Library of Key Performance Areas (KPAs) and Objectives

Preamble

Performance Advancement (PA) is essential to achieve both institutional and individual success at Stellenbosch University (SU).

It is a process where academic, professional and administrative support staff engage with their line managers to assess and review key responsibilities, expectations, performance outcomes and professional development. It ensures the recognition and reward of top performers who significantly contribute to the university's institutional goals. It also provides support for both personal growth and institutional success.

The aim of this guide is to assist staff to identify appropriate objectives linked to KPAs for their specific role. The objectives provided are generic, and staff are expected to select those that align with their individual responsibilities. Once an objective is identified, the individual, with their line manager, will set measurable (SMART) performance indicators aligned to each objective. Staff must set clear *key performance areas (KPAs)* and *objectives* in the context of their roles. These are directly linked to the university's strategic direction, requirements and goals ensuring that the institution meets its strategic objectives.

The content of this guide was sourced through extensive analysis of existing work agreements, recruitment advertisements, job descriptions and related documentation across the university as of August 2024.

Definitions

Key Performance Area

The specific responsibilities and tasks within your role, that you are accountable for, and that contribute to the institution's objectives.

Objectives

Clear, measurable indicators that align with your role and the institutional goal.

SMART objectives

Each objective must be specific, measurable, achievable, relevant and be time-bound.

Personal Development Plan (PDP)

A development plan to identify and address development needs linked to a staff member's current role, aligned with university goals and available resources. Future development beyond the current role may be considered once immediate needs are met.

Performance Work Plan (PWP)

An annual work plan agreed upon with your line manager, outlining deliverables, assessment criteria and development support to achieve the plan's objective.

Version 1 March 2025

Key Performance Area	Objective
Academic	
administration	Plan and manage academic activities like exams and graduations.
Academic	Accountable and responsible for academic administration, including
administration	student records, certification timetables and examination.
Academic	
administration	Ensure the provision of service-orientated academic administration.
Academic	Name and the observations in the state of th
administration Academic	Manage the student administration lifecycle.
administration	Manage the academic registration of students with relevant professional bodies.
Academic	professional bodies.
administration	Monitor and report on the student lifecycle.
dariiiistidtiori	Provide academic leadership to staff, and national and international
Academic leadership	stakeholders to ensure that SU remains a leading university.
Administration	Perform general administrative duties.
Administration	Assist with general administration tasks and maintenance.
Administration	Manage the daily activities of the laboratory.
	Academic administration, including but not limited to ethics
Administration	applications, grant applications and progress reports.
Administration	Liaise with suppliers to ensure the maintenance of equipment.
Administration	Coordinate student matters and administration.
Administration	Administration of teaching and learning interventions.
	Involvement with administrative duties at departmental, faculty and
Administration	university level.
Administration	Provide administrative support.
Administration	Administer the full tender process from quotes to purchases.
Administration	Ensure logistical planning and arrangements.
Administrative support	Academic module administration.
Administrative support	Activate staff and student cards.
Administrative support	Administer and schedule activities.
Administrative support	Administration of continuing professional development activities (CPD).
Administrative support	Administration of departmental telematics programme.
Administrative support	Administration of DESC and ethics clearance applications.
Administrative support	Administration of electronic submission of research outputs.
Administrative support	Administration of external funds and contracts.
Administrative support	Administration of student marks.
Administrative support	Administration of the accreditation process.
Administrative support	Assist to collect confidential documents.
Administrative support	Assist to collect, compile, process and analyse research data.
Administrative support	Assist with audits.
Administrative support	Assist with evacuations and emergency trainings.
Administrative support	Assist with evacuations and technical translation.
Administrative support	Assist with postgraduate student applications.
Administrative support	Assist with processing of student marks.
Administrative support	Assist with processing of student marks. Assist with quality control of programme module frameworks,
Administrative support	documents and content.

Administrative support	Assist with the administration process of external academics and tutors.
Administrative support	Boost online visibility of research.
Administrative support	Collate and capture research outputs.
Administrative support	Communicate news and events.
Administrative support	Compile module framework and study guides together with
	respective lecturers.
Administrative support	Control access to facilities.
Administrative support	Coordinate online application platform.
Administrative support	Coordinate student communications on registrations, timetables,
	and related matters.
Administrative support	Coordinate international academic agreements and cooperation.
Administrative support	Coordinate staff plan and performance evaluation.
Administrative support	Coordinate the promotion and marketing of postgraduate courses.
Administrative support	Coordinate transdisciplinary research projects/programmes.
Administrative support	Coordinate annual applications and registration process.
Administrative support	Coordinate school practicums and micro teaching.
Administrative support	Develop and implement new benefits.
Administrative support	Direct student related enquiries.
Administrative support	Collaborate with the accountant to develop and manage budgets.
Administrative support	Switchboard management.
Administrative support	Apply HR policies and procedures.
Administrative support	Maintain e-filing system.
Administrative support	Enhance the quality of published journals through editorial review.
Administrative support	Ensure access to the SU network.
Administrative support	Ensure accurate and timely reporting of research outputs.
Administrative support	Ensure effective communication and follow-up with prospective
Administrative support	students on application progress. Ensure efficient operation and support for online platforms.
Administrative support	Ensure the quality and accuracy of student applications.
Administrative support	Event management administration.
Administrative support	Facilitating media communication processes.
Administrative support	Facilitating the discontinuation, or readmission of study process.
Administrative support	Facilitate payroll administration processes.
Administrative support	Identify telematic support services.
Administrative support	i-Recruitment vacancy management.
Administrative support	Leave administration management process.
Administrative support	Liaise and correspond with postgraduate students and other parties.
Administrative support	Liaise with timetable and assessments offices.
Administrative support	Liaise between students and companies offering bursary
Administrative support	opportunities.
Administrative support	Liaise with prospective students.
Administrative support	Maintain effective relationships with insurers for university support.
Administrative support	Maintain service level agreements.
Administrative support	Maintain filing system.
Administrative support	Maintain office infrastructure.
Administrative support	Manage travel and accommodation arrangements.
Administrative support	Manage tutor appointments and payments.
Administrative support Administrative support	Maintain office infrastructure. Manage travel and accommodation arrangements.

