Campus Engagement Task Team Chairperson (Ex-Officio) Term Report 2

This report contains the feedback made by Nikolaa de Klerk, the Chairman of the Campus Engagement Task Team for Student Parliament. My purpose is to make students more aware of Student Parliament and what it is.

Projects

During term 2, Student Parliament's Campus Engagement Task Team hosted a quiz night. It was a fun activity used to engage with students.

Student Parliament Quiz Night

During the course of this project, there were many discussions and difficulties that came with it, specifically regarding costs. The task team got together to discuss questions and prizes, which went well. However, obtaining the prizes proved to be a bit difficult. We initially wanted a venue to host the quiz night in, but as I spoke to building managers and the Chairman of Student Parliament, we decided that the costs that come with a venue could not fit within our budget. Instead, we held the quiz online through Quizlet, which proved to be effective. We had winners, many tied for first place. Additionally, a "second round" was hosted for those who tied for first place, resulting in the Quiz night receiving a final winner.

Remarks

Term 2 was more active than term 1. I saw the Student Parliament Committee more often and we participated in team-bonding activities.

Conclusion

In summation, Student Parliament is growing stronger as a unit and will, hopefully, become a more well-known structure of governance within Stellenbosch University.

Kind regards,

Nikolaa de Klerk
