Undergraduate teaching involvement

Founder of a longitudinal clinical skills module for the MBChB programme (this was first implemented in 2010 and takes place from year 3 to year 5). I am still involved in the teaching and assessment of these modules.

Supervised three MBChB final year students' optional research projects.

Act as an internal supervisor for MBChB students' elective projects every year.

Postgraduate teaching and supervision involvement

- I am the MPhil in Health Professions Education (HPE) module chair/facilitator for the modules: Curriculum development, Assessment and Clinical Skills development.
- Since 2016 I am the programme co-ordinator for the MPhil in HPE
- I have supervised 16 graduated MPhil in HPE students with their research projects
- I am supervising 9 MPhil in HPE students and co-supervising 1 PhD student
- I am a Facilitator for Teaching Evidence Based Health Care in the MSc Clinical Epidemiology course