Administrative support	Manage visitor reception and inquiries.
Administrative support	Manage workshop administration.
Administrative support	Manage office supplies.
Administrative support	Manage research subsidies.
Administrative support	Manage access control.
Administrative support	Manage bursary offers.
Administrative support	Manage departmental booking system.
Administrative support	Manage departmental library.
Administrative support	Manage examination processes of master's and PhD students.
Administrative support	Manage first- year administration process.
Administrative support	Manage health research ethics submissions and enquiries.
Administrative support	Manage internal mail distribution and courier service.
Administrative support	Manage internal postgraduate student bursary contracts.
Administrative support	Manage logistics for conferences, workshops, courses and other events.
Administrative support	Manage postgraduate admission and examination processes.
Administrative support	Manage promoters and examiners.
Administrative support	Manage service and operations related to off-site storage facility.
Administrative support	Manage student communication process.
Administrative support	Manage teaching and assessment administration.
Administrative support	Manage the copyright permission process.
Administrative support	Manage vacation work reports.
Administrative support	Manage visa and other letters.
Administrative support	Manage visits and information sessions from external companies.
Administrative support	Manage yearbook and postgraduate prospectus publication process.
Administrative support	Manage performance management administration process.
Administrative support	Market and promote the faculty.
Administrative support	Meet needs within existing procedure and policy framework.
Administrative support	Monitor student progress and identify risk areas.
Administrative support	Monitor internal and external moderation process.
Administrative support	Monitor thesis progress of master's students.
Administrative support	Organise asset and inventory management process.
Administrative support	Organise designing and maintaining a customer database.
Administrative support	Organise funding application process.
Administrative support	Organise monthly vehicle logbook administration.
Administrative support	Organise office administration.
Administrative support	Organise staff and departmental communication.
Administrative support	Organise study visa process.
Administrative support	Organise and manage the department annual calendar.
Administrative support	Oversee and ensure quality delivery of hospitality services.
Administrative support	Oversee student management and allocation processes.
Administrative support	Plan and co-ordinate projects and programmes.
Administrative support	Plan and co-ordinate workshops, conferences and other events.
Administrative support	Prepare and manage teaching and assessment materials.
Administrative support	Provide insights to improve student admission through data analysis.
Administrative support	Provide support to first years and first-time registrations.
	-

Λ -l	Describe to desire the minute of the second
Administrative support	Provide technical equipment support and ensure functionality.
Administrative support	Provide administrative support for various projects and processes.
Administrative support	Provide an advisory service.
Administrative support	Provide student support.
Administrative support	Provide support to the risk and safety officer.
Administrative support	Recordkeeping and maintaining databases.
Administrative support	Registration of research outputs.
Administrative support	Responsible for library card for fellows and external academics.
Administrative support	Applicants screening and registration.
Administrative support	Support students with Internship and Community Service Programme applications.
Administrative support	Troubleshoot administrative bottlenecks affecting students.
Administrative support	Welcome and orientate new students.
	Ensure alignment with the national and international best practice
Advisory consultation	and theory.
	Provide strategic consultation to senior university administrators on
Advisory consultation	key strategic opportunities programmes.
	Provide advice on internationalisation to the Rector and Vice-
Advisory consultation	Chancellor.
1	Provide legal advice and support to students, staff and SU
Advisory consultation	management.
A division i a a manultation	Provide guidance and advice to students and staff regarding student
Advisory consultation	academic administration.
Advisory consultation	Advise on relevant higher education legislation, and policies.
Advisory consultation	Satisfy external funding providers' quality assurance requirements.
Advisory consultation	Source opportunities for external funding.
A all via a un cara constitución	Advise on and recommend architecture strategies, processes, and
Advisory consultation	methodologies. Advise lecturers on best practice for teaching, learning and
Advisory consultation	assessment.
Advisory consultation	Advise on methods to enhance the configuration of research-
Advisory consultation	related applications.
Advisory consultation	Advise on network standards and design configuration.
Advisory consultation	Lead brainstorming sessions to develop potential solutions.
Advisory consultation	Provide subject matter expert advice to staff and students.
7 (avisory consuttation	Recommend and participate in defining, developing and delivery of
Advisory consultation	future state architectures.
, , , , , , , , , , , , , , , , , , , ,	Advise senior and executive management on institutional
Advisory consultation	compliance with statutory and regulatory requirements.
	Provide expert advice and support for large change projects and
Advisory consultation	employee relations matters.
Advisory consultation	Provide guidance and advice regarding student integration activities.
Advisory consultation	Provide support and advice to staff and environments.
Botanical services	Ensure the correct use of pesticides and fertilizer.
Botanical services	Prepare greenhouses for trials.
Botanical services	Prune plants and make soil mixtures.
Budgeting/Financial	
management	Budget management.
Budgeting/Financial	
management	Procurement of external funds.

Building maintenance	Conduct inspections, make maintenance recommendations and ensure corrective actions/repairs.
Building maintenance	Distribute redundant furniture and equipment.
Building the	Develop and maintain good relations with prospective and current
organisational profile	students, supervisors, co-supervisors, and academic staff.
	Establish and strengthen SU's leadership role strategically
Building the	collaborating with other higher education institutions and national
organisational profile	and international organisations.
Building the	Manage relationships with sponsors, macro-service subscribers and
organisational profile	commissioned research providers.
Building the	Partner with external stakeholders to support institutional
organisational profile	partnerships.
Building the	
organisational profile	Provide support for unpaid volunteers.
Business management	Oversee SU group of companies and associated subsidiaries.
	Develop improved service delivery mechanisms in the context of a
Business partnering	changing environment.
Business partnering	Provide pro-active advisory services to clients.
Basiness partitering	Develop, implement and maintain an effective case management
Case management	system.
- Gass management	Ensure team compliance and quality assurance, aligning with the
Case management	university's risk management framework, legislation, and policies.
	Manage institutional interactions to maintain constructive
Case management	relationships.
	Provide expert case management for complex or high profile
Case management	collective and individual cases.
Case management	Provide expert guidance and advice to manage institutional risk.
Case management	Provide physical and psycho-social support to students.
Change management	Implement SU strategic, change, and operational initiatives.
Change management	Support the Rector and Vice-Chancellor to establish, achieve and
Change management	maintain the university's vision, mission, values and goals.
Change management	Ensure identification, initiation and prioritisation of change processes
Change management	aligned to strategic goals and initiatives.
Cleaning services	General cleaning of relevant working spaces.
-	
Cleaning services	Manage cleaning materials and supplies.
Client Services	Receive walk-in clients and handle telephonic enquiries.
Oli anak Canada an	Serve as the central contact point for the SU community, address
Client Services	general queries and provide emergency support.
Client Services	Provide a client-centred service experience.
Clinical care services	Provide clinical care and support to participants/clients.
Coaching	Provide a student-focussed sport experience.
	Promote research collaborations with internal and external partners,
	including universities, industry, and government, to advance
Collaboration	research and development initiatives.
	Contribute to academic administration and leadership in the
Collaboration	discipline, department and faculty.
	Contribute to the goals and functioning of the university and the
Collaboration	Health Department.
	Develop and strengthen industry relationships and managing
Collaboration	executive education and other academic relationships.
Collaboration	executive education and other academic relationships.

