vaccination

Complete the
pre-vaccination
questionnaire

Get your
vaccination

Share your
experience

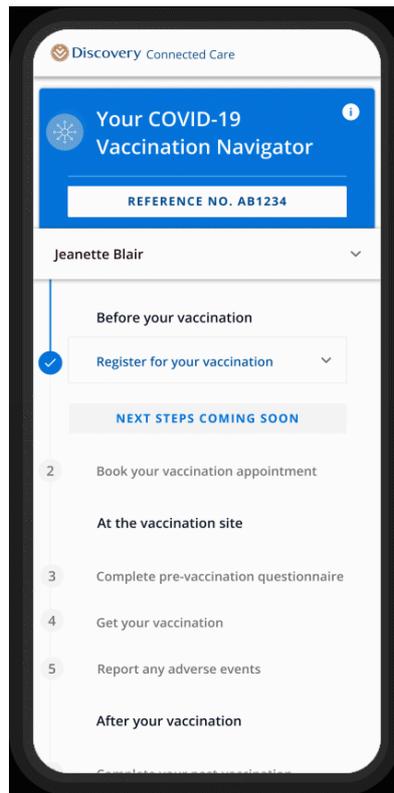

Complete your
post-vaccination
questionnaire

You can also access the Vaccination Navigator on the Discovery App:

Keep track and manage your loved ones vaccination journey

Get access to contextual and valuable information

Quick access to your reference number

Know what your current and next steps are

Easily action your guided next steps

Vaccine Payment

The Council for Medical Schemes (CMS) has declared that funding for the COVID-19 vaccine is a Prescribed Minimum Benefit (PMB). This means all medical schemes must, by law, fund the COVID-19 vaccine as a PMB for every member of the scheme, in line with South Africa's vaccine prioritisation guidelines. This means that the cost of the vaccine does not get paid from your medical savings account but rather from the scheme's risk benefits. If you're not a member of a medical scheme, you can still receive the vaccine through the government-funded structures.

Where to get the vaccine

Vaccines will be administered in accredited vaccination sites across the country including pharmacies, GP practices, hospitals and dedicated vaccination sites. Discovery is setting up a number of dedicated vaccination sites for your convenience and will share the details of their locations through their COVID-19 Vaccination Navigator as they become available.
