

SRC Statement on Welcoming & Inclusivity

The streets of Stellenbosch are buzzing with excited newcomers, and the Stellenbosch University Student Representative Council 2020/2021 wishes to welcome every single one of the 2021 newcomers!

The values of this Institution are Compassion, Equity, Respect, Accountability, and Excellence. These values guide the beliefs and attitudes of all Maties. One of the University's core strategic themes is a transformative student experience. To get a better understanding of this theme and how the leaders at Stellenbosch and Tygerberg campus strive to ensure that every student's experience from their first to their last year is a transformative one, you can read this article by the SRC and TSR <https://bit.ly/3kOdQoL>.

Our own vision as an SRC is to strive to be a productive and integrated structure that encourages holistic student success and produces tangible results. We are committed to model this vision in everything we do and to ensure that the students of SU feel welcome and effectively represented by all their leaders.

To the hard-working house committees, mentors, senior's committees, societies, and all students giving their time during this Welcoming period, we thank you for your leadership and your service.

We are indeed moving forward together.