-	
Collaboration	Expand and strengthen collaboration with health services, communities and other stakeholders.
Collaboration	
	Expand and strengthen collaboration with stakeholders.
Collaboration	Promote internationalisation efforts of the university.
Callabaration	Collaborate with others to improve the standard and cost-
Collaboration	effectiveness of services to the university.
Collaboration	Ensure health research ethics capacity strengthening for researchers and HREC members.
Collaboration	Ensure strategic-communication between related departments, the
Collaboration	Senior Management and the broader university community.
Collaboration	Liaise and collaborate with divisions on student registration.
Collaboration	Participate in projects, committees, and forums.
Collections	Manage collection development
management	Manage collection development.
Collections	Manage incoming and outgoing loans and document movement of
management Collections	artefacts.
management	Undertake proper acquisition of new anthropological and historical collections.
Commercialisation	Analyse business opportunities for SU.
Commercialisation	Assess the commercial potential of SU intellectual property.
Commercialisation	Identify technology commercialisation opportunities.
Commercialisation	Manage new venture formation processes.
Commercialisation	Manage the process to close licensing deals.
Communication	Compile various forms of written outputs to support senior
strategies	management e.g. speeches, statements and briefings.
Communication	
strategies	Prepare and manage internal communication and information flow.
Community	
engagement and	Capacity development on CPG development, adaptation and
service delivery	dissemination.
Community	
engagement and	Contribute to the community through service and regular
service delivery	engagement with students, other researchers, and support staff.
Community	
engagement and	Deliver public addresses and media interviews across various
service delivery	platforms.
Community	Dramata within CCT's partfalia integrating goodalities. African
engagement and service delivery	Promote within CST's portfolio, integrating geopolitics, African development and sustainability.
Community	development and sustainability.
engagement and	
service delivery	Engage with vulnerable groups like children and refugees.
Community	Build community partnerships through engagement activities, like
engagement and	serving as a liaison between the Institute and key stakeholders
service delivery	within the broader adolescent mental health field.
Community	Facilitate and participate in community engagement activities, like
engagement and	serving as a liaison between the Institute and key stakeholders
service delivery	within the community and broader ECD field.
Community	and and a second a
engagement and	Identify opportunities for dissemination, community engagement,
service delivery	and social policy advocacy at community, district, and national level.
	, , , , , , , , , , , , , , , , , , , ,

Community	
engagement and	Identifying opportunities for routine youth engagement and
service delivery	integration of youth preferences into programming and research.
Community	
engagement and	Involvement in service learning and/or community interaction
service delivery	activities.
Community	Promote collaborative relationships with diverse stakeholders across
engagement and	the governance and energy sectors including researchers,
service delivery	practitioners, policymakers and community members.
Community	productioners, policymakers and community members.
engagement and	Clinical governance and participation in clinical service delivery
service delivery	commitments of the Department.
Community	Collaborate and participate in scientific and professional
engagement and	organisations and inter-departmental activities through innovative
service delivery	networking.
	networking.
Community engagement and	Ensure good quality information and robust monitoring and
service delivery	evaluation processes.
Community	
engagement and	
service delivery	Involvement with community interaction and projects.
Community	Destining to in a content of the con
engagement and	Participate in academically relevant departmental, school and
service delivery	faculty activities.
Community	
engagement and	Participate in social impact projects and render appropriate services
service delivery	to the university and teaching community.
Community	
engagement and	
service delivery	Render service to industry through specialist consulting.
Continuous business	
improvement	Ensure continuous business improvement.
Continuous business	
improvement	Gather, understand, interpret, and consolidate user requirements.
Continuous business	
improvement	Identify areas in which IT can support institutional needs and goals.
Continuous business	
improvement	Identify opportunities for process improvements.
Corporate management	Provide administrative and secretariat services to the Senate, the
and secretariat services	Council, the Convocation and the Executive management.
Corporate publications	Compile an annual production plan for institutional publications.
	Conceptualise various publications in accordance with objectives
Corporate publications	and stakeholders.
	Oversee the production and print management of corporate
Corporate publications	publications.
Corporate publications	Write, edit and translate various SU publications.
Curriculum design and	Assist with the development of study materials and supportive
development	learning resources for the unit.
Curriculum design and	Assist with planning, preparing, and implementing clinical skills
development	sessions.
acvotopiniont	Develop clinical documentation aligned with divisional outcomes
Curriculum design and	and the Health Professions Council of South Africa (HPCSA)
development	guidelines.
acrotopinoni	garacti 103.

Curriculum design and	Design the curriculum for the pre-hospital clinicians as it relates to the research.
development	
Curriculum design and development	Contribute to the design and development of e-learning and any other technology-based initiatives.
0.0 1 0.0 0.0 0.0 0.0	Conduct needs analysis relevant to all undergraduate programme
Curriculum design and	curricula for the design and development of relevant teaching and
development	learning materials.
Curriculum design and	Design, develop, plan and assessment of modules and programmes
development	within the subject area.
Curriculum design and	
development	Convene and teach courses and workshops.
Curriculum design and	
development	Innovate and co-ordinate development of course materials.
Curriculum design and	
development	Project conceptualisation, development and management.
Curriculum design and	Quality assures equipo materials
development	Quality assures course materials.
Cyber security	Facilitate a safe cyber environment.
Data management	Build and maintain databases.
	Collect, analyse and maintain relevant data and management
Data magnagana ant	information to inform internal and external impacts on financial and
Data management	operational strategies.
Data management	Develop new methods for analysis of different sample types.
Data management	Identify trends and develop strategies for improving processes.
Data management	Implement, manage and maintain Quality Management Systems.
Data management	Maintain student data on internal systems and annual calendar of events.
Data management	Manage data related to employee engagement.
Data management	Manage data collections and enhancing data security. Manage the administration and information published on SU
Data management	platforms related to the application and evaluation process.
Data management	Strategic planning and management of Research Data Services
Data management	(RDS).
	Supply data, analysis and information in support of decision-making
Data management	and planning on all levels of the university.
Data management	Build an electronic database of reported incidents.
Data management	Analyse and develop datasets to use as input to energy models.
	Assist with the design of data collection tools and supporting data
Data management	management.
Data management	Apply different analysis methods to determine requirements.
Data management	Benchmark data between environments and determine trends.
Data management	Build and maintain databases.
Data management	Conduct bioinformatic analysis.
Data management	Develop software to extract data.
Data management	Ensure access to raw and processed data sets.
Data management	Facilitate and support effective data management,
Data management	Gather and understand data for business strategy requirements.
	Fulfil service requests.
Delivery	
Digital humanities	Develop grant proposals.

	Develop legal agreements for online content securing necessary
Digital humanities	copyrights and permissions.
Digital humanities	Develop and implement the digital platform.
Document	2 o rotolo ama milotorno mono angivat pitawonini
management	Archive relevant SU documents.
Document	7 11 11 11 11 11 11 11 11 11 11 11 11 11
management	Provide technical input and support to aid in policy development
Document	Scrutinise SU policies, regulations, management documents and
management	rules.
Document	
management	Prepare strategic documents for senior management.
Document	Conceptualise, develop and implement policies and practices
management	aligned to national and international standards.
Document	Conduct document analysis of input/output requirements and
management	workflows.
Document	
management	Deliver documentation according to agreed quality standards.
Document	J = 1.9. 1 1 1. (1.1.1.1.)
management	Develop and maintain systems-related documentation.
Document	
management	Manage operational and data-related documents.
Electrical maintenance	Manage and maintain electrical tools.
Electrical maintenance	
	Test live lights, switches and plug circuits.
End-user support	Assist clients with resolving problems when using applications.
End-user support	Ensure remote and onsite technical support.
End-user support	Maintain information sharing platforms.
Enhancing learning	Assist with the assessment of students and provide feedback on
through assessment	assessed learning.
Enhancing learning	
through assessment	Support students in the completion of site-based assignments.
Enhancing learning	
through assessment	Develop clinical activities in line with curriculum outcomes.
Equipment	Assign equipment according to approved schedules, events and
management	venues.
Equipment	
management	Manage and monitor charging and repair of equipment.
Equipment	
management	Manage checking in and checking out of equipment.
Establishing and	
maintaining an	
environment for	Oversee and manage the clinical learning experience of students at
learning	allocated training sites aligned with the MBChB curriculum.
Establishing and	
maintaining an	
environment for	Support students and lecturers at SU to use the Simulation and
learning	Clinical Skills Unit.
Establishing and	
maintaining an	
environment for	Liaise with facility management and clinical staff at training sites to
learning	optimise the learning experience of students.
Establishing and	Sustain and maintain clinics in the absence of the students, during
maintaining an	exam times or university vacations.

environment for	
learning	
Establishing and	
maintaining an	
environment for	Promote the Speech-Language and Hearing Profession and Division
learning	for recruitment of students.
Establishing and	
maintaining an	
environment for	
learning	Promote discussion among pre-hospital clinicians.
Establishing and	
maintaining an	
environment for	Promote inter-professional education opportunities within different
learning	departments.
Establishing and	
maintaining an	
environment for	
learning	Market the unit to the other programmes at the faculty.
Facilities management	Conduct building inspection condition surveys.
Facilities management	Ensure adherence to all health and safety requirements.
	Identify, implement and monitor technical and maintenance
Facilities management	management strategies.
	Implement, manage and deliver a fully integrated facilities
	management solution including building infrastructure services and
Facilities management	support services.
Facilities management	Maintain mechanical systems.
	Manage the redevelopment of buildings, service installations and
Facilities management	university grounds.
Facilities management	Oversee network cabling in buildings.
	Proactive maintenance planning for all SU facilities to ensure
Facilities management	maximum return on building assets.
Facilities management	Clean workspaces.
Facilities management	Conduct regular equipment inspections.
	Maintain, repair and administer card access control, card payment,
Facilities management	and IP CCTV systems.
Facilities management	Prepare venues and move equipment and furniture.
Financial administration	Compile cost estimations and obtain quotations.
Financial administration	Reconcile daily sales and sales targets.
Financial administration	Ensure compliance with procurement requirements.
Financial management	Ensure financial sustainability of the institution.
Financial management	Financial management of the Centre of Responsibility.
Financial management	Develop the institutional finance strategy and financial models.
Ŭ .	Oversee the strategic financial planning and analysis of resource use
Financial management	and development.
	Maintain comprehensive knowledge of higher education funding
Financial management	and other models.
	Ensure institutional financial aid resources are geared towards the
Financial management	support of students.
Financial management	Manage the budget and compile financial reports.
Financial management	Budget management of equipment and disposables.
Financial management	Compile the annual budget and financial reports.
)

Financial management	Develop a long-term integrated financial plan for the environment.
Financial management	Develop and manage project budgets including budget control.
	Financial management and oversight of discipline projects and
Financial management	operations.
	Manage allocated central funds and financial management of short
Financial management	courses.
	Manage annual budget-related responsibilities, including overall
	financial forecasting, risk analysis, preparation of budgets and
Financial management	allocation of funds.
,	Manage central faculty procurement within policies and guidelines
Financial management	and ensure accurate financial reporting and asset management.
Figure in Landau and the same and	Process, manage and report on financial aspects related to the
Financial management	departmental budget.
Financial management	Procure ICT infrastructure and services for the RC/faculty within the
Financial management	scope of the teaching and learning environment.
Financial management	Provide strategic guidance on the class fee budgets and ensure
Financial management Financial management	alignment with academic programme strategies. Oversee day-to-day financial processing.
T indicial management	Oversee day-to-day financial processing.
Financial management	Responsible for annual internal audits where necessary.
Financial management	Budget management aligned with university policies.
Financial management	Prepare funding proposals.
Financial management	Prepare budgets and manage cost centre expenditure.
Funding applications	Identify funding opportunities and manage funding applications.
Funding applications	Write relevant grant proposals to secure funding.
Fundraising	Facilitate and promote external fundraising.
Fundraising	Donor fundraising stewardship.
Fundraising	Coordinate and manage alumni events. Fundraising (including stewardship), communications and advocacy
Fundraising	for mathematics pedagogy and learning improvement.
Fundraising	Fundraising for residential study and resources.
	,
Fundraising	Generate external funding opportunities.
Fundraising	Liaise and engage with key stakeholders, donors, clients and write
Fundraising	reports.
Fundraising	Obtain core funding for operational expenses and tuition bursaries.
Good governance/ Compliance	Conduct monitoring avaluation and learning (MEL) activities
Good governance/	Conduct monitoring, evaluation, and learning (MEL) activities. General management and quality control of the research
Compliance	laboratories in the division.
Good governance/	Monitor policy issues and trends that may impact or enhance
Compliance	research.
Good governance/	
Compliance	Oversee research ethics compliance within the division.
Good governance/	Oversee the development of administrative and organisational
Compliance	systems.
,	Assist researchers with administrative aspects of new applications
Grants management	for funding.
Ŭ	Facilitate research and supplier contracts, material transfer
Grants management	agreements and permits.
Grants management	Prepare budgets for grant applications.

development	Manage bursary programmes.
Programme	
development	Manage national and international funding programmes.
	Project manage initiatives across a range of transdisciplinary
Project management	governance themes.
Project management	Ensure the effective delivery of projects.
	Direct, coordinate and strategically integrate multiple projects at an
Project management	institutional level.
Project management	Manage and review project plans and schedules of the project team.
Project management	Provide project support.
	Contribute to the establishment, review and improvement of
Proposal writing	systems and processes for proposal development.
Proposal writing	Ensure execution of proposal development activities.
Proposal writing	Implement feedback from proposal outcomes.
Proposal writing	Provide proposal related support to project leaders.
Froposat writing	Design and co-ordinate an innovative outreach and public
Public engagement	engagement program.
T ablic engagement	Adopt a scholarly perspective to quality assurance and
Quality assurance	enhancement.
addity assurance	Contribute towards the development of an institutional quality
Quality assurance	enhancement culture.
Quality assurance	Manage the quality of output of researchers.
Quality assurance	Develop, manage and implement quality assurance processes.
Quality assurance	Manage quality assurance of academic material and assessments.
Quality assurance	Assist with external monitoring, audits and regulatory inspections.
Quality accurance	Evaluate the quality of doctoral supervision and doctoral programmes.
Quality assurance	Lead programme design, renewals and quality assurance against
Quality assurance	CHE standards.
Quality assurance	
Quality assurance	Conduct performance reviews on hardware.
Quality assurance	Establish and maintain strict quality assurance procedures and Standard Operating Practices (SOPs).
•	·
Quality assurance	Maintain accurate record of repairs and solutions.
Quality assurance	Perform quality assurance reviews on requirements or other outputs.
Quality assurance	Maintain injury records and tracking of related rehabilitation
Record-keeping	programmes.
necora-reeping	Maintain pre-set rehabilitation goals, outcomes and return to train
Record-keeping	and play protocols.
1.00014 Nooping	Develop and maintain effective recruitment initiatives that support
Recruitment	hiring strategies and employment equity initiatives.
Recruitment	Actively participating in recruitment initiatives.
NGCIUITITITI	Thenvery participating in recruitment initiatives.

Build a centre of excellence by providing a best practice service in
collaboration with other functions.
Manage online recruitment advertising, including job portals, social
media and LinkedIn.
Lead strategic recruitment initiatives to attract top talent and senior
leaders.
Manage, advise and co-ordinate the Senior Appointments Process.
Administer advertising processes and operations.
Manage recruitment activities on various social media platforms to
increase Employee Value Proposition.
Establishing and implementing a talent acquisition and retention
strategy to identify, attract and retain top performers.
Implement a long-term player development pathway.
Sourcing and recruitment of high-calibre candidates.
Optimise the compensation structure to ensure competitiveness and
alignment with institutional goals.
Analyse and report on industry and technological trends.
Ensure compliance with internal and or external reporting.
Oversee project operations including daily management, reporting
and administrative tasks.
Compile relevant internal and external reports as required.
Analyse and report on quality trends to inform improvement
initiatives.
Prepare status reports on divisional activities.
Provide financial reports on research funds.
Provide tailored, research-driven solutions to meet client needs.
Create pre-hospital research capacity through conducting research
and supervising research projects.
Stay current with best practices through ongoing, targeted research
and knowledge updates.
Provide data to inform research data management decisions at SU.
Assist with research studies.
Compile research support documentation.
Provide support for research studies.
Manage the administration and logistics of research contracts,
applications and proposals.
Plan and co-ordinate action research to enhance treatment and care
quality improvement programmes.
, , , , , , , , , , , , , , , , , , ,
Assist with new and ongoing research projects.
Build an economic model to guide a Just Energy Transition,
mapping a sustainable pathway for energy systems.
, , , , , , , , , , , , , , , , , , , ,
Co-manage the Zebrafish Husbandry Unit.
Conduct and co-ordinate primary and secondary research that
enables a better understanding of the impact of DFIs in post-COVID-
19 socio-economic recovery.

	Conduct research projects, including research methods related to
Research, innovation,	evidence synthesis and guidelines, focused on new-born, child
and impact	health, and public health.
Research, innovation,	Heatin, and public heatin.
and impact	Conduct assessment reviews for potential research projects.
Research, innovation,	Conducting transdisciplinary research across the governance
and impact	spectrum, with strong analytical competence.
Research, innovation,	Dissemination and the co-authoring of academic publications,
	reports, policy briefs and various working papers.
and impact Research, innovation,	
and impact	Contribute to grant proposals to support research programmes and research activities.
Research, innovation,	Design and conduct an international research stay-exchange as part
and impact	of fieldwork and stakeholder engagement.
and impact	Develop new research projects, including proposal writing,
Descared innevation	
Research, innovation,	budgeting, methodology design and measurement, selection, and
and impact Research, innovation,	training of research staff.
	Identify funding apportunities and writing of research grants
and impact Research, innovation,	Identify funding opportunities and writing of research grants. Identify and frame economic modelling assumptions for power
	,
and impact	system transition strategies.
Research, innovation,	Load and support grant applications to secure funding
and impact	Lead and support grant applications to secure funding.
	Develop transition scenarios for power systems to support the Just
December innervation	Energy Transition process, integrating finance and socio-economic
Research, innovation,	models, leveraging scenario modelling outputs from Eskom,
and impact	Meridian, and CSIR.
Research, innovation,	Manage receased study implementation
and impact Research, innovation,	Manage research study implementation. Manage research study implementation, including monitoring
and impact	project activities and budget adherence.
and impact	Manage research project implementation, including stakeholder
Research, innovation,	engagements, site (schools and health facilities) recruitment, and
and impact	establishing referral pathways and links.
Research, innovation,	Participate in planning and conducting research that leads to
and impact	research outputs.
Research, innovation,	Participate in institution building activities of CST, including teaching
and impact	and MPhil supervision.
and impact	Conduct independent cardio-metabolic physiology and
	pathophysiology research within the Centre for Cardio-metabolic
	Research in Africa's (CARMA) focus areas. Internal and external
Research, innovation,	funding applications to support laboratory-based research and
and impact	equipment acquisition.
Research, innovation,	oquipmont doquiotion.
and impact	Plan, organise and facilitate research opportunities.
a. ia iiipaot	Plan, organise and facilitate research activities, including developing
Research, innovation,	study procedures, protocols, and informed consent. Compiling
and impact	questionnaires and overseeing translation and piloting of tools.
Research, innovation,	question and everseeing danstation and pitching of tools.
and impact	Prepare manuscripts for publishing in peer-reviewed journals.
Research, innovation,	Enhance SACEMA and SU reputation through stakeholder
and impact	engagement and publishing impactful, high-quality research.
Research, innovation,	Lead the energy research team with special reference to research
and impact	that is aimed at publications.
and impact	that is diffical at publications.

	Support and supervise the data collection and/intervention teams,
Research, innovation,	ensuring timely referrals of participants who need psychosocial
and impact	support.
and impact	Provide virtual and in-person technical assistance to service
Research, innovation,	providers and researchers working to improve nurturing care and
	j ·
and impact	child nutrition within primary health and community-based settings.
Research, innovation,	Publication of research in recognised, peer-reviewed journals and in
and impact	chapters of books.
Research, innovation,	
and impact	Research planning and goal setting to identify research priorities.
Research, innovation,	Research and compile reports on socio-economic impacts of power
and impact	system finance proposals.
Research, innovation,	
and impact	Supervise postgraduate students.
Research, innovation,	
and impact	Support fieldwork arrangements and stakeholder engagement.
Research, innovation,	
and impact	Support research dissemination and communications.
Research, innovation,	Teach, train, supervise and mentor at postgraduate level (Honours,
and impact	Masters and Doctoral, where applicable).
	Undertake systematic reviews, realist reviews, and other
Research, innovation,	preparatory research linked to ongoing and new intervention
and impact	studies.
Research, innovation,	External examiner and moderator of undergraduate and
and impact	postgraduate examination papers, theses and dissertations.
Research, innovation,	
and impact	Actively contribute to the research outputs of the department.
	Responsible for research and innovation, including leading,
Research, innovation,	mentoring and participating in the design, execution, supervision,
and impact	publication and translation of research in priority areas.
·	Conduct an active and productive research programme within the
Research, innovation,	general focus of the department and publication of such research in
and impact	relevant peer-reviewed journals.
	Conduct an active research programme aligned with the
Research, innovation,	department's focus, and transferring technology through scientific
and impact	papers in peer-reviewed journals and congress contributions.
Research, innovation,	Deliver research outputs in the form of reports, papers, articles and
and impact	monographs.
Research, innovation,	Develop a research publication agenda and collaborations to
and impact	publish in international peer-reviewed journals.
Research, innovation,	Establish and manage a research centre in Financial Regulation Law
and impact	(the "Centre").
Research, innovation,	Generate funding in support of research activities, including
and impact	bursaries, laboratory maintenance, and other expenses.
Research, innovation,	Guide, mentor and supervise undergraduate and postgraduate
and impact	students across the faculty's distributed training platform.
Research, innovation,	Initiate, lead and conduct independent research resulting in peer-
and impact	reviewed publications and securing research grants.
Research, innovation,	Co-manage a research programme, in collaboration and extension
and impact	
	of existing programmes within the department.
Research, innovation, and impact	Conduct and cupor ico receased in priority areas
L SNOTIMESOT	Conduct and supervise research in priority areas.

Research, innovation,	Supervise and guide research work of undergraduate and
and impact	postgraduate students.
Research, innovation,	Attract individual and collaborative research income, to the
and impact	discipline, to support high quality research activities.
Research, innovation,	
and impact	Maintain a discipline-appropriate external research profile.
Research, innovation,	Develop strategic research direction, provide visionary leadership,
and impact	and guide departmental staff in their research endeavours.
Research, innovation,	Maintain high-level scholarly activity and stay updated with
and impact	developments in the field to perform the duties of the post.
Research, innovation,	Promote interdisciplinary collaboration and integrating research
and impact	areas within and outside the faculty.
Research, innovation,	Provide high quality postgraduate supervision and attract research
and impact	students to the Centre.
Research, innovation,	Leading innovative research, innovation and influence, including
and impact	national and international collaborations.
an an importer	Initiate and lead research linked to project and organisational
Research, innovation,	activities, collaborating with national and international research
and impact	groups.
Research, innovation,	Proactively seek research opportunities aligned with the core
and impact	business.
Research, innovation,	Business.
and impact	Monitor and evaluate research programmes.
Research, innovation,	Profitor and evaluate research programmes.
and impact	Publish research findings in accredited peer-reviewed journals.
Research, innovation,	Submit grant funding proposals to national and international
and impact	stakeholders.
Risk, governance and	Standflottacis.
monitoring	Oversee administration of the Simulated Patient Bank.
Risk, governance and	Oversee and facilitate training of Simulated Patients Inter-
monitoring	professional education initiative.
Risk, governance and	Facilitate and manage sound policies and practices for the
monitoring	functioning of the university.
Risk, governance and	Identify and manage the strategic and operational risks to which the
monitoring	university may be exposed.
Risk, governance and	Align SU policies and practices with the relevant national and
monitoring	international best practice.
monitoring	Monitor government legislation and regulations, while advising
Risk, governance and	senior university leaders of policy and legal developments
monitoring	impacting the university.
Risk, governance and	Monitor the effectiveness of implemented strategies to ensure
monitoring	effective execution.
Risk, governance and	Ensure institutional compliance with the relevant laws, regulations
monitoring	and standards.
Risk, governance and	and standards.
monitoring	Implement and monitor the university's institutional plan.
	Manage memorandums of understanding with several external
Risk, governance and	entities.
monitoring Disk governance and	
Risk, governance and	Ensure critical processes are sustained to comply with a range of
monitoring Disk governance and	statutory and contractual requirements.
Risk, governance and monitoring	Manage all legal matters of the university.
	LIVIADADO ALLIQUAL MALIQUE OF TRO HRIVOTCITV

Risk, governance and	Ensure compliance with relevant SU policies and procedures, and
monitoring	external regulations.
Risk, governance and	Identify risks and apply occupational health and safety measures
monitoring	and national building standards.
Risk, governance and	
monitoring	Compile Standard Operating Procedures (SOPs) and/or protocols.
Risk, governance and	Ensure accuracy and fairness of processes in terms of relevant
monitoring	legislation, policies and procedures.
Risk, governance and	
monitoring	Ensure that ethical requirements are fulfilled.
Risk, governance and	
monitoring	Ensure adherence to national and international regulations.
Risk, governance and	
monitoring	Manage and evaluate legal risks and impact.
Risk, governance and	
monitoring	Monitor compliance with relevant policies and procedures.
Risk, governance and	Ensure adherence to ICT architecture governance, principles and
monitoring	standards.
Risk, governance and	
monitoring	Monitor compliance with relevant SU policies and procedures.
Risk, governance and	
monitoring	Embed risk management practices.
Risk, governance and	
monitoring	Implement specific governance/quality improvement initiatives.
Risk, governance and	Develop appropriate policies in collaboration with other institutional
monitoring	stakeholders.
Risk, governance and	
monitoring	Ensure compliance with grant funder rules and regulations.
	Responsible for circulation standards, policies, and procedures to
Risk, governance and	ensure consistent and high-quality service delivery at SU Library
monitoring	branches.
Risk, governance and	Review and continuously improve the effectiveness of all academic
monitoring	administrative processes.
Risk, governance and	Conduct problem-solving, root-cause analysis, implementing
monitoring	corrective actions, and monitoring their effectiveness.
Risk, governance and	Provide strategic financial guidance, oversee programme budgets
monitoring	and ensure adherence to financial policies and procedures.
	Ensure RC/faculty services align with the appropriate governance,
Risk, governance and	management, and operational requirements from the university's
monitoring	central ICT department.
	Proactively identify and mitigate potential risks, develop crisis
Risk, governance and	communication strategies to protect the university's reputation and
monitoring	brand and minimise operational disruptions.
Risk, governance and	
monitoring	Financial and cyber security risk management.
	Facilitate the development of, and compliance with, health research
Risk, governance and	ethics standards, policies, and procedures at SU, aligned with
monitoring	national and international ethics guidelines and regulations.
Risk, governance and	Provide a supportive environment that encourages staff
monitoring	engagement.
Risk, governance and	
monitoring	Facilitate awareness of relevant processes.

Risk, governance and	Ensure or advise on adherence to relevant policies, processes and
monitoring	regulatory standards.
Risk, governance and	Provide guidance for adherence to pre-approved multi-year
monitoring	workforce plans and EE targets.
Risk, governance and	Negotiate contracts with favourable terms and obtain approvals
monitoring Disk governance and	though SU's correct procurement processes.
Risk, governance and monitoring	Develop standard operating procedures and tools.
Risk, governance and	Develop and review university policies, processes, and systems to
monitoring	ensure legislative compliance and effective implementation.
Risk, governance and	Manage tender proposals (RFP) and the tender procurement
monitoring	process.
Sales consulting	Provide sales consultation to convert leads to sales.
	Ensure work schedules are timeously coordinated and
Scheduling	communicated.
Security operations	Inspect buildings for closure of all doors, windows and fences.
Security operations	Monitor access control of entrances.
Security operations	Monitor alarm systems and CCTV cameras.
Security operations	Patrol on foot, motorcycle and bicycle.
Security operations	Provide safety escorts for students, staff and visitors.
Security operations	Respond to emergencies and alarm system activations.
Security services	Support a secure environment.
Security services	Plan and manage crime prevention on SU campuses.
,	Manage and oversee the optimal utilisation of SU security
	technologies like alarms, CCTV systems, patrol monitoring systems
Security services	and camera monitoring.
	Proactively identify, investigate, and mitigate high-risk situations to
Security services	ensure the safety and well-being of the university community.
Service delivery	Conduct quality control of goods and services.
Service delivery	Ensure service delivery to clients,
	Responsible for client service through continuous liaising,
Service delivery	communicating and marketing initiatives.
Comito a della comi	Establish a walk-in, one stop service point for prospective and
Service delivery	current research master's and doctoral students.
Service delivery	Manage service delivery aligned to service level agreements.
Comico deliver	Manage service providers, service contracts and service provider
Service delivery	performance.
Service delivery	Manage the student admissions process.
Simultaneous	Interpret and produce an accurate complete and scheropt target
interpreting and translation	Interpret and produce an accurate, complete, and coherent target
เาสารเสมบา	message using standard language. Ensure continuity and successful delivery of functional services to
Software management	users throughout the university.
Software management	Implement and maintain the HRIS software for SU.
Stakeholder	Strategically establish, maintain and promote sound relationships
engagement	with staff, students and key national and international stakeholders.
Stakeholder	Ensure the university participates in local, regional, and international
engagement	initiatives.
Stakeholder	Represent the university interests at local, regional, national and
engagement	international level.

Stakeholder	Promote collaboration between the university and society to share
engagement	knowledge, skills and expertise.
Stakeholder	
engagement	Liaise with internal and external stakeholders.
Stakeholder	Source investment opportunities for energy transition projects
engagement	through outreach and proposals.
	Co-design and implement capacity building activities, including
	research material for practitioners. Focusing on methods to address
Stakeholder	governance, geopolitics, disinformation and sustainable
engagement	development.
	Collaborate with local and international research partners to
Stakeholder	conduct research and deliver multi-country energy studies that will
engagement	facilitate cross-learning and policy-influencing evidence.
Stakeholder	Collaborate with colleagues from other departments to strengthen
engagement	multi-disciplinary research and overall institutional outputs.
	Develop joint research proposals with members of the energy
Stakeholder	research team and research partners in South Africa, and
engagement	international research institutions.
Stakeholder	Engage with research project partners to plan phases of new
engagement	studies.
	Engage key stakeholders, including adolescents and youth, in co-
Stakeholder	creating psychosocial and community-based interventions for
engagement	adolescent mental health.
Stakeholder	
engagement	Identify and collaborate with partners and liaise with stakeholders.
Stakeholder	
engagement	Initiate and manage international stakeholder networks.
	Lead stakeholder engagement and collaboration in Southern Africa's
	energy sector to advance a just energy transition, strengthen
Stakeholder	governance, alleviate energy poverty, and inform policy.
engagement	
	Oversee planning of the institute's conferences, seminars and
Stakeholder	workshops, including the development of topics/themes, agendas
engagement	and identifying/soliciting appropriate speakers/facilitators.
	Support regional and country-specific events and/or convenings to
Stakeholder	facilitate learning and partnership to nurture care and child nutrition
engagement	initiatives.

	Promote the professionalisation of teaching, the scholarly teaching
Strategic leadership	role, and the reward for good teaching.
Strategie teadership	Provide visionary strategic direction and leadership in the various
Strategic leadership	research related functions.
Strategie teadership	Support the Rector and Vice-Chancellor to execute the university's
	strategic vision and to achieve institutional goals and objectives.
Strategic leadership	Advance internationalisation initiatives.
Strategie teadership	Develop and execute the university internationalisation plan and
Strategic leadership	international strategy.
Strategie teadership	Identify new international business growth and strategic initiatives
	that will benefit the university and drive future international growth
Strategic leadership	through new opportunities and activities.
Strategie teadership	Provide strategic leadership to increase social impact, aligning with
Strategic leadership	the university institutional intent and strategy.
Strategie teadership	Lead the development and implementation of the university Human
Strategic leadership	Resources Strategy and plan.
Strategic planning	Develop strategies to enhance teaching and learning in faculties.
Strategic planning	Develop relevant strategies to support digital transformation goals.
Strategic planning	Develop strategies to identify and investigate potential new
Strategic planning	prospects.
Strategic planning Strategic workforce	Review support staff job evaluations and promotions to analyse
planning	contribution to diversity.
Strategic workforce	Support alignment of appointments and promotions with the Code
planning	for Employment Equity and Diversity.
Strategic workforce	Support development and implementation of talent management
planning	strategies.
Strategic workforce	Support identification and appointment of employees from
planning	designated groups.
Strategic workforce	diseignated greates
planning	Align multi-year workforce plans with the allocated budget.
Strategic workforce	Co-develop a multi-year workforce plan to improve staff retention,
planning	succession planning and staff mobility.
Strategic workforce	Develop and maintain a comprehensive understanding of
planning	environment plans.
Strategic workforce	Ensure all staffing activities are aligned with multi-year workforce
planning	plans.
	Develop and manage a model for student placement and the cost
Student placements	implications.
Supporting and	
monitoring educational	Support the division with teaching, training, and assessment of
progress	undergraduate and postgraduate medical students.
Supporting and	
monitoring educational	
progress	Evaluate student performance.
Supporting and	
monitoring educational	
progress	Evaluate and revise the educational curriculum.
Supporting and	
monitoring educational	Oversee pre-hospital clinicians' clinical practice related to research
progress	activities.
Supporting and	
monitoring educational	Drovide elipical mentarchia for are becalted elicipies
progress	Provide clinical mentorship for pre-hospital clinicians.

Supporting and	
monitoring educational	Support the implementation of isiXhosa teaching and learning
progress	processes and initiatives.
	Collect, analyse and write specifications (functional and non-
System support	functional) and business cases.
System support	Create new information platforms.
System support	Maintain system processes.
Зузтант зарран	Manage Workflow Transactions, Schedmast User, and relevant
System support	processes.
	Perform complex system integrations and advanced network
System support	configurations.
	Provide system administration support for development, testing and
System support	production systems.
System support	Provide technical services to ensure optimisation of IT.
System support	Update existing information platforms.
Teaching and	Train third year medical (MBChB) students at Primary Health Care
facilitating learning	training sites.
Teaching and	Educate students on-relevant Health, Education and Disability
facilitating learning	policies relevant to the discipline.
	Educate students to be proficient in technical skills (interpersonal
Teaching and	skills, managing referrals, review of patient information, patient
facilitating learning	bookings, discharging patients, clinical writing, edit reports).
Teaching and	Educate students to be proficient in evidence-based and current
facilitating learning	assessment and therapeutic techniques.
Teaching and	
facilitating learning	Facilitate Interdisciplinary Practice and Education clinics.
Teaching and	Teaching, learning, and assessing clinical skills for students in the
facilitating learning	faculty.
Teaching and	Offer contemporary theoretical and clinical content for students in
facilitating learning	the undergraduate nursing programme and beyond.
Teaching and	Teaching and advising pre-hospital clinicians on study-related
facilitating learning	procedures.
Teaching and	Facilitate isiXhosa clinical communication teaching and learning
facilitating learning	interventions to SU FMHS students.
Teaching and	Coordinate interprofessional education in the Simulation and Clinical
facilitating learning	Skills Unit (SCSU).
Teaching and learning	Assist with teaching, supervision support and student engagement.
	Co-ordinate and conduct training of data collection and intervention
Teaching and learning	teams, piloting intervention and/or research processes.
	Facilitate learning and training including teaching, mentoring and
Tooching and lookning	guiding of postgraduate students, in theoretical and practical
Teaching and learning	aspects of Disease Modelling and Drug Discovery.
Teaching and learning	Plan, organise and facilitate learning opportunities.
	Provide trauma support training to data collectors and affiliated
Teaching and learning	practitioners to provide appropriate psychosocial first aid to trauma survivors.
reacting and tearring	Support teaching on the PGDip and Diploma modules in Sustainable
Teaching and learning	Development.
Teaching and learning	Provide leadership to faculty policy and practice in teaching.
Teaching and learning	Contribute to knowledge transfer activities.
Teaching and learning	Develop and evaluate course material.

	Develop innovative approaches to learning, teaching, and
Teaching and learning	assessments.
	Responsible for teaching and learning, including guidance and
Teaching and learning	supervision of undergraduate and postgraduate students.
	Responsible for teaching and learning, including leading and guiding
Teaching and learning	curriculum development and assessments.
To a phin or and leasuring	Contribute to the review and enhancement of modules and
Teaching and learning	programmes ensuring quality assurance.
Teaching and learning	Teach undergraduate and postgraduate modules.
Teaching and learning	Mentor and encourage scholarly and educational leadership activities, including scholarship of Teaching and Learning.
Terminology	activities, including scholarship of Teaching and Learning.
development	Capture and collate terminology on various platforms.
Terminology	captare and octate terminology on various platforms.
development	Develop terminology for academic purposes.
·	Identify applicable workshops and courses to meet the institutional
Training	training needs.
Training	Manage the successful delivery of workshops and courses.
Training	Conduct institutional training needs analyses.
Training	Establish user confidence.
Training	Develop, coordinate, promote and implement training programmes.
Training	Facilitate student training and coaching.
Training	Facilitate research workshops, seminars and conferences.
	Identify, develop and arrange alternative interventions to address
Training	research development needs.
Transformation	Staff Diversity
Transformation	Student Diversity
Transformation	Transformation Competencies
